THE COEUR D'ALENE RIOTS

FACTS CONCERNING PERMIT SYSTEM

Proceedings in the Senate and House—Time Extended for Ratification of French Reciprocity Treaty.

Washington, March 21.—The examination of Gill was continued before the Coeur d'Alene investigation committee today. The witness told of a visit to the "bull pen." At that time a prisoner chanced to put his fingers through a hole inside the prison, thereupon a colored soldier on guard outside shoved a bayonet in the protruding fingers inflicting a bloody wound. A copy of the permit required of those seeking work in the district was introduced. It recited facts concerning the holder, that he was not a member of the union and that he took an oath to obey the law.

Cross-examination was directed to proving that the permit system was designed to secure an orderly force of workmen in the mine.

W. B. Shields testified to being at Sturgis, Mont., some distance from the Coeur d'Alene trouble, when a miner named Francis was placed under arrest by soldiers. People of the town stated that Francis had worked there for many months, including the time of the riot.

THE SOUTH AFRICAN WAR

Probability that Peace Will Be Declared by June.

MAKING STILL AWAITS RELIEF

A Pretoria Account of the Skirmish at Fourteen Streams—Desultory Fighting North of Kimberley.

London, March 21.—While there is a lull in military operations, present surroundings of the war show interesting developments. The colonial office has telegraphed to Cape Town the text of a proclamation concerning the destruction of property. This will not be published in London until after its promulgation in South Africa, but it is known it will renew the intimation that any wanton destruction of British property during the war will be regarded as warranting a claim for compensation and as justifying a levy upon private property, should the resources of the Transvaal in the form of a basis of the successful South African republic will be administered as crown colonies. In this connection it is understood that the leaders of the opposition in parliament now admit that no other settlement is possible, since the republics insist upon their demand for absolute independence. In view of this, efforts of the liberals will be confined to securing in the settlement the best treatment of the Dutch population including security against their disfranchisement.

It is becoming regarded as quite a settled matter that should the war be ended, as is now hoped, before June, the government will dissolve parliament and appeal to the country on a basis of the successful South African policy. Should the war drag on, dissolution will be postponed until next spring. In any event one of the foremost planks of the government platform will be army reorganization.

Lull in Hostilities.

London, March 21.—The only news from South Africa showing activity on either side, comes from Warrantown, north of Kimberley, where desultory fighting occurred Sunday resulting in the retreat of the Boers towards Christiansburg. Nothing comes from Colonel Plummer and Making apparently still awaits relief. Pretoria accounts of the skirmish at Fourteen streams on March 16 says the engagement lasted half an hour with the result that one burgher was slightly wounded. The same dispatch announces the arrival at the Transvaal capital of General Schalk Burger from Natal. A corps of young Boers from the farms surrounding Bloemfontein under an imperial officer has been detailed for police work and to prevent further looting of abandoned farms by the kaifirs. It is said that when Kruger left Bloemfontein, after his visit there, Steyn's parting remarks were: "Mind the British do not catch you, or you will get better quarters at St. Helena than I." The Boers at Aliwal North are reported as still holding a position in the hills of the Free State side.

STEYN'S PROCLAMATION.

Those Who Will Not Fight Will Be Shot as Traitors.

London, March 21.—The war office has received the following dispatch from Lord Roberts, dated Bloemfontein, Tuesday, March 20: "Kitchener occupied Pretoria yesterday unopposed. The rebels surrendered their arms. The Transvaalers escaped across the river.

"Steyn is circulating notice, by means of dispatch riders, in reply to my proclamation to the effect that any burgher who signs the declaration that he will not fight against us again, will be treated as a traitor and shot.

"Bloemfontein people are affording us every assistance in matter of hospital accommodations. We have consequently been able to arrange for 500 beds.

"Thirty-three prisoners were taken at Prieska, 100 stands of arms and some supplies and explosives.

"The Boers have begun to surrender on the Basutoland frontier."
