TUESDAY, MARCH 27, 1900.

NEWS WORDS WON THE SUIT.

Recovered Judgment for Value of Band

of Sixty Dollars from Him. C. E. Redfield, of Heppner, arrived in this city Sunday from Weiser, Idaho, where he appeared for Mr. P. R. McWord, of Heppner, in a case involving the ownership of a band of sixteen hundred sheep. The case is rather peculiar in that the jury returned a verdict for the band of 1900 more than the amount sued for.

Dr. McWord had a band of sheep in the care of one Green Matthews. Matthews was a Heppner man, whom the doctor trusted with the affairs connected with his sheep interests, and who drew liberally upon the doctor for expense money, so liberally that the doctor finally went in person to Idaho, where the sheep were kept, and found that Matthews had been squandering the money at the gaming table. The doctor returned to Heppner in a hurry on Saturday, March 24. The doctor won his suit, the jury returning a verdict at \$3,333 1/3 a band, which would give him about \$1900 more than the amount named in the original complaint. The judge of the court ruled that he cannot recover more than the \$4000 for which he sues.

The evidence disclosed, to the satisfaction of the jury, that the purchaser Thompson must have known that there was fraud on the part of Matthews, inasmuch as Matthews was in so great a hurry to sell at the low price of \$2, that he drew liberally upon the doctor for expense money, so liberally that the doctor finally went in person to Idaho, where the sheep were kept, and found that Matthews had been squandering the money at the gaming table. The doctor returned to Heppner in a hurry on Saturday, March 24. The doctor won his suit, the jury returning a verdict at \$3,333 1/3 a band, which would give him about \$1900 more than the amount named in the original complaint. The judge of the court ruled that he cannot recover more than the \$4000 for which he sues.

TO CLUB WOMEN.

"Upon Meeting" Thursday Afternoon.

General Federation Biennial.

The Thursday Afternoon Club announced that on Thursday, March 29, there will be an "open meeting" at the home of Mrs. S. P. Sturgis. The program is as follows:

"Why women should study domestic science," "The building of a house," "The five food principles." Each paper to be followed by discussion.

Domestic science a subject that appeals to all club women and housekeepers and the afternoon promises to be of unusual interest. All club women are cordially invited to attend, 3 o'clock sharp.

General Federation Announcement.

Mrs. James A. Fee, state chairman of correspondence for Oregon, is in receipt of announcements regarding the biennial meeting of the General Federation of Women's Clubs at Milwaukee Wis.

The announcement follows: Milwaukee, Wis., March, 1900.

To Club Women in General: The announcement of the G. F. W. C. biennial of 1900 will be held in Milwaukee, Wisconsin, June 4 to 8 inclusive, has been widely heralded. The reputation of previous biennials and the representative character of the present G. F. W. C. officers and program committee seem a sufficient guarantee that the fifth biennial will equal, if not surpass, those that have preceded it; but, agreeable to suggestion, the biennial local board willingly prepares a statement relating to the local environment of the biennial.

To the generally accepted verdict that Milwaukee is a beautiful city, conveniently located as regards railroads facilities (reduced rates, etc.), with fine hotel accommodations, and private homes available if required, there may be added a general willingness to make every effort to insure the success of the biennial, while the invitation to our city has been extended by the Citizens' Business League, and every club, federated or unfederated, having pledged its cooperation, are sufficient proof of a widespread interest. Committees under the leadership of chairman especially fitted for their work have been formed to meet every need, four new committees having been added to those in force at Denver, namely, art, reception, introduction and non-resident introduction. The first named, art, will have in addition to its local features the cooperation of the G. F. W. C. art committee, the remaining three having been formed in the interest of hospitality.

The alert G. F. W. C. program committee wisely says "nay" to every thing relating to the details of the program, but it provides a wide range on all the accepted lines, education, industrial education, art, etc., each occupying a prominent place.

The biennial local board entertainment committee has arranged features on interest on social lines; and to meet an expressed demand, the biennial appointed building known as "The Athenaeum" (of interest to clubwomen as the result of the pioneer woman's stock company) is to be made a center for the informal intercourse of delegates and visiting club members.

Only an outline can be given, but the biennial local board trusts that it may inspire a feeling of confidence in the general plan, as well as a desire to become a participant, for it is the club women of the land who are to contribute the crowning result by bringing to the deliberations wise counsel, calm methods and earnest sympathy.

Trusting that the end towards which all our efforts tend may prove the realization of your expectations, I remain, Very cordially yours,

ELLEN M. H. PECK, President Biennial Local Board.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1123 Howard St., Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough; that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this royal cure: "It soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like shouting its praises throughout the universe." So will every one who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Prices 50c and \$1. Trial bottles free at Tallman & Co.'s drug store. Every bottle guaranteed.

BILLS OF THE PLAYS.

"Who is Who?" and the Jeffries-Sharkey Pictures this week at the Frazier.

The title "Who is Who," which has been assigned to the musical farce comedy in which Pusey and St. John and a large company are presented under the direction of E. D. Stair and Geo. H. Nicolai, certainly indicates the nature of the vehicle. It is termed a comedy of complications and promises a merry antidote for the blues. While the play takes of all the elements of legitimate farce, there will be sufficient interpolations of specialty features to entitle it to be classed with the most frolicking farce comedy bill extant. This superb organization will be seen at the Frazier opera house Wednesday night.

On Friday night come the Jeffries-Sharkey pictures. There are many exciting incidents shown in the Jeffries-Sharkey contest pictures that remind one of the arena at Coney Island. In the second round of the contest, Sharkey is floored twice by left hand swings on the jaw, but comes back quickly and fights on fiercely. The fifth round is a lively one and shows both men to advantage. Jeffries draws first blood from Sharkey's left ear in the eighth and opens a deep gash over the sailor's left eye in the tenth, from which the blood runs freely. Sharkey goes to the floor again after a few seconds of fighting in the eleventh round, but this time he elips.

COMPLAINS OF GARBAGE DUMPING.

G. I. LaDow Has a Big Kick, Which City Officials Will Heed.

George I. LaDow was at the city hall this morning, with a loud complaint against the dumping of garbage and all sorts of refuse matter at the levee near his residence at the lower end of Court street. Mr. LaDow stated that certain scavengers are accustomed in the night-time to haul many varieties of filth and debris to that part of town and unload them. This is not only offensive to the people living there, but is contrary to the statute made and provided for the prevention of such acts.

The law is plain and not to be misunderstood, in any way, can read English. It provides penalties, and means for the imposition of those penalties.

The city officials at once took up the matter and assured Mr. LaDow that his complaint would receive prompt attention. Mayor Vincent was seen, and stated that the city police officers would be instructed to exercise vigilance to obviate continuance of such abuses. Greater care will henceforth be taken

to patrol the town in the night time and persons violating the garbage and other ordinances will be brought to court to answer for their offenses.

It is understood, also, that the railroad companies have registered official complaints that cars standing in the yards are too frequently broken into and things of value abstracted therefrom. The companies' officers say that these instances have been numerous, and the city officials are asked to take action such as will prevent that class of thieving in the future.

A Balloon That May Be Steered.

This latest invention in the way of air ships is attracting great attention. The most wonderful thing about it is its simplicity. It is propelled by a small double petroleum motor, similar to that used in automobiles. Ordinary coal gas can take the place of hydrogen for the purpose of filling the balloon, as only an hour is required for this work with gas, whereas hydrogen takes a day. This discovery ought to make the road through the heavens as free from danger as does Hostetter's Stomach Bitters the road through life. Behind it is the fifty years of cure. Weakness, indigestion, dyspepsia, debility, nervousness, constipation, malaria, or any disease arising from a weak stomach cannot withstand it. It is an excellent spring tonic.

BOUGHT BAILEY DITCH PLANT.

New Company Will Rebuild Ditches and Flumes Near Umatilla.

The new company recently formed here has purchased the plant and rights of the Bailey Ditch company, which for several years operated three miles below Umatilla on the Columbia river. The ditch and flumes of this company have been allowed to go partially to ruin, although many thousands of dollars have been invested in this enterprise. The recently formed company, which is composed of substantial business men of this city, has undertaken to rehabilitate the scheme, and are, at the present time, causing extensive repairs to be made. In fact, the ditch and flumes will be put in first class condition, and an attempt made to carry out the irrigation plans of the original company. Many thousands of acres of arid land lie under the ditch, land capable of producing anything green in this zone, if only water be put upon it.

The successful issue of the new plans formed will constitute an important addition to the agricultural and fruit interests of that portion of the county, and it is generally hoped here that the company will prosecute the work to successful issue. That this will be done, is assured by a gentleman who is at the head of the enterprise, and who is abundantly able to insure it.

Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelpha was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had been consulted. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at Tallman & Co.'s drug store.

Doctors Can't Cure It!

Contagious blood poison is absolutely beyond the skill of the doctors. They may dose a patient for years on their mercurial and potash remedies, but he will never be rid of the disease; on the other hand, his condition will grow steadily worse. S. S. S. is the only cure for this terrible affliction, because it is the only remedy which goes direct to the cause of the disease and forces it from the system.

I was afflicted with Blood Poison, and the best doctors did me no good, though I took their treatment faithfully. In fact, I seemed to get worse all the while. I was ailing every second of my life, and had no effect whatever I was directed to take. At the advice of a friend I then took S. S. S., and began to improve. I continued the use of it until I was completely healed, and my health and increasing my appetite. Although this was ten years ago, I have never had a sign of the disease to return.

W. E. Newsum, Beaumont, Texas.

It is like self-destruction to continue to take potash and mercury; besides totally destroying the digestion, they dry up the marrow in the bones, producing a stiffness and swelling of the joints, causing the hair to fall out, and completely wrecking the system.

S. S. S. For the Blood

is guaranteed Purely Vegetable, and is the only blood remedy free from these dangerous minerals.

Book on self-treatment sent free by Swift Specific Company, Atlanta, Ga.

LIVESTOCK BUYER QUILTS.

Harry Knox Says He's Out of the Market. Prices Asked Are Too High.

Harry S. Knox, who represents the Swift Packing Company's interests in this section, departed this morning for Chicago.

"I am called in," said Mr. Knox, "with instructions to attempt no more buying in the west during the present season. Only radical changes and unlooked for conditions will bring any of our buyers into this field prior to the fall."

Mr. Knox was asked to speak of the reason why he was ordered to report at the home office.

"Simply because every grower of livestock in this country has such high prices for their stock that we cannot do business with them. Their mean prices which are not consistent with the market conditions present and prospective. The livestock raiser, like the wheatgrower, in this region, has apparently decided to combine the business of speculating with that of producing. The two vocations are entirely separate. The experience of the wheat raiser during the past two years has demonstrated that holding for higher prices is unprofitable. There is no essential difference between the livestock and grain markets so far as concerns the element of speculation. It is an adage in the east and the middle west that sell at the close of harvest is the more profitable than to hold. This would be wise for the stockman, also.

"I am, I believe, voicing the sentiments of all the buyers for Eastern houses, in explaining why I am going out of the market and will not try to buy anything for the present."

Mr. Knox said that
