Useless Sacrifice of Lives. London, April 9.—(Correspondence of the Associated Press.) The following has been received from South Africa under date of March 31: An officer with General Buller, who scathingly described the disaster at Spionkop today, continues his remarkable series with denunciation as bitter as ever upon a general. He includes a terrible indictment against the useless sacrifice of the Irish brigades.

"We have been blundering along the line of hills that form the northern bank of the Tugela for many months, attempting to pass it at all sorts of impossible places and suffering heavy loss each time. No one knows the ground or the route to learn it. As an example of this sublime indifference General Buller was not aware that Hlangwani mountain which commands a crossing of the Tugela, was on the southern side of the river until he had failed in three different attempts. Yet he lived for weeks within three or four miles of the hill. As to strategy, there was none, neither good, bad nor indifferent."

PRO-BOER MEETING. A Great Demonstration in Liberty Loving Philadelphia. Philadelphia, April 10.—One of the greatest demonstrations of sympathy, both in the number of participants and in the enthusiasm displayed, ever shown in this city for any foreign nation, took place last night when the Academy of Music was jammed with people for the purpose of taking part in the Philadelphia school boys' pro-Boer rally. The primary object of the gathering was to send a message of greeting to President Kruger signed by 22,000 pupils of the schools of this city. So great was the crush, mostly of the younger generation, that many thousands were unable to get near the door. Webster Davis, W. Bourke Cochran and others addressed the meeting. After the speech making was over, James F. Smith, a 14-year-old messenger boy, was called to the stage by means of the regulation call box and was given a message of sympathy signed by school boys with instructions to proceed to Pretoria and to hand it personally to President Kruger. Tuesday the messenger will sail on the steamship St. Louis and before the vessel reaches Southampton he will be taken off by a French tender and landed at Havre, France, in order to avoid English territory.

COURT MARTIAL FOR FUNSTON. The Kansas General Accused of Killing Filipino Prisoners Without Warrant. THE SOUTH AFRICAN WAR

Boer Attack on Brabant's Forces Resumed at Wepener.

KRUGER'S TROOPS ARE ENCOURAGED

They Again Hold the Free State East of the Railroad—Their Strength Being Greatly Augmented.

London, April 10.—The Boer attack on Brabant's force at Wepener was resumed at dawn today. The enemy's attack on two or three sides Monday lasted until 2:30 p. m. Brabant's force, numbering from 2000 to 3000, holds a position in the rough country. It is not known what numerical strength the Boers have, but it is being rapidly augmented. A body of 2000 is marching towards Springfontein from Smithfield. Events in the southeast portion of the Free State have caused the Eighth division, which was ordered to Fourteen Streams, to be diverted to Springfontein. The presumption is that Roberts is making a disposition to cut off the raiding Boer forces. Boers are reported south of Biggarsburg and are said to be posting heavy guns four miles north of Elands Laager. They are also said to have fortified the vicinity of Wessel's neck. The war office proposes to land at Cape Town before the end of May, twenty thousand horses from New Orleans, Buenos Ayres and Australian ports.

Battle on Sunday River. Ladysmith, April 10.—Heavy firing was heard this morning in the direction of Sunday River.

Trouble at Elands Laager. Pietermaritzburg, April 10.—Heavy cannonading commenced this morning in the vicinity of Elands Laager.

Boers Greatly Encouraged. Bothulie, Monday.—A force of Boers is located twelve miles east. As a matter of fact the Boers practically hold the Free State eastward of the railroad and are greatly encouraged by the successes at Reddersburg and Korn Spruit.

A Winter Campaign. London, April 10.—Britons are now beginning, though reluctantly, to realize that Lord Roberts is in for a winter campaign, lasting several months. This is the end, in a few words, of the high hopes based upon Lord Roberts' brilliant dash to Kimberley and Bloemfontein.

Preparations are being made to hold Bloemfontein against surprises. Lord Kitchener has been given an important duty, being responsible for the protection of the railway, while Lord Roberts is waiting for remounts and winter clothing for the troops, whose thin coats, khaki uniforms and boots are worn out.

General Brabant and General Gataco are both at a standstill. Lord Roberts will probably for some time confine his operations to clearing the Free State behind him of raiders and to the relieving of Mafeking, for which purpose, apparently, the English division now arriving at Cape Town, has been ordered to Kimberley.

COURT MARTIAL FOR FUNSTON. The Kansas General Accused of Killing Filipino Prisoners Without Warrant. Manila, April 10.—An interesting topic of conversation in army circles is the investigation of Brigadier General Frederick Funston's execution of two Filipinos and the possibility of court martial resulting therefrom. The story is that the Filipinos caused the arrest of three Macabebe scouts, who were crossing the country near San Isidro and were preparing to kill them when one of the Macabebes escaped and found General Funston with a scouting

party near. This man guided the Americans to the rescue of his companions and when the troops appeared the Filipinos fled, leaving the Macabebes. Several of the Filipinos were shot and General Funston captured two of them, took them to a village square and hanged them without trial as a warning to Filipinos.

The present method of warfare and instances of mutilation of prisoners have incensed American soldiers to such a degree that they feel justified in making reprisals, which has been done on several occasions recently.

His brother-in-law, John R. McLean, is alleged to be responsible for this latest move. Within 48 hours Dewey has been in consultation with democratic leaders and others antagonistic to President McKinley, and the opinions they expressed, together with the unfavorable views voiced by the newspapers, decided him, it is asserted, to withdraw from the contest.

A REPORT AGAINST CLARK

The Montana Senator Will Be Asked to Vacate.

INVESTIGATING COMMITTEE'S REPORT

Testimony Considered Sufficient to Warrant a Verdict Against the Defendant. The Triumph of Duty.

Washington, April 10.—The senate committee on privileges and elections decided unanimously in favor of unseating Senator Clark of Montana. The report is to declare the seat of Clark vacant, not to expel. The consensus of opinion of the committee appeared unfavorable to accepting any special feature against Clark as basis for the report against him, the general opinion being that it was the cumulative character of the testimony that should be considered. The purchase of property from Senator Warner and Representative McLaughlin and the money tendered Representative Wood to lift a mortgage from his ranch were considered as bearing directly upon the case. The payment of money to representatives after Clark's election also had weight. The committee agreed that all facts connected with the campaign were sufficient to justify the positive position against the senator continuing to hold his place. The report is expected to be presented at an early day. Clark was surprised at the result but refused to make a statement.

Ex-Senator Faulkner, counsel for Clark, was summoned to the capitol immediately after the verdict of the committee was announced, and had a long consultation with his client over the situation.

Members Working for Oregon. Washington, April 10.—The river and harbor committee determined on several questions regarding emergency work. The committee considered the advisability of recommending amounts for three places where the needs are exceptional, viz.: South Pass, Mississippi, connecting the waters between Lakes Huron and Superior, and the Columbia river, Oregon. Senator McBride, who was before the committee, stated that the level of the Columbia had been lowered from thirty to twenty-four feet and urged the emergency of the appropriation. The committee probably will allow these items because of the pressing needs involved.
