NEW ROCK ISLAND CARS.

Passenger Equipment Still Being Improved on this Popular Line.

The Rock Island road is making many improvements in its passenger service and is placing a great many new passenger coaches in the service. Fifteen new high back passenger coaches have just been received by the road for service both east and west of the Missouri river, and which will be placed in use immediately, and now the road has received several fourteen section Pullman sleepers from the Pullman company, and which will also put in their fast train service between Omaha and Pueblo.

These new Pullmans are the best which are turned out of the Pullman shops. They are modern in every way, and contain many features which will be pleasing to the passengers. They are wide vestibuled, are lighted with Pintsch gas, and the upholstering and interior finishing of the woodwork is artistic in the extreme. The color scheme which is so prominently brought out in the high class coaches of today is carried out perfectly in these new Pullmans. Heavy carpets adorn the floors and the entire furnishing of the car is in thorough keeping with the high standard of the best Pullman service.

ROUGH ON COYOTES.

Great Mortality Incident to the State's Bounty Law.

According to certificates filed with the secretary of state since May 6, 1899, 51,008 coyote scalps have been presented to the various county courts of the state in accordance with the bounty law by which the state is to pay $2 for each scalp. As the law levying a special tax for this purpose was not complied with in Multnomah and perhaps some other counties, the state is without funds to pay the certificates, and their value will depend upon an appropriation to be made by the next legislature. Harney county leads the list with 3020 scalps, Umatilla following with 2845, Malheur next, Lake 2143, Crook 2089; while Morrow, Wasco, Wheeler, Baker, Klamath, Grant and Gilliam show upwards of 1000 each. Polk shows the lowest number recorded, 8, while Multnomah furnishes 16. Upon county records attest the fact that not all the "varmints" were exterminated within the county's borders in the time mentioned.

H. Clark, Chauncey, Ga., says DeWitt's Witch Hazel Salve cured him of piles that had afflicted him for twenty years. It is also a speedy cure for skin diseases. Beware of dangerous counterfeits. Tallman & Co.

STATE REPUBLICAN PLATFORM.

As Adopted at the Convention in Portland on April 12.

The republican platform of the June election in Oregon is as follows:

"The republicans of Oregon, in convention assembled, reaffirm their belief in and loyalty to the gold standard. We commend the republican congress for its recent legislation making the gold standard a part of the statutory law of the land. So long as either of our great political parties advocates the free coinage of silver, the maintenance of the gold standard is the most important political issue, affecting as it does the value of the farmer's crop and the laborer's wages. We call upon all who believe in sound money to unite with the republicans of Oregon in the important elections of this year in order that a victory may be won for the gold standard as decisive as is necessary to preclude the debasement of our currency by the free coinage of silver.

"We indorse the policy of the administration in securing the Philippine islands, and demand that they shall be retained as American territory. We have confidence that the American people, without departing from their traditions, will give security to personal and property rights, justice, liberty and equality before the law to all who live beneath its flag.

"We indorse the policy of the administration in suppressing the insurrection in the Philippines, headed by Aguinaldo. We point with pride to the honorable part played by the Second Oregon regiment in this war. They met with victory in every combat and covered their state and country with glory on every field. We condole with the families of those members of the regiment who lost their lives in the conflict and extend our congratulations to the survivors of the regiment on the brilliant and honorable record they have made.

"We regard trade with the Orient as one of the great sources of our national wealth in the future, and an open door in China as an important aid to the growth of our trade in the Orient. We commend the successful efforts of the present administration, and especially of its secretary of state, to secure by treaty with the several European powers the right to the free introduction of American goods into this great empire.

"The republican party in Oregon recognizes the vital necessity of control of the organization and curtailment of the powers of trusts and combinations of capital by the state within its borders, and pledges its support in the approaching legislature to laws defining and carrying out those objects.

"We are in favor of retirement and reform in the expenditure of public money; we pledge the republican party to favor the enactment of all legislation looking to an economical administration of public affairs."

Believe in Advertising.

Russell & Co., the enterprising machinery dealers, with headquarters for the Pacific coast at Portland, Ore., believe in advertising the goods they have for sale. Their advertisement will be found from time to time in the East Oregonian and we ask that our friends in writing them, state where they saw their name. Their business for the past few years has increased wonderfully, and they anticipate receiving their full share of this year's orders. They build good machinery and look after the wants of their customers.

Plenty of Rain.

The abundant rains which have fallen of late are causing a very rank growth of wheat and other grains, in fact, a growth too rank and likely later to make the grain lodge. The moisture which is being stored in the ground is a good thing, but for the present enough rain has fallen and the crop could get along without any more precipitation. Umatilla county is having plenty of rain during April. More than an inch fell last week, and this week probably as much will be recorded. The rain of last night and today has been constant, and little prospect is held out by the appearance of the sky of a cessation. Reals in today's telegram predicts showers for tonight, and clearing weather with low temperature for tomorrow.

THE PARIS EXPOSITION.

President McKinley Insisted on Sunday Closing for the American Exhibit.

Washington, April 13.—President McKinley instructed Commissioner General Peck to secure from the exposition authorities the utmost possible Sunday closing for the American exhibits at Paris. The president would have been glad if consent to close the whole American section could have been secured, but this the authorities would not listen to. They it said would not be fair to the public to close such an important exhibit as that of the United States, and if the United States were given this privilege other governments might demand it, and in this way the success of the exposition be jeopardized, as it is well known Sunday is the great day for any international exposition in Paris. But the United States had the right to do as it pleased with that part of the American exhibit which is directly under the control of the government, and therefore the national pavilion, covering the United States government and departmental exhibits, will be kept closed on Sunday. The commissioner general's offices will also be closed.

It is an interesting fact that it was the earnest representation of Commissioner General Peck, at the instance of President McKinley, which led the exposition board to decide to make Saturday next instead of Easter Sunday the opening day of the great international fair. This much of an influence in favor of Sunday observance the president was able to exert.

The Paris Exposition.

Paris, April 13.—Exposition authorities are making strenuous efforts to prepare the show for inauguration tomorrow, but the task is practically impossible. To facilitate clearing the grounds thousands of soldiers have been utilized. The ceremonies are timed to begin at 2 p. m. tomorrow.

Two Boiler Explosions.

Big Rapids, Mich., April 13.—A boiler in a sawmill at Sylvester exploded last night, killing David Zimmerman and James Moffett. Oscar Zimmerman was severely injured.

Wheeling, W. Va.—Two boilers in the furnace of the Riverside plant of the National Tube Co. exploded today, destroying three buildings and the boilers in the steel works and water works. Several workmen were injured.

Kentucky Contest.

Frankfort, Ky., April 13.—The attorneys for the republican officials decline to sign an agreement to hasten the litigation for the possession of the minor state officers through the state courts so that the supreme court can hear it with that for governor. No reason is assigned.

Dissolution of Eighth Army Corps.

New York, April 13.—A special to the Herald from Washington says: Orders will be issued this week formally directing the dissolution of the Eighth army corps. It has been merged into the division of the Philippines, with four departments, presided over by general officers.

The Southern Railway Strike.

Atlanta, Ga., April 13.—Both sides engaged in the telegraph strike on the Southern railway consider the situation encouraging today. Trains are arriving one to five hours late.

Our Standing Army.

We are wont to say in the United States that our standing army consists of a few thousand soldiers, more or less. In one sense this is true, but the real standing army of the United States, the army that is doing more to make the United States a good place to live and a good place in which to own property, and a good place in which to rear our children, is the great army of Sunday schools where the children are taught right principles of morality and good citizenship. The golden rule is of benefit to good government, and Sunday schools teach the golden rule. There are about 148,000 Sunday-schools in the United States and Canada, with about thirteen and a half million members. This is our real standing army. Bibles are better than battalions when it comes to genuine protection. The International Sunday school convention, which meets every three years, is looking after all of these Sunday-schools and is the only agency that gathers the Sunday-school statistics of the whole country.

In the Same Fix.

A Portland youth started to take his best girl to the theater one evening last week. The couple boarded a street-car, and when the conductor came in for the fare, the young man dived down in his pocket. To his horror, he discovered that his pocket was absolutely empty. Looking up at the conductor, he blurted out: "I've changed my pants and left my money at home." Then he looked questioningly at the girl. She shook her head, and murmured: "So have I." The conductor grinned, the maiden blushed, and the young man signaled to stop.

SCROFULA

The Blighting Disease of Heredity.

In many respects Scrofula and Consumption are alike; they develop from the same general causes, both are hereditary and dependent upon an impure and impoverished blood supply. In consumption the disease fastens itself upon the lungs; in Scrofula the glands of the neck and throat swell and suppurate, causing ugly running sores; the eyes are inflamed and weak; there is an almost continual discharge from the ears, the limbs swell, bones ache, and white swelling is frequently a result, causing the diseased bones to work out through the skin, producing indescribable pain and suffering. Cutting away a sore or diseased gland does no good; the blood is poisoned. The old scrofulous taint which has probably come down through several generations has polluted every drop of blood.

Scrofula requires vigorous, persistent treatment. The blood must be brought back to a healthy condition before the terrible disease can be stopped in its work of destruction. Mercury, potash and other poisonous minerals usually given in such cases do more harm than good; they ruin the digestion and leave the system in a worse condition than before.

S. S. S. is the only medicine that can reach deep-seated blood troubles like Scrofula. It goes down to the very roots of the disease and forces every vestige of poison out of the blood. S. S. S. is the only purely vegetable blood purifier known. The roots and herbs from which it is made contain wonderful blood purifying properties, which no poison, however powerful, can long resist. S. S. S. stimulates and purifies the blood, increases the appetite, aids the digestion and restores health and strength to the enfeebled body. If you have reason to think you have Scrofula, or your child has inherited any blood taint, don't wait for it to develop, but begin at once the use of S. S. S. It is a fine tonic and the best blood purifier and blood builder known, as it contains no poisonous minerals. S. S. S. is pre-eminently a remedy for children.

SAVE THE CHILDREN.

When my daughter was an infant she had a severe case of Scrofula, for which she was under the constant care of physicians for more than two years. She was worse at the end of that time, however, and we almost despaired of her life. A few bottles of Swift's Specific cured her completely, as it seemed to go direct to the cause of the trouble. I do not believe it has an equal for stubborn cases of blood diseases which are beyond the power of other so-called blood remedies. S. J. BROOKS, Monticello, Ga.

Our medical department is in charge of experienced physicians who have made Scrofula and other blood diseases a life study. Write them about your case, or any one you are interested in. Your letter will receive prompt and careful attention. We make no charge whatever for this.
