PROGRESS OF THE WAR

Boers Bombard the British Trenches at Warrenton.

IT RESULTED IN LITTLE DAMAGE

Buller's Forces Weakened by Withdrawal of Two Brigades—Confidence Being Restored in London.

London, April 14.—The only development reported today from South Africa is the heavy bombardment of British trenches at Warrenton April 13, but which resulted in no damage, the Boers apparently being under the impression that the British meditated an attack. From Boer sources it is learned that General Botha has returned from the fighting lines at Glencoe and reports that the British had removed their camp in the direction of Elands Laagte. Reassuring reports from Bloemfontein have done much to restore confidence in London. All correspondents seem to agree that Lord Roberts knows what he is about. Critics eagerly speculate on the possibility of Boer commands in the future being cut off. The weakening of Buller's force by the withdrawal of the Union and Irish brigades is attributed to the fact that Buller has decided that forcing of his troops is impracticable and he will merely attempt to maintain his status quo. Roberts, in an advance opens his road through Laing's nek.

Boer Peace Commissioners. Milan, April 14.—The Boer peace commissioners started for the Hague this afternoon.

The Story Not Credited. Rome, April 14.—Nothing is known here in corroboration of the report that Count Von Bunsow, German minister of foreign affairs, has visited the Transvaal peace envoys at Milan, and the story is not credited. The Portuguese minister, however, has gone to that city.

CLARK SEAT IN THE SENATE. The Montanian Will Continue to Fight for It.

Butte, Mont., April 14.—A special from Washington to the Inter-Mountain says: It is now certain Senator Clark will not resign. The pressure from his Montana friends and legal advisers is all in favor of contesting to a finish. The Times this morning says that Senator Clay, Mason and plans of Heitfeld will make a fight on the floor of the senate, claiming that a two-thirds vote is necessary to unseat him. They claim that the report of the committee does not sustain the direct charge of bribery against him. They will expose the character and plans of his enemies and he will doubtless make a speech in his own behalf. This policy will prevent the appointment by the governor and may lead to the election of two republican senators, so a majority in opposition to delay is not expected. Senator Mason will conduct the fight for Clark. The latter has made no statement.

DEWEY'S POLITICS. Bryan Democrats Decide to Welcome Him into the Party.

Chicago, April 14.—Bryan democrats have decided to welcome Admiral Dewey into the democratic party. Such is the position officially outlined in today's democratic press bulletin, which says: "We may accept the admiral's declaration of political faith as indicating that he is with the democratic party, at least on the majority of the issues it has taken up. This is a most gratifying fact. It indicates that should the democratic party deny the admiral the nomination which he seeks, it may nevertheless count on his hearty co-operation and influence in behalf of its efforts to end the evils of McKinleyism."

Entombed in a Burning Mine. Pittsburg, April 14.—A number of miners, estimated at from two to sixteen, are imprisoned in a mine at Hazlet station behind a wall of flame and smoke. They were caught yesterday by the fire and all last night upon fought the flames. There is little hope that any of the men will come out alive.

Telegraph Strike Situation. Chattanooga, Tenn., April 14.—A bulletin issued by the striking operators of the Southern railway insists that more operators are joining the strikers every day. Southern railway officials state that the wires have been cut on the Memphis, Knoxville and Atlanta divisions and there is considerable interference with the operation of trains.

Paris Exposition Opened. Paris, April 14.—The Paris exposition was opened at noon today with imposing ceremonies. President Loubet opened the exposition with the words: "I declare the exposition of 1900 open." The exhibition of "Viva Loubet" and "Viva La Republique" rose from 40,000 visitors.

Bank President Pleads Guilty. Boston, April 14.—Chas. H. Cole, former president of the Globe National bank, under indictment for misappropriation of funds of the bank, pleaded guilty today. Sentence will be pronounced later.

Excitement Along Carbon River. Tacoma, April 14.—Great excitement is reported along Carbon river, near Fairfax, where placer gold running \$1 to the pan has been discovered, and a stampede from adjacent towns has begun.

TRADE CONDITIONS.

Dun Reports a Heavy Wholesale Business—Returns Show an Increase but Are Not Satisfactory.

New York, April 14.—Bradstreet's in their weekly review of the trade of the country says: Backward spring weather conditions have figured considerably in distributive trade reports this week and in connection with some weakness in prices of leading stocks have imparted an appearance of irregularity to the general situation. Another of those downward swings in the prices of agricultural staples is exhibited this week in slightly lowered prices for cereals partly because of the bearish position of immediate supplies and partly because of the better than expected government crop report, which is taken to indicate a possible winter wheat yield in excess of all records. The crop outlook as a whole favors the expectation of a large yield of corn and of cotton.

Metals show little change on the week, copper being in continued good demand and iron, while tin is somewhat weaker and lead is strong at previous prices. Hardware trade reports as a whole relative best advices coming from western distributive centers.

A slight upward swing in cotton is to be noted this week and southern mills have advanced prices. Some more inquiry is noted in raw wool, without, however, affecting prices. Strength of raw sugar is reflected chiefly by the fact that a considerable shortage is looked for in the supplies of cane sugar, not only in Cuba but in the far east. The margin between raw and refined allows of no profit at present prices.

Business failures for the week 152, compared with 182 last week.

Dun's Report. New York, April 14.—R. G. Dun & Co.'s Weekly Review of Trade today says: The boot and shoe industry falls behind in the output by the closing of some work and the running of many others part of the time, because prices are higher than retailers were ready to pay.

A heavy wholesale business has been done in dry goods, but the question is now whether retail distribution will justify it? As yet, returns are not satisfactory, there is an increase, but not enough to warrant the buying from mills. Woolens and worsteds are dull, with concessions in fabrics, though staples are well sold up and are firm, the material declines further averaging nearly half a cent lower than April 1. There is the same uncertainty in cotton goods as in retail distribution, with quite as much doubt whether prices will be maintained, though the material has been again advanced a sixteenth in speculation.

In spite of the heavy balance due on merchandise account there has been talk of gold exports and a small amount has gone to Buenos Ayres on European account. Supplies of money are abundant here, the banks having again gained largely, rates are low and commercial demands narrow, and the interior is better prepared than ever to do without aid.

COMPLIMENTARY TO W. J. FURNISH. The Portland Oregonian Editorially Approves a Well Known Pendleton Man.

The Portland Oregonian editorially approves the nomination of W. J. Furnish by the state republican convention as a presidential elector, is a proper recognition of the democrats who came to the republican party in 1896. It was the high patriotism of men like Mr. Furnish that saved the country from a great calamity at a critical time in its history. Upon the issues of 1896 there was a radical change in the constitution of the political parties of the country. Men who hitherto had been republicans went in large numbers over to Bryanism, and in return the republican party received a greater number of the class of democrats of sounder economic and political views. In Oregon the republican party got not less than 500 democrats of this sort, and they saved the state from the slump to Bryanism. No one of these democrats did more than Mr. Furnish, and his nomination as presidential elector is only a just recognition of what these democrats, now republicans, did at one of the most critical occasions in the country's history.

TO CORRECT BASHFULNESS. Think Not of Yourself, but of What You Are Doing.

"The bashful young girl must stop thinking about herself," writes Margaret E. Saugster in the April Ladies' Home Journal. "I heard the other day of a man, a college student, who went to visit his sister, a college student also. He was the one man, as it happened, in the dining room with five hundred girls, and he had occasion to cross the room with their bright eyes beaming on him with curiosity and interest. Said my informant: 'The boy was completely at his ease. You would have thought his sister the only girl present.' Evidently the young man's mother had brought him up in a sensible way and he was free from that basic of comfort, self-consciousness. It is hard for a diffident person to be free from awkwardness, and very acute distress and much humiliation may be the results of an extreme shyness. Try not to think how you look, what impression you are making, what sort of gown you have on. Do not let your mind dwell on yourself, but think of what you are to do, and of making others pleased and happy. Once you are free from self-consciousness, bashfulness will trouble you no more."

The Coeur d'Alene Investigation. Washington, April 14.—Connor Mallot continued his testimony in the Coeur d'Alene investigation today. He was present at a meeting at Wardner called by the business men with a view to committing General Merriam to permanent establishment of the martial law in the Coeur d'Alenes. Merriam, however, was unalterably opposed to such permanent policy. The whole purport of Merriam's remarking the witness said, was against the criminal organizations which had developed in the Coeur d'Alenes, and not against labor organizations in general.

Washington, April 14.—Secretary Hay has formally notified the Madrid government that the United States cannot accede to its claim that Sibutu island and Caygan, Sulu, of the Philippines archipelago, belong to Spain.
