PROSPECT FOR THE HORSE SHOW.

Likelihood that May 5 Will Be an Event of Importance.

Preparations which are being made for the horse parade in Pendleton on May 5, insure greater success than was anticipated when the project was originally evolved. The entertainment committee of the Pendleton Commercial Association, securing the co-operation of the well known horseman, Frank Frazier, announced that the parade would be given, and expected only 20 or 30 entries for the exhibition of fine racing and driving horses. The list has gained steadily, until now the prospect is that no less than sixty animals worth being exhibited, and with extra fine breeding, will be in line on that day.

Although it was not expected that the parade would attract any great attention outside of Pendleton in the towns of this county, the few announcements of the parade that have been made have brought inquiries from many other towns, including Portland, regarding the character of the show, and assuring the management that quite a number of intending purchasers will visit Pendleton on that day to see what this town has to offer in the way of saleable roadsters. The demand for well-bred and speedy roadsters seems to be constantly on the increase. Although but a few years ago horses of all classes, except the finest racers, were not saleable at any price, there is now an active inquiry and many persons in the larger cities of the north coast are negotiating with Pendleton horsemen for the purchase of fine roadsters. The fact that there have been entered for inspection in the parade no less than fifteen animals which can show miles in better than twenty, and that a number, in addition, can speed a mile in better than forty, assures a remarkable showing on the day of the parade.

Owners of hosres should send in the names, sire, dam, age and color, with record, if any has been made, to Frank Frazier at once. It will save much inconvenience in arranging the program, which it is desired to have printed. The parade will occur one week from today, Saturday, May 5.

Worse Than War.

Hundreds are killed in war, bu hundreds of thousands are killed by consumption. There would be no deaths at all caused by this terrible disease, if people could be made to understand that Shiloh's cough and consumption cure is a sure remedy if taken in the early stages. 25 cts., 50 cts. and $1 a bottle. Druggists will refund the money if a cure is not effected. Tallman & Co., leading druggists.

CHRISTIAN ENDEAVORERS TO MEET.

State Convention at Albany May 25-27. County Convention Here May 18-19.

The Thirteenth annual convention of Oregon Christian Endeavorers will be held in Albany May 25, 26 and 27, 1900. All arrangements are nearing completion for a large and enthusiastic convention. The principal speaker will be the renowned temperance orator, John G. Woolley. Another attractive feature of the convention will be the popular evening meetings. One of these evenings will be given up to a stereopticon entertainment, in which the famous pictures by J. James Tussot, illustrating the Life of Christ, will be reproduced.

Reduced rates will be secured on the railroads for those desiring to attend.

Pendleton will send delegates who will be selected at the county convention of Christian Endeavor societies to be held here on May 18-19. Regarding the county convention, the following announcement is made:

The Christian Endeavor Societies of Umatilla county will hold their annual county convention at Pendleton, May 18-19. The convention will hold its sessions in the Congregational church. The Endeavor Societies of Milton, Weston, Athena, Helix and Pendleton will be represented. The last annual convention was held at Milton. It is expected that the convention this year at this place will excel all previous meetings of this young people's society, and it should do so. All other young people's Christian organizations of Pendleton are invited to participate in the exercises of the convention.

District Sunday School Convention.

At Helix, on the tenth of May, a district Sunday School convention will be held. The convention will be for the district at and in the vicinity of Helix, a sub-division of the county under the plan evolved at the county convention which was held in Pendleton. The Sunday school work of the county is being pushed quite vigorously and it is the intention to do considerable work during the coming summer.

A Night of Terror.

"Awful anxiety was felt for the widow of the brave General Burnham of Machias, Me., when the doctors said she could not live till morning" writes Mrs. S. H. Lincoln, who attended her that fearful light. "All thought she must soon die from pneumonia, but she begged for Dr. King's New Discovery, saying it had more than once saved her life, and had cured her of consumption. After three small doses she slept easily all night, and its further use completely cured her." This marvelous medicine is guaranteed to cure all throat, chest and lung diseases. Only 50c and $1. Trial bottles free at Tallman & Co.'s.

Cold Steel or Death.

"There is but one small chance to save your life and that is through an operation," was the awful prospect set before Mrs. I. B. Hunt, of Lime Ridge, Wis., by her doctor after vainly trying to cure her of a frightful case of stomach trouble and yellow jaundice. He didn't count on the marvellous power of Electric Bitters to cure stomach and liver troubles, but she heard of it, took seven bottles, was wholly cured, avoided surgeon's knife, now weighs more and feels better than ever. It's positively guaranteed to cure stomach, liver and kidney troubles and never disappoints. Price 50c at Tallman & Co.'s drug store.

LIME DIPPING THE BEST.

Sheepmen Prefer to Lose Slightly in Price and Gain in Weight of Fleeces.

Letters are being received from Boston, written at the instance of the American Wool company, in which notice is served that the wool trust will discriminate against all wools from the Pacific coast, sheared from sheep which have been dipped in lime. The letters state that the American Wool company is a consolidation of twenty-nine of the largest mills of the east, and that their annual consumption of wool will be from one hundred million to one hundred and twenty million pounds, annually. Based upon this statement, the letters intimate that the wool trust will be able largely to control the status in the eastern markets of the wools from any given section of the Union. It is asserted by the writers of the letters, who are prominent handlers of wool in Boston, that when the sheep are dipped in lime the fiber of the wool is injured materially, decreasing the manufacturing value of the product. In the interest of the wool industry, it is urged upon all western sheep men that the practice of dipping in lime be discontinued, and that other preventives of scab be employed.

The letter was shown to W. J. Furnish, a local wool commission merchant, and Mr. Furnish said:

"The statement made regarding the injury to the wool fiber by dipping in lime is correct. All wool men recognize the fact that the fiber is somewhat injured by that method of dipping, and the value of the wool upon the market is decreased, probably, five per cent when that method is employed. When wool is worth nominally ten cents a pound in the grease, the injury will cause a loss to the wool grower of about half a cent a pound; yet, nevertheless, the practice of dipping in lime will, in all probability, and should be, continued, for the reason that it is the best method for preventing scab. Although the wool does sell for half a cent a pound less than it would if it were not dipped in lime, yet the lime dip is so immeasurably superior to any other method of preventing scab that the advantages more than offset the slight loss in selling value.

"By the careful use of lime in dipping, scab has been almost completely eradicated in the bands of this section of country. At the present time, Eastern Oregon sheepmen have scarcely any scab against which to contend, their bands being remarkably free from it, and the sheep being in a very healthy condition. This induces the growth of very much heavier clips of wool than would be raised if scab were present in the sheep, and the extra weight of wool much more than offsets the slightly decreased price at which wool may be sold.

Mr. Furnish was enthusiastic over the excellent prospects before the wool raisers and declared them as good as those of any previous year.

Regarding the condition of the sheep and the fine fleeces being removed and the high rate of increase of lambs, the county livestock inspector, Charles Myers, substantiates Mr. Furnish's statements.

The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment, Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. Danger of Ocean Wrecks.

It is stated that the Atlantic ocean contains many wrecked vessels which drift hither and thither, and as their positions change with the winds and tides, they are a constant menace to ocean traffic. Because of the great expense they are not destroyed until they have inflicted actual damage. How like this is the action of many persons, who wait until they are ill before treating such dangerous symptoms as indigestion, dyspepsia, constipation, liver or kidney troubles. Don't allow them to menace your health. Hostetter's stomach bitters will clear the system of all impurities, making the blood rich and the nerves strong. It cures all stomach disorders, and is an unequalled spring medicine. See that a private revenue stamp covers the neck of the bottle.

EN ROUTE TO ALASKA.

Dr. Sheldon Jackson Passes Through Pendleton on His Way North.

Dr. Sheldon Jackson, who has gained fame as an Alaskan explorer, was a passenger to Portland on the Chicago-Portland special this morning. Dr. Jackson goes to Alaska on a government mission, in connection with the recently enacted laws, and will investigate the agricultural resources of that territory.

Dr. Jackson for many years has devoted himself to matters pertaining to the development of Alaska. Notwithstanding the numerous instances in Alaska of malfeasance by government officials, as well as even more numerous instances of official misfeasance and "non-feasance" and all other sorts of feasances, Dr. Jackson is known to be an earnest, sincere man, who has done much for the future good of Alaska. He was responsible for the introduction into Alaska of the Lapland reindeer, and believes these animals will be valuable as means for transportation in the wintertime.

Dr. Jackson has apparently labored with unselfish devotion, inasmuch as he has not turned his attention to the amassing of wealth, but has given all the time spent in that territory to the work of exploration and missions.

He will sail soon from Portland or Seattle to prosecute the work which has been assigned him in the north.

Political Mention.

The Athena Press speaks of several of the democratic candidates as follows: Sheriff Blakely and Roone Watson were up from Pendleton Monday and were present at the organization of the Bryan club.

W. J. Chastain, of Milton, who is a candidate for representative on the democratic ticket, will develop the full strength of his party at the polls.

B. B. Hall, of Weston, will get a big majority in Athena's two precincts for assessor. Athena people believe him to be the right man for this office. While casting no reflections on Mr. Buzan, the Press believes Mr. Hall's ability to be superior, in every sense of the word, for this important office. He has many personal friends in the republican ranks who will lend their assistance to secure his election.

W. D. Chamberlain, democratic candidate for county clerk, is making friends irrespective of party affiliations in all parts of the county. "Billy" is a mighty good boy, is thoroughly competent and qualified in every way to fill the office to the entire satisfaction of the people of the county. In other words, he is another Jim Maloney and when the votes are counted in June, you'll find a Jim Maloney vote for him.

For the Baby

The fifty-cent size is just right for the baby. A little of it in the bottle three or four times a day will supply precisely the fat all thin babies need. If your baby does not gain in weight as fast as you would like, try

Scott's Emulsion

The result will please you. If the baby nurses, the mother should take the emulsion. It makes the baby's food richer and more abundant; only buy the dollar size—it's more economical.

CLUB NOTES OF THE WEEK.

Current Literature Club Holds Last Meeting of Year.

The Current Literature club held the last meeting of the year at the home of Mrs. R. G. Thompson on Friday. After a short program which finished the study of William Makepeace Thackeray, the new officers took their places for the coming year: Mrs. N. E. DeSpain, president; Mrs. Lee Moorhouse, vice-president, Mrs. Vincent, corresponding secretary, Mrs. Geo. Hartman, recording secretary and treasurer. The directors are Mrs. Edith Carnine and Mrs. W. J. Furnish. The delegates to the State Federation convention are Mrs. Starkweather, president, during the past year, and Mrs. DeSpain, delegate. Year book committees were appointed. The work outlined for the next year bids fair to be the most successful in the history of the club.

One of the most delightful club affairs ever given in Pendleton was that the Shakespearean department of the Current Literature club gave Monday afternoon to the members of the club. Mrs. Vincent gracefully dispensed the hospitality of her home. The department, having finished the season's reading, selected April 23 on which to commemorate the anniversary of the birth of the great dramatist.

After a musical number by Mrs. Switzler, Mrs. Alexander, vice-president of the club, in a brief but able address, greeted the members. She said in part that the purpose of the meeting was to have a social reunion, and to honor the genius of the immortal bard. She reviewed the work accomplished by the department in the past and referred brightly to the pleasure anticipated by the members when they resume their study in the autumn. A piano solo was then rendered by Mrs. Purington. Mrs. Starkweather gave a synopsis of "The Winter's Tale," and read extracts from the play which were beautifully illustrated by living pictures. The characters being delineated as follows: Hermione and Perdita, Mrs. W. J. Furnish; Florizel, Mrs. Vincent; Paulina, Miss Hexter; Mamillus, Master Eldon Furnish. A Shakespearean "Quiz" resulted in Mrs. Alexander carrying off the first prize and Mrs. Thompson the second. Altogether, the afternoon was a fitting finale for the winter's work and gives an idea of the pleasure and profit that have been derived from the reading. Dainty refreshments were served.

It is hoped that at some future time the club will be represented at the Shakespearean Symposium which meets annually in England in the month of July. On this occasion, the home of the great poet, Stratford-on-Avon, is the meeting place of a notable body of women, who yearly pilgrim to that historic spot to kindle afresh their enthusiasm.

The Woman's club met at the home of Mrs. C. J. Smith Saturday with Miss Margaret Leonard as hostess. A comprehensive study of the life of Longfellow was read by Miss Brown. A short but well written paper on the Craige House was given by Miss Ritner, who recounted many pleasant incidents connected with the historic mansion, and Miss Wood gave a delightful study of "The Two Angels." Miss Jennie Beatie in a charming manner sang "The Day is Done."

The work for next year is already planned, and will finish up the American authors, Lowell, Emerson, Holmes, Howells, Stevenson, Whitman and Fields will be included in the list of writers. Two afternoons will be devoted to educational subjects and two to the Home. There will be "President's day," a "Mothers meeting" and several other features that will go to make up a successful club year.

The next meeting will be at the home of Mrs. J. F. Robinson.
