BLOOD POISON.

In some cases the external signs of Contagious Blood Poison are so slight that the victim is firmly within the grasp of the monster before the true nature of the disease is known. In other cases the blood is quickly filled with this poisonous virus and the swollen glands, mucus patches in the mouth, sores on scalp, ulcers on tongue, sore throat, cruptions on skiu, copper colored splotches, and falling hair and eyebrows.

Doctors still prescribe mercury and potash as the only cure for Blood Poison. These poisonous min-back into the system, cover it up for a while, but it breaks out again in worse form. S. S. S. acts in an entirely different manner, being a purely vegetable remedy; it forces the poison out of the system, and instead of tearing down, builds up and invigorates the general health. S. S. S is the only antidote for this specific virus, and therefore the only cure for Contagious Blood Poison. No matter in what stage or how hopeless the case may appear, even though pronounced incurable by the doctors, S. S. S. can be relied upon to make a rapid, permanent cure. S. S. S. is not a new, untried remedy; an experience of nearly fifty years has proven it a sure and unfailing cure for this disease. It is the only vegetable blood medicine known.

Mr. H. L. Myers, no Mulherry St., Newark, N. J., says: "I was afflicted with a terrible blood disease, which was in spots at first, but afterwards spread all over my body. These soon broke out into sores, and it is easy to imagine the suffering I endured. Refore I became convinced that the doctors could do me no good I had spens a bundred delilars, which was resulty thrown away. I then tried various patent medicines, but they did not reach the disease. When I had finished my first boilte of S. S. S. I was greatly improved, and was delighted with the result. The large, red splotche on my chest begult to grow pater and smaller, and before long disappeared entirely. I regained no lost weight, became stronger, and my appetite improved. I was soon entirely well, and my skin acclear as a piece of glass."
