SUSANVILLE TRADE.

Sam Reynolds, Formerly of Pendleton, Talks About It.

Samuel Reynolds, a prosperous stockman of the Susanville country, was in Pendleton this week, says the Sentinel, coming over to meet his daughter who came up from Pendleton. To a Sentinel reporter Mr. Reynolds stated that all is moving along nicely at Susanville. Several rich strikes have been made there recently. Wm. Cooper lately discovered a ledge near the Badger mill that runs high in free gold. He has been offered $5000 for it but declined to sell. The Badger is showing up well and the management have 12 six-horse teams constantly on the road to Baker City hauling ore. Mr. Reynolds is very anxious to see a good road and a direct mail line from this place to Susanville. He says that the bridge which was begun with money subscribed by Pendleton business men, is in a place where it will be of no practical benefit to anyone even when completed, and that if certain parties had worked for the interest of the public at large instead of individual interest, the road would now have been completed and the trade of that section coming this way.

Beware of Ointments for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possible derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by all druggists, price 75c. per bottle.

ILLEGAL REGISTERING.

It Has Been Done to Some Extent in Portland.

Since the rolls closed May 15, in Portland, a systematic investigation has been going on to ascertain if any illegal registrations were made, and if so, how many. The committee having this in charge has worked constantly, but its discoveries are carefully concealed. However, a number of illegal registrations are known. The democratic county central committee have a list of them. It is asserted that in several instances men dead and buried long before the registration began are found on the rolls, but the names are not to be given out at present. Instances where men have registered from barns, vacant lots and buildings where they are not known are said to be not uncommon, but the investigation committee is proceeding cautiously in denouncing such cases.

All who suffer from piles will be glad to learn that DeWitt's Witch Hazel Salve will give them instant and permanent relief. It will cure eczema and all skin diseases. Beware of counterfeits. Tallman & Co., leading druggists.

Silver-Plated Knives, Forks and Spoons.

In buying them get the best, if you want to practice real economy. Pay a little more at the start, but considerably less in the end. But if you ignore good advice, get the "cheap" else-where—we do not sell that class of goods—and see half a dozen chasings against the table will wear through the thin film of plating and expose the disreputable brass beneath. Here and you get our GUARANTEE of goodness, backed by that of the manufacturer.

Well Known Case Decided.

The United States supreme court at Washington has rendered a decision in the celebrated case of Phinney versus the Mutual Life Insurance company of New York, and reversed the decision of the circuit court and the court of appeals in San Francisco, and ruled in favor of the insurance company. The case has been pending several years. Guy Phinney died in Seatlte, in 1893. His life had been insured in 1890 for $100,000. There were several unpaid premiums. The decisions of the lower courts were in favor of his widow, who sued for $97,000. The supreme court now reverses the decision.

A Good Thing.

Our great-grand mothers' garrets contained the same herbs of all healing found in Karl's Clover Root Tea. They gave our ancestors strength, kept the blood pure, and will do the same for you if you say so. Price 25 cts and 50 cts. Tallman & Co., leading druggists.

LEAVES SOON FOR ALASKA.

Metter Will Again Go to the Alaska Country.

Frank Metter, who is in Pendleton, will leave soon for the Cape Nome country, to remain for three years. He lives with the Esquimalt and has some good claims in that district.

Referring to the dangers through which Alaska voyagers, of whom several are Pendletonians, the following is from a well known Alaska captain:

Captain Daniels, an old Alaskan navigator, who knows every rock and turn of the conflicting currents and eddies, and who is also interested in the California & Oregon Coast Steamship Company, says there will be plenty of salvage work for tugs on the Nome route this summer. The route to Nome, he says, is not as dangerous as the trip to Skagway, but the greatest danger will be after reaching Nome beach.

For 60 miles the waste of waves from Bering Sea sweeps Nome beach, affording no protection whatever for anchored vessels. Usually a high serf foams along this stretch. Very rare are the intervals when there is not a line of high breakers beating against the sands. Vessels cannot come within a mile of shore without danger to themselves. Besides having both anchors out, they must be kept under a full head of steam all the time, ready to put to sea at the first sight of a blow. The anchorage holding is poor, and once the waves beat the vessels shoreward there would be no hope of ever getting them off again.

This constant battle with the seas, by which steamers are kept plunging at their anchorage, is a great strain upon them, and only the staunchest are able to stand it. The unsound vessels now headed north, if so fortunate as to get that far, will soon be pounded to pieces by the hammering of the waves. If the weather is good all the time they might be able to weather it, but the first blow will drive them ashore, as they are not strong enough to put to sea in the teeth of even an ordinary Bering sea storm. The first steamer returning will probably report several such disasters.

The loss of passengers will not likely be heavy, as most of them can be landed safely in surf boats even during a heavy blow. There are no dangerous currents and whirlpools like in the narrows of the inside route to Skawgay, where the Clara Nevada and other Klondike craft sank without an instant's warning.

Curious News.

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion builds up the strength. Only 50 cents. Sold by Tallman & Co., Druggist. Guaranteed.

RAILROAD NOTES.

Question of Columbia Southern and Sumpter Valley.

Although the Columbia Southern has made surveys from Prineville, in Central Oregon, to Canyon City, it is not though t by those familiar with the situation that it will ever build in such a way as to interfere with the extension of the Sumpter Valley Road, says the Telegram. For one thing, there is enough territory within easier reach for the former line in the central and southern portions of the state, and furthermore, a natural watershed divides the two territories, so that one may easily be drained by the Sumpter Valley Railroad and the other by the Columbia Southern.

For either road to attempt to cross the dividing line into the other's territory would be unwise from a business point of view. In short there is plenty of room for both roads without either crowding the other.

The only thing, it is said, which would ever induce the Columbia Southern to push east to Canyon City would be for the purpose of making itself an outlet for some one of the transcontinental roads now reported to be heading for Portland.

The Manitoba government has sent to the Northern Pacific a letter asking on what terms that road will sell or lease its systems in the provinces. President Mellen is in the west and no one is authorized to speak for him. This request is in line with a suggestion that President Mellen made on a recent visit to Winnipeg, when he found he was unable to obtain protection for his line against the Canadian Pacific in paralleling the Northern Pacific.

Great Northern officials decline to discuss the rumor that James J. Hill contemplates selling the lake fleet. While these vessels were looked upon as monsters when built, they are now quite too small to conform to Hill's policy of having the best of everything and getting the most of everything. In regard to the rumor circulated west that a number of bottoms are to be engaged in this season's lake traffic far in excess of the requirements of trade, and that a rate demoralization is very likely, a Great Northern official says the amount of vessel room is not in excess of the requirements and there is no danger of any rate disturbances.

A Life and Death Fight.

Mr. W. A. Hines, of Manchester, Ia., writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost $5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure throat, chest and lung troubles." Regular size 50c and $1. Trial bottles free at Tallman & Co.'s Drug Store.

The Hessian Fly.

Some of the farmers who have fall grain in the vicinity of Farmington, Eastern Washington, are complaining of the damage being done to their crops by the Hessian fly (Cecidomyia destructor.) This is a dipterous or two-winged insect, the larva of which often proves extremely destructive to wheat in this country. It is black with dusky wings, darker at the base, pale-brown legs, with black and hairy antennae. There are two distinct broods each year, the larva of one brood living at the roots of the plants throughout the winter, while those of the other are found in the lower joints of the straw about the end of spring or beginning of summer.

The roots of the wheat affected by the Hessian fly are found to be decayed or moldy, while the blades and stalks are partly wilted and shriveled. The plant has a sickly appearance at first, and it soon withers and dies.

Thus far only the fall sown grain seems to suffer from the effects of the insect, but it is already evident that the yield of grain in this vicinity will be somewhat reduced on account of this destructive pest.

Cuticura SOAP

For Sanative Uses.

Its remarkable, emollient, cleansing, and purifying properties, derived from CUTICURA, the great skin cure, warrant the use of CUTICURA SOAP, in the form of baths for annoying irritations, inflammations, and chafings, for too free or offensive perspiration, and also in the form of internal washes and solutions for ulcerative weaknesses, and for many sanative, antiseptic purposes which readily suggest themselves to women, and especially to mothers. The use of CUTICURA Ointment with CUTICURA SOAP will suggest itself in the severer cases.

Sold throughout the world. POTTER D. AND C. CORP., Props., Boston. CUTICURA SOAP BOOK, free to Women.

A DISTINGUISHED EDUCATOR.

Professor Marie L. Sanford, University of Minnesota, Visits Pendleton.

Miss Marie L. Sanford, professor of English in the university of Minnesota, is a guest at the Hotel Pendleton. Miss Sanford is touring the coast, for a few weeks, and has delivered numerous lectures at towns in the mountain states. It is her intention to give one of her lectures here in the near future, speaking probably on her observations in Paris on a recent tour. She is a prominent woman's club worker, and is famed throughout the east for her literary and descriptive lectures.

Miss Sanford stands pre-eminent among the women of educational circles, being at the head of the department of English in an institution which has an enrollment of nearly three thousand students. She is the author of several works which are textbooks in many institutions of learning.

Miss Sanford will visit several colleges in the west, during her stay in the west.

Must Walk to North Pole.

For years have we struggled to reach the north pole by ship. Through hardship and danger brave explorers have endeavored to reach the coveted spot. The fact that the pole is still a mystery points to the conclusion that our method was wrong, and lends credence to the recent utterance of a learned scientist, that we must abandon ship, copy the Esquimo's customs and walk to the pole. The same common sense reasons should be applied to health. There is only one road to recovery for sufferers from stomach disorders, and that is through Hostetter's Stomach Bitters. If you have tried to cure indigestion, constipation, dyspepsia, liver or kidney trouble without it, you have simply been on the wrong track. The Bitters will cure you.

ALBA NOTES.

The Death of Miss Mary Holmes After a Brief Illness.

Alba, Or., June 3.—Miss Mary Holmes died here on May 31, aged 19, after an illness of only one week. Her remains were interred in the Pilot Rock cemetery. Mr. and Mrs. Holmes are deeply affected by their loss. They will remove to Pendleton shortly, to make their home.

Miss Belle Wallace, of Pendleton, has arrived here by stage and commenced teaching on the 2d instant.

Miss May Stocker, who has been a student at the Pendleton academy, has arrived home and will remain here during vacation.

Today there were driven through here 400 head of cattle which are on their way to Pendleton, where they will be shipped to the Sound.
