DECREASE OF WINTER WHEAT.

Government Report Again Reduces Estimate of Crop.

The monthly report of the statistician of the department of agriculture states that as a result of the special inquiries relative to the winter wheat acreage plowed up or cut for forage, the department's estimate of the area remaining under cultivation has been further reduced by 1,676,000 acres, the area abandoned, in addition to that announced May 10, comprising 581,000 acres in Ohio, 29,000 acres in Michigan, 22,000 acres in Indiana, 348,000 acres in Illinois and 448,000 acres in California. This brings the area in winter wheat remaining under cultivation on June 1 down to 24,908,000 acres, a reduction from the area sown in the fall of 5,240,000 acres. Not withstanding the further reduction of acreage by elimination of all land entirely abandoned, the condition of winter wheat declined during May 6.2 points, the condition on June 1 being 82.7, against 88.9 on May 1, 67.3 on June 1, 1899, 90.8 at the corresponding date in 1898, and a 10-year average of 89.7.

Worse Than War.

Hundreds are killed in war, but hundreds of thousands are killed by consumption. There would be no deaths at all caused by this terrible disease, if people could be made to understand that Shiloh's cough and consumption cure is a sure remedy if taken in the early stages. 25 cts., 50 cts. and $1 a bottle. Druggists will refund the money if a cure is not effected. Tallman & Co., leading druggists.

PROGRESS OF THE GRAIN.

Harvesting About to Be General in All Sections.

Several hundred men could find work in Umatilla county during the next few months, harvesting and threshing. Farmers are here now every day looking for help, and almost universally report that they cannot find men to do the work of this season. Harvest has begun in some parts of the county already, and will go steadily on during the coming two months, after which binding and other kinds of farm work will be had for sometime after

MISS GRACE BUSH DIES OF DIPHTHERIA AFTER A SHORT ILLNESS.

There is No Danger of the Disease Spreading, as Extra Precautions Are Being Taken.

Athena, Or., June 13.—T. J. Kirk, representative-elect to the next house of representatives, left Tuesday for Portland as a delegate to the Masonic grand lodge. He was accompanied by Andrew B. McEwen, also a delegate and a past master of the local lodge of Masons. W. D. Chamberlain, the third delegate from Athena, joined them at Pendleton. The delegates expect to return home by next Sunday or Monday.

Postmaster L. A. Githens, E. H. Saunders, Jacob Bloch and Joseph France spent a pleasant day Tuesday fishing on the Umatilla river above Thorn Hollow, nine miles from Athena. They caught plenty of fish to afford them all the sport they desired. Since the return of the party Mr. Bloch has been a severe sufferer from varicose veins, and is confined to his room.

The death of Grace Bush on Tuesday evening at 10 o'clock, from diphtheria, is an event greatly deplored by a wide circle of friends of the family. Deceased was in her 13th year and was the daughter of Mr. and Mrs. Willis Bush. She was an exceedingly bright and studious child and her presence will be greatly missed among her teachers and young associates. The funeral took place Wednesday forenoon. Owing to the deadly nature of the disease the funeral was private.

The presence of diphtheria in Athena has caused more or less anxiety, but a spread of the disease is not at present apprehended. The Bush residence has been thoroughly fumigated with formalin, which resembles formaldehyde, and gives most satisfactory results in cases of fumigation for destruction of diphtheria germs. The Bush family reside in a large tent to the rear of the building, and the premises are quarantined and have been since election. There are no cases of diphtheria known to the authorities at present. Dr. W. G. Cole, city health officer of Pendleton, came to Athena Tuesday in response to a telephonic message from Marshal G. A. McDonald, and administered antitoxine to a number of persons who had been exposed and in a few instances gave slight indications of having the disease.

John M. Taylor, who has long been resident of Pendleton in the employment of H. W. Fowler, and late of E. E. Craig, of the Depot Stables, came to Athena Sunday to reside permanently and has gone to work for Pinkerton & Froome.

Notwithstanding the big democratic majority cast here June 4, "Black Republican cherries" are both plentiful and in good demand.

Nick Springer, well known in Pendleton, is now a resident of Athena, in charge of May's brickyard. Mr. Springer has had lifelong experience burning brick and is consequently the right man in the right place.

Henry Van Buren, of Weston, made a flying trip to Athena Wednesday on a visit to David Love.

He Fooled the Surgeons.

All doctors told Renick Hamilton, of West Jefferson, O., after suffering 18 months from Rectal Fistula, he would die unless a costly operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the surest Pile cure on earth, and the best salve in the world. 25 cents a box. Sold by Tallman & Co.

Sealed Bids.

Sealed bids will be received by the water committee of the common council on June 20, 1900, for the following material and work: 1120 feet of 15-inch vitrified sewer pipe, two branches, digging trench and laying pipe, digging well, walling up and covering same.

Material and work to follow plans and specifications now on file with water committee. Bids will be received for material and construction separately, and in the aggregate. Bidders are requested to state time required to deliver material or complete the work. Bond will be required for faithful preformance of contract. Right reserved to reject any or all bids.

F. B. CLOPTON, Chairman.

Five Things.

The five diseases for which Shiloh's Consumption Cure is especially recommended, are Coughs, Colds, Whooping Cough, Croup and Consumption. No medicine ever made by man is equal to it in any respect. Sold under a positive guarantee. Money back if it fails. 25 cts, 50 cts and $1 a bottle. Tallman & Co.

Notice to Water Consumers.

The water consumers are once more notified that the hours for irrigating are from 5:30 to 8 p. m. and all are notified to use a sprinkler on the hose. Parties living on the hills are allowed to use water in the evening instead of the morning until further notice.

J. T. BROWN,
Water Superintendent.

Is This Plain Enough.

If you have a nagging cough and are losing flesh, go to a drug store, and get a bottle of Shiloh's Consumption cure. Take two-thirds of it, and then, if you are not benefited, return the bottle to the druggist, and he will return your money. Isn't that fair? No one could ask more. 25 cts., 50 cts. and $1 a bottle. Tallman & Co., leading druggists.

For Harvest.

If you want to be well suited with your groceries and get the right quality, you should go to G. R. Demott. He has an extra large stock of goods and will make right figures on large orders for harvest.

Quick Relief for Asthma.

Miss Maude Dickens, Parsons, Kans, writes: "I suffered eight years with asthma in its worst form. I had several attacks during the last year and was not expected to live through them. I began using Foley's Honey and Tar, and it has never failed to give immediate relief.'

Come and look at the bicycles at the Crescent Agency in the East Oregonian building. Bicycles for a small amount down and the balance in monthly payments, no interest.

A Word to Farmers...

As this is the dawn of harvest we wish to announce that we have a complete line of Harvest Supplies, Dishes, Table Cutlery and Cooking Utensils. We buy for spot cash, which enables us to sell cheaper than those who buy on credit.

THE MARKETS.

No Encouragement in the European Situation—Livestock and Wool.

Portland, June 14.—The Commercial Review today in its weekly review of the market says: The situation locally remains adverse to the selling interest, as to the idea of values, and while quotations are mostly nominal, it is probable that the holders would have to make concessions in order to effect sales. Offerings were not large throughout the week. There were more sellers in the market than for some time past, and these were looking for more than could be obtained, and when business was executed buyers generally had the call as to price. The demand for export continues of scant proportions, and shippers as a class are very indifferent whether they operate or not. There is nothing of an encouraging nature to be found in European advices, which report a depressed and weak market for prompt shipment cargoes, and there seems to be no good reason to doubt the statement that Europe has secured fully sufficient breadstuffs to carry them well into the next season. In fact, the statistical position of wheat and flour now afloat would indicate that Europe overbought and will not be an active buyer for some time to come, unless unforseen crop damage should not only be reported, but confirmed. The flurry in eastern markets has had no effect here, as London failed to respond on cargoes, our prices being regulated there, and freights are scarce and are demanding 45s for December loading. Holders who think that Chicago regulates our prices will be deceived. The market is stronger as to prices than for a month past, but some dealers are letting their profits on ships go into the wheat. We quote club and valley, 58 to 59c; bluestem, 56 to 57c per bushel.

Wheat in San Francisco.

San Francisco, June 14.—The wheat trade is very inactive. Exporters have plenty of grain on hand, and not actively in the market. There are only occasional sellers, who through stress of circumstances are forced to part with their holdings, even at a sacrifice. Exporters are indifferent whether they buy or not at the present juncture. No one looks for an active movement before the new crop moves freely, and it will be some time yet before farmers will be ready to attend the marketings of their crop. In the absence of large transactions, quotations are more or less nominal. No. 1 shipping ranging from 92½c to 95c; milling, 97c½ to $1 per cental.

Wheat in Pendleton.

Pendleton, Or., June 14.—The upward movement in wheat which has marked the eastern markets, where the price has jumped something like seven cents in a week, has apparently had a favorable effect on the home market, and No. 1 club is worth about two cents more than it was then. No. 1 club is now quotable at about 42, with some selling, and a better tone and expectancy manifest. It is hoped that the improvement will be permanent.

Wool in Boston.

Boston, June 14.—Dealers are inclined to hold their stock and wait for an improved market. Territory wools are selling at about 52 to 53c for fine medium and fine. Scoured fleece wools are slow, with no quotable price on which to base the market. Quotations: Territory, scoured basis—Montana and Dakota, fine medium and fine, 18 to 19c; scoured, 53 to 55c; staple 56 to 57c; medium and fine, 18 to 19c. Utah and Wyoming, fine medium and fine, 17 to 18; scoured, 52 to 53; staple, 56c.

Australian, scoured basis, spot price—Combing, superfine, nominal, 82 to 87c; good, 80 to 82c.

Wool in San Francisco.

San Francisco, June 14.—Wool—

Records of Hays and Stockdale.

Lovers of the manly art will see the prettiest exhibition next Friday night, the 15th, in Frazer opera house, ever given in Pendleton. The past records of Hays and Stockdale are good and show that they have been up against some of the hardest men in the business. Stockdale has met and defeated such men as John Jepson, Jack McKennan, Tom Kennedy, Sly Frost, George Walton and Frank Sparks. Ike Hays has met Kid Lewis, Young Choynski, Terrible Swede, Jimmy Ryan and Jerry Flowers, and defeated all of them. He was beat in two rounds by Peter Maher. Every boy that has been to see Hays and Stockdale in their work at their training quarters pronounced them first class. The Admission will be $1.25 to box seats, $1 to lower floor and 50 cents in the gallery.
