PENDLETON, OREGON.

THURSDAY, JUNE 23, 1900.

ASKS BIDS FOR WOOL.

John Smith Takes a Novel Method of Selling His 1900 Clips.

John Smith, of Pilot Rock, one of the best wool and sheep men in the state, has taken a novel method of selling his wool clips for 1900.

Smith's method is to display his clips in a window, and let the buyers come and see them.

Smith says that he will receive bids on his clips on June 23.

Smith has not been common among wool growers, and the result of the experiment will be watched with interest.

Smith is in an independent situation at all times, and able to hold his wool if he chooses so to do.

A THOUSAND TORTURES

Don't miss the rapture of Anne E. Springer, of 1125 Howard St., Philadelphia, Pa., who writes that she has been completely cured of a hacking cough that for many years had made life a burden.

All other remedies and doctors could give her no help, but she says of this cure—"It soon removed the pain in my chest and I can now sleep peacefully. I can scarcely remember the time when I felt like sounding my brass throughout the universe."

So will everyone who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price 50c and \$1.00. Trial bottles free at Tallman & Co.'s drug store; every bottle guaranteed.

FORMER PENDLETONIANS HERE.

Visit the Town in Which They Lived in Early Days.

Pendleton has as visitors two old residents of the place, who have been in La Grande attending the convention of the Woodmen of the World.

Both have been shaking hands with their former friends and acquaintances, and wondering at the growth and extended appearance of what was a village when they lived here.

C. L. Darling, of Condon, was one of them. Mr. Darling was a school boy in Pendleton 25 years ago, and remembers the place when it was only the beginnings of a city. He is now a lawyer in Condon.

The other is Ashley Follett, of Lakeview, Lake county, in southern Oregon. Mr. Follett owns property here yet, although he has not lived in Pendleton for many years. He came to this part of the state as a delegate to the Woodmen convention, and it cost the order \$5 to bring him from his home. He was compelled to go into California to

be headquarters for

LETTER FROM WILL PARSONS.

Tells of the Experiences of the Volunteers in the Philippines.

The following letter from Will O. Parsons, a member of the 35th regiment of U. S. Volunteers, now in the Manila campaign, written to his father, Col. William Parsons, who interests his many friends in this country.

Norazary, Island of Luzon, P. I., May 8.—My Dear Father: Yours from Washington reached me a few days ago and right glad I was to get the same. The only thing I knew about Commander Everett was what I saw in the Army and Navy Journal, and as for calling on him—ask for the moon—an enlisted man, even when on a pass cannot leave the island to visit any ship. I am also a very long way from Manila, and until we start for home, there is no prospect of my ever getting anywhere near the blooming town. Also, it costs a month's pay to even visit there quietly, when beer, and very poor beer, is forty-five cents for a small quart bottle. Likewise the beer is badly doctored with some messy chemicals in order to keep it from spoiling in this wonderful climate.

We have had some fun recently. A detail of 30 men from our company, with the captain, went out hunting rifles a few days ago, and, of course, I was along. Being senior corporal of the outfit, I was left guide of the party, and had things pretty easy. We left here at 2 a. m., with five mules and full belts of cartridges. We began our trip by wading a river in pitch black windy weather—said river being shoulder deep and remarkably speedy—and you may be sure that we did not carry a change of dry clothing. We traveled all night, and, at daylight, were in sight of a small unknown town. Then we formed a very thin skirmish line—men fifteen paces apart—and descended upon the heights. It was but a few moments before a shot came in on my left, followed by a dozen more. I swung my section around and we went through the high sugar cane like a brick through a glass window—not firing a shot. The instant we started into the cane, we knew the Filipinos had promptly started out on the other side, and that, while they were running across the open, we should have some excellent pot shots at them. And sure enough, we had. Eight men carrying guns were sliding over the country as though the devil himself was immediately behind them. Our boys began potting away at them to beat the band, and three of them lost their footing for fair. The whole thing didn't last ten minutes.

Then we chased into our own and rounded up the natives. They knew where several rifles were secreted and they refused to tell, so we gave them the "Kooly Cure." This consists of placing them more or less gently in their backs and holding their legs and arms close to the ground. Then we chased into our own and rounded up the natives. They knew where several rifles were secreted and they refused to tell, so we gave them the "Kooly Cure." This consists of placing them more or less gently in their backs and holding their legs and arms close to the ground.

Well, we "watered" the entire male population and found some more rifles. This sort of thing was kept up for 30 hours, day and night, securing quite a number of rifles and making a good many Filipinos wish they were somewhere else than at home when we called on them. On our side no one was hurt, but we all had a chicken dinner as part of the sports of war.

Our new barracks are nearly finished and the rainy season is not far off. In fact the men building our barracks are racing the wet season, and I think they are likely to come out ahead. Aside from an occasional march after larders—robbers—we are doing absolutely nothing but plain police duty.

A Later Writing.

Since writing the above we have had a little excitement. Night before last, about 60 shots were fired at the camp, and the troops promptly turned out and captured three insurgents. We never made any official mention of killed or wounded unless it is a big affair—something more than a messy attack on the outpost. Then, yesterday evening at 7 p. m., we were all loafing around camp reading, smoking and swapping lies, when from the woods just behind our company kitchen came a pistol shot, then another, then a "Krag" report. In three minutes the company was formed, roll called and reported, fours counted and platoon and sectional divisions made, the Gatling gun detail had their gun run out to the plaza, trained to sweep the brush back of the camp and everyone was waiting orders. In the meantime the sound of shots was growing louder until it was fairly a continuous crackle like a pack of big fire crackers.

Then Young Bondixon, a German recruit from Iloilo, came whooping and howling up from the outpost: "Hurry up, fellows! Day shoots off nine hats, alretty—more on a millions of 'em!"

We stood in ranks and fairly shrieked with laughter. It was one of the funniest things I ever saw. Even the captain forgot his dignity and laughed till he was black in the face. Eventually the captain made out from what Bondixon said, that the outpost was attacked, so, leaving one section and the Gatling gun to guard the camp, he took the first platoon on the dotted line to the outpost. By the time we got to the post was bending over a dead "go-go" and disputing as to whose shot killed him. He was an insubordinate officer collecting money—blackmail—from the natives under threats of shooting them when they got away from the town.

There had been, probably, half a dozen Filipinos with him, but they all got away but one, whom a "Krag" bullet had caught just below the collar bone and gone clear through him, coming out below the shoulder over the opposite side of his body—through both heart and lungs. None of the men were touched, and not a bullet had come within 200 yards of Bondixon, for he was away up the road and fully 300 yards from the outpost. Now we are worrying for fear Major Short will take a foolish notion of chasing the "go-go" way up into the mountains and march a half company of us all over the map in an unsuccessful attempt to catch them.

One comical thing about these natives is this: They are always on hand—the Amigos—when mess calls, and they fight over our sloop goods, and they fight over our sloop goods. Only the other day they claimed it was Easter Sunday, and in their best clothes they turned out and packed the church. After the service they came—in their best clothes still—and raised a regular riot fighting among themselves over our sloop goods, and they had to be driven away by force.

They were welcome enough to the sloop, but they had no license to start a Donnybrook Fair in our company street. It's rather fierce to see them—mostly women—claw down among our

LODGE COMMITTEES FOR PARADE.

Members Who Will Have Charge of Floats on the Evening of the Fourth.

Pendleton lodges are taking an interest in the illuminated night parade to be given on the night of the Fourth of July in this town, and it is one of the assured facts that it is going to be a grand success. Chairman Hexter, of the arrangements committee, has received replies from most of the lodges invited to participate, and has this list of sub-committees appointed by the lodges to get up the floats:

Integrity Lodge, No. 92, I. O. O. F.—E. J. Murphy, B. E. Coon, Fred C. Nolf.

Eureka Lodge, No. 32, I. O. O. F.—Dr. A. L. Beattie, J. L. Sharon, John Halley, Jr.

Pioneers of the Pacific.—E. J. Kirkman, J. Wickersham, Joe Dupuis.

Knights of Pythias.—Damon, No. 4.—L. B. Reeder, B. E. Kennedy, John T. Lambirth.

Alpha Assembly, United Artisans.—Wm. Rahe, C. E. Bowlsby, Monroe Jarvis.

Red Men.—Roy W. Ritner, Thos. McMahon, Geo. Ernst.

Ben Hur Lodge.—J. M. Leezer, Mr. Owens, Miss Mattie Good, Wm. Fitzgerald.

Knights of the Macabees.—Geo. Robbins, J. D. Brown, John S. Keos, Elks, Pendleton Lodge, No. 288.—E. H. Clark, Frank Frazier, John F. Robinson.

Is This Plain Enough.

If you have a nagging cough and are losing flesh, go to a drug store, and get a bottle of Shiloh's Consumption Cure. Take two-thirds of it, and then, if you are not benefited, return the bottle to the druggist, and he will return your money. Isn't that fair? No one could ask more. 25 cts. 50 cts. and \$1 a bottle. Tallman & Co., leading druggists.

Attention, Red Men.

All members of Unalutah Tribe No. 18, Imp. O. R. M. and all members of the several tribes in the state are earnestly requested to be present and participate and join the Red Men's grand parade in Pendleton, Oregon on the Fourth of July, conducted under the auspices of Unalutah Tribe.

M. MOREHEAD, Chief of Records.

Beware of Ointments for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good they possibly derive from them.

Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free by all druggists. Price 50c per bottle. Hall's Family Pills are the best.

The Spokesman-Review says the citizens' committee, in three days' work, reports 10,500 persons in Spokane who had not been counted by the federal enumerators.

FOR Baby's Bath USE CUTICURA SOAP.

It prevents chafing, redness, and roughness of the skin, soothes inflammation, always itching and irritation, and when followed by gentle applications of CUTICURA Ointment, the great skin cure, speedily cures all forms of skin and scalp troubles and restores the hair.

Ladies Are Critical

in matters of linen. Our faultless laundry work challenges the closest and severest scrutiny. To discover defects in anything done up by us one must have eyes sharp enough to see what isn't there. Our work is so perfect that it is not easily retored by broiling heat. And 95 degrees in the shade doesn't phase its polish.
