"Well, we'll give you another one: A man bought a bill of Groceries in Portland for \$78.00, and paid \$9.70 freight; how much did he lose?"

That's easier still. He could have bought the same bill of Groceries from us for \$84.00. He was out \$4.30, that's all.

FORCES ARE INADEQUATE

No Reinforcements for Admiral Seymour Until Tien Tsin Is Relieved.

BRITISH FORCES IN INDIA DRAWN ON

Foreigners in Peking Were Safe as Late as June 19th; Lord Salisbury is Not Alarmed Over Situation in China; Chinese Minister at Washington Asks for Armistice.

London, June 25.—Although the powers at last seem conscious of the magnitude of the Chinese troubles and are hurrying forward troops, the international forces available to overcome the perils of the situation are apparently totally inadequate. The alarm for the safety of Vice-admiral Seymour's party remains unrelieved. Tien Tsin is so hard pressed that it must be relieved before assistance can be sent to Seymour's force. India is sending eight battalions of infantry, a cavalry regiment, artillery and engineers, as a fighting force, besides two battalions to guard communications.

Washington, June 25.—The Chinese minister in this city has asked for an armistice in sending of the American troops to China, based on the assurance of the Chinese viceroys that they can maintain order. President McKinley, while expressing gratification at the assurance, made it known to the Chinese minister that the United States cannot relax its efforts to get troops to all points where its officials are considered in danger.

British Troops at Taku. London, June 25.—In the house of commons today, replying to the failure of American and Russian forces to reach Tien Tsin June 21st, the parliamentary secretary of the foreign office said, that since then British troops from Hong Kong had arrived at Taku and it was believed that 3,000 Japanese, 1,000 German and 2,000 French troops had also arrived there. But the government had no information regarding the operations of these troops.

No News in Washington. Washington, June 25.—No word has been received at the war or the navy departments as to the condition of affairs in China. Salisbury's Views on Chinese Crisis. London, June 25.—Lord Salisbury is still hopeful that the Chinese crisis will be solved without war against that country. In spite of the alarming reports, he is inclined to the belief that the government of China will shortly be able to reassert itself. He does not belittle the progress of the various viceroys, who have given notice of willingness to co-operate with the united forces. The arrival of United States Ambassador Choate with Lord Salisbury on Saturday was due to instructions received from Secretary Hay. The ambassador discovered that the British premier maintained the belief that the diplomats at Peking had not been massacred and did not believe they were likely to be. He is eminently satisfied with the action already taken by the United States.

THE TRAIN WRECK IN GEORGIA. Late Reports Show That the Dead Number Forty-one. Atlanta, Ga., June 25.—Additional reports from the scene of the wreck, at McDonough, show that the list of dead will probably number forty-one.

A passenger train on the Southern railway which left Macon at 7 p. m., Saturday night, for Atlanta ran into a washout near McDonough, Ga. The wreck occurred at a culvert near the Ocmulgee river, not far from McDonough. A cloudburst occurred a little while before and flooded the country near McDonough. The train went into the washout without a note of warning and despite the pouring rain the wreckage took fire. The train was composed of one sleeper, two day coaches and two baggage cars. The Pullman caught fire, but before it was totally destroyed the body of Captain Wood was rescued.

"THE REAL WIDOW BROWN." One of the Best Comedies on the Road to Be Here Tomorrow Night.

Everyone who likes wholesome fun, who wants to laugh and grow fat, will attend the performance of "The Real Widow Brown" at the Frazer opera house tomorrow evening. Let it be remembered that Sis Hopkins, of Slabtown, who was here with the "Prodigal Father," and who was pronounced the funniest farce comedy character ever seen in Pendleton, is with the "Real Widow Brown" company, and that she is worth the time and cost all by herself.

Mr. A. Q. Seaman has been a purveyor of some of the best comedies and farce comedies for years past, and, in his latest achievement, "The Real Widow Brown," he possesses one of the best drawing attractions on the road. This hilarious play had a long run in New York simply on the strength of its clever situations and amusing complications, but for the road Mr. Seaman has generously and wisely introduced a clever medley of up-to-date songs and dances, enhancing the intrinsic merits of the play into such a famous critic pronounced the comedy to be a veritable "dramatic cocktail." It certainly possesses all its exhilarating effects without its fatal consequences. If you feel blue or worried with care go and see "The Real Widow Brown." If you don't come out a happier man than your blood is out of order and you should consult an M. D.

James Roddick, believed to be the oldest man in Ohio, if not in the United States, died in the Columbus infirmary the other night, aged 123 years. He was born a slave in Virginia in 1777.

CHICAGO MARKET. Reported by L. L. Ray & Co., Chicago Board of Trade and New York Stock Exchange Brokers. June 25.—The wheat market was very excited this morning at the opening, prices being 1 1/2c different and different parts of the pit at 85 1/2 to 85 3/4. Late cables were lower. Showers were predicted for the northwest and the Russian shipments were heavy. The visible supply showed an increase for the week at 1,350,000. All these influences started heavy selling and the decline caught a good many top loss orders on the way down to 84 1/8c. From this point there was a reaction to 85 1/4c. Stocks higher. Money 2 per cent. Close Saturday, 88. Open today, 86 1/2-86. Range today, 84 1/8-86. Close today, 86. WHEAT ATTRACTS ATTENTION. Sales in Pendleton on Saturday Estimated at 150,000 Bushels. The excited state of the wheat markets of the world last week communitated to Pendleton caused some selling here. The total sales are estimated to have been no less than 150,000 bushels on Saturday in this place alone, with large sales at nearby points. The sales were on a basis of 50 cents for No. 1 club, with a few sales at 50c net to the grower, buyer paying three cents accrued warehouse and insurance charges that stood against it. To the grower this meant, really, 53 cents. This week, the promise is for further activity in the wheat market at the great centers, the market opening strong on additional crop damage reports, and trading has been in the air during the day. A report has been sent out to the effect that Oliver Dalrymple, the great Dakota farmer, has sent men and teams to work plowing up 10,000 acres of grain. This indicates that the conditions there are very much worse than they were thought to be. Similar reports came from other sources and all tend to stiffen the market and give confidence in the future of the cereal as a value. Considerable wheat remains unsold here and at other Umatilla county points. Probably selling will be a feature of the local market during the present week.
