Gholson Case Goes to the Supreme Court.

Notice of appeal to the supreme court was filed today with the county clerk, by the counsel in the case of J. L. Perry against William Gholson. The appeal is by Gholson. The case involves a gambling layout, which was owned by Jim Washington, mortgaged to Perry, removed to Athena, attached there by Gholson, and obtained possession of again by Perry in a lawsuit which he won in the circuit court. In the circuit court, Judge Lowell signs an order amending the decree in the divorce case of Martha Hebeart against Louis Hebeart. The decree as amended provide that the custody of the two minor children, Myrtle and Julius, shall be denied either of the parents for the reason that they are not fit to have such custody. The infant Julius is to be appointed guardian, and children being allottees on the Umatilla reservation.

Beware of Ointments for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

THE INDIAN CELEBRATION.

Parade to Be Given on the Fourth and Fifth, Says the Agent.

Major Charles Wilkins, agent at the Umatilla Indian reservation, was in town today, and at the request of the Indians makes the following announcement for them regarding the celebration to be given there this year:

The celebration will be held at the same place as in former years, a mile from the government school, in the pine clearing near the river. It will be rather more elaborate than in other years, for the Indians expect to have visitors from several other reservations, the Yakima, Nez Perce and Bannock.

The grand parade will be given on two days, first on the Fourth, and then the following day, if the white people desire to witness it, and will promise to attend in numbers warranting the Indians to get out their rigs for a second time.

The Indians thought of deferring their parade until after the Fourth, but decided to give it, and thus prevent their young men from coming to town and participating in the consumption of too much firewater. Young Chief and No Shirt ask all whites to desist from bringing liquor on to the reservation, and, indeed, wants them not to do so, with penalty of punishment if anyone breaks this rule.

Worse Than War.

Hundreds are killed in war, but hundreds of thousands are killed by consumption. There would be no deaths at all caused by this terrible disease, if people could be made to understand that Shiloh's cough and consumption cure is a sure remedy if taken in the early stages. 25 cts., 50 cts. and $1 a bottle. Druggists will refund the money if a cure is not effected. Tallman & Co., leading druggists.

Everybody Decorate.

The Fourth of July decoration committee will decorate Main and Court streets with evergreen tree, but business houses are requested to decorate their stores with bunting on the Fourth, as it will adds greatly to the appearance of the streets. It would also be very appropriate if the people would decorate their residences, especially on the streets through which the parade will pass.

Attention!

PIERCE WRITES FROM NOME.

Spent Two Weeks in the Ice—Prospects for the Future of the Camp Depend on Finding New Ground.

Walter M. Pierce has received a letter from Henry F. Pierce, who left San Francisco several months ago with a cargo of potatoes and vegetables bound for the cape Nome country. He was formerly a resident of Pendleton, being an extensive farmer on the reservation, and later the owner of a tule land island near Stockton.

Mr. Pierce went via the Japan route, and writes from Nome City as follows:

"The beach is now well worked out near here. They have been at work on it for a month, going over the second time where they worked it out last summer. There have been remarkably rich strikes forty miles from here at Top-kusk. The miners have taken out $150,000 there from 100 yards of beach, but it will soon be over, unless they find something new.

"The tundra is almost entirely prospected. Near the A. S. (the Alaska Commercial company) store the miners are making $10 a day with rockers, rocking out grass roots. I thought this was a joke, until I came and saw it done before my own eye.

"The ground on the tundra is frozen to an unknown depth, just as at Dawson, so that if this proves to be rich, it will mean winter diggings. The permanency of this camp depends upon this and the bench diggings, or the discovery of quartz.

"There are nineteen creek claims known to be rich, and beyond these absolutely nothing is known. Yet, every foot of ground within thirty miles inland, and for an hundred miles up and down the coast is staked, the most of it five times over. Titles are bad in most cases, and the owners will neither prospect nor work the ground.

"These claim owners stay in camp, and wait for the "chuchawkers, (tenderfeet), to make discovery on options to buy or work. There are men here owning as many as 350 claims, 7000 acres, who have never seen one of them, excepting to stake them through the snow. The power of attorney proposition has been much abused, and will retard the mineral development of Alaska for many years to come.

"Lots are held in Nome City at from $3000 a front-foot down to all sorts of figures. The only title is possession and a sixshooter, and if a man is gone from his home two hours he is liable to find someone else's house on his land when he returns.

"Nearly 300 people have arrived since I reached here, but prices are so high that all are discouraged. The people here are "laying for suckers," but are likely to get left. Unless new creeks show good developments, there is nothing warranting Nome being a big mining camp. Of course, there will be lots of money spent here, that taken from the beach, and that brought in from the outside."

THE WESTON NEIGHBORHOOD.

President J. A. Beattie, of the Normal, En Route to Oregon.

Weston, Or., June 26.—Prof. G. A. Peebles, of the Eastern Oregon State Normal school, will devote a considerable portion of his vacation to traveling through Eastern Oregon in the interests of that intitution.

Prof J. A. Beattie, of Peru, Neb., who was elected president of the faculty of the Eastern Oregon State Normal school, is now on his way to Weston, and is expected to arrive within a day or two. He will be given a hearty welcome to this village, and his hands will be upheld as the head of the educational institution which has done so much to bring honor to Weston.

Dayton Barnhart, of Pendleton, is visiting Ben Dupuis, ex-sergeant of the Second Oregon volunteers.

Prof. F. M. Mitchell, for the past two years principal of the Weston public schools, has decided to take a rest from professional labors of that character. He has accepted a position with William Edris in the hardware business.

George Carmichael, who was 11 years of age on September 25, 1899, is believed to be the youngest pupil in the state to pass the eighth grade examination in the public schools. He was a pupil of Prof. F. M. Mitchell, and is a son of Mr. and Mrs. George Carmichael, who reside in the immediate vicinity of Weston.

Mrs. A. Baker arrived today from Port Townsend, Wash., her present home. She resided in this county 20 years ago, and has never been back since her departure. She will visit at the home of Calvin Ferguson.

The members of Geo. W. Proebstel encampment, No. 11, Pioneers of the Pacific, had a regular meeting and social last evening. Two lady members were initiated, Mrs. Margaret Wheeler and Mrs. Samuel Bannister. After the usual lodge session delicious ice cream and cake were served. Installation of new officers will take place on Monday evening, July 9.

On Monday evening the East Oregonians arrived at Weston on the date of publication. Heretofore they have been arriving on the morning train the day after publication. The new service has been favorably commented on and will make the paper more popular than ever.

VALLEY CROPS ARE NIT.

Bot Grain and Fruit Will Not Yield Well, Says Mr. Haley.

A. C. Haley, secretary of the democratic county committee, returned from a visit in the Willamette valley, arriving this morning. Mr. Haley was at Monmouth, and also at various towns all the way to Roseburg. He is familiar with that part of the state, and states that the prospects for a crop are very poor, indeed.

"Late frost ruined the winter wheat," said Mr. Haley, "and also killed the fruit. And now there are localities where the wheat is burning up. I have never seen so poor prospects for grain and fruit crops in the western part of the state. Farmers and orchardists will have a very poor return for their labors in preparing for the harvest this year."
