UNSALE RESERVATION LANDS.

To be Disposed of in Large Tracts. If Land Office Recommendation Goes.

The commissioner of the general land office has decided that the unsold lands of the Umatilla reservation do not come under the provisions of the "free homestead" bill, as the conditions which prevail regarding the lands of that reservation are peculiar, and are not the same as in the case of other reservations which are affected by this bill.

The lands of the Umatilla reservation were offered for sale to the highest bidder at not less than the appraised value, and for not less than \$1.25 per acre, under any circumstances.

The total number of acres in the reservation is 120,335, the total number of acres sold was 33,252, and the unsold lands amounted to 96,082 acres.

The Moody bill provides that the lands of the Umatilla reservation not included within the boundaries of the reservation, and not allotted or required for allotment to the Indians, and which could not be sold at public sale for their appraised value shall be sold at private sale by the local land offices, one person being allowed to purchase not more than one section of untimbered lands, as recommended, and not to exceed one-quarter section of timber lands. The bill does not require residence as a qualification on the part of the purchaser.

A Washington correspondent says:

The land office, upon inspection, found that certain of the unsold lands show improvement, and Commissioner Hermann, in view of that fact, recommended that the bill be amended so as to provide that in such instances the purchaser should also pay the appraised value of the improvements on such lands as he might purchase; that is, the value at the time of purchase.

It is estimated that about one-half of the unsold lands are untimbered, and on account of their character, are available only for sheep-grazing. These lands are situated along the foothills of the Blue Mountains, and are largely rocky, and marked with canyons and hills, and are of no agricultural value whatever.

In view of the fact that these lands were not sold for lack of bidders, and considering their usefulness for grazing only it was deemed advisable to dispose of them in whole sections, tracts that would be of some practical value to sheepmen. The timbered lands being more valuable, were recommended to be sold in smaller tracts, as it was thought in this way to secure more ready purchasers.

The Moody bill, which is exactly similar to a bill pending in the senate drawn by Senator Simon, is still in the committee, awaiting the action of the secretary of the interior. It is expected that the secretary will make an early recommendation next winter, in hopes of securing the passage of the bill.

A Week's Engagement at Fraser's Opera House.

The stage is perhaps as great a power for good as any of the arts; it presents the important lessons of life and home to you plainly and forcibly, and also portrays the sweetness of life and keeps our ideas young and bright. There is no doubt that the predominance of the stage influence is for what is wholesome and good; and there is no doubt that the great mass of the people prefer what is wholesome and good. The performance of the Roy Crawford Stock company as will be seen at the opera house for one week commencing Monday, is all that is bright, good and pure, without profanity or the accustomed roughness that is usually introduced in the modern drama. It is a performance that you could take your mother sister or children to see with the greatest safety.

The cast has been large at the opening, and they will be presented at popular prices and will be given with the same elegant settings; the stage will be decorated with the same magnificent traps and lights never before been seen at these small prices. The prices have been reduced for this engagement only to 25, 35, and 50 cents. A lady and gentleman, or two ladies will be admitted free if accompanied with one paid 50 cent reserved seat ticket, on the opening night.

Some of the plays presented during the week will be "Sapho," "Faust," "Suzie O'Tennessee" and others.

Organizing District Companies.

Chief H. J. Stillman, of the Pendleton fire department, has one more district company to organize to complete the full strength of the department under the reorganization plan. This is in the fifth district, and the chief will soon move for the formation of a company there.

In the third district, a company is now formed, and ready to handle all fires in that part of the city—across the river in North Pendleton. The new company is thus officered: H. A. Faxon, president; Berkeley Halley, secretary; E. J. Murphy, foreman; H. A. Hogue, first assistant foreman; Elvin Craig, second assistant foreman. There are fifteen members. The hose house is located at the corner of Jackson street and Perkins avenue.

William Dial and daughter, Miss Beulah Dial, of Spokane, are visiting in Pendleton. Miss Dial being a guest of her aunt, Mrs. Ingle. Mr. Dial intends to go from here to Portland. He is now conductor on a Great Northern train out from Spokane.

PEOPLE WHO ARE HERE FOR A DAY.

E. Woody, proprietor of a creamery at Ukiah, while here today, stated that he was sure the people of the Canby valley would desire to be represented in the Pendleton Street Fair.

Mr. Woody has pledged himself to arrange some kind of an exhibit for his creamery. He has established a fine business, and will no doubt have a display that will add to the attractiveness of the fair. "I believe such affairs are beneficial to the whole country," said Mr. Woody, "and I shall be glad to contribute to its success in any manner in which I am able. Umatilla county needs to show to the world what she has in the form of products of farm, orchard, range and factory, and Canby prairie is willing to place her products alongside of those of any other portion of this county. We think we have the garden spot of the state, and will make an effort to prove it to the people who come here during the Street Fair and Harvest Carnival."

People on McKay creek are thonging and heading and are now hurrying to the mountains for the cool shade of the pines during the heated spell. We have done no threshing out our way, but look for twenty to thirty bushels to the acre when we have threshed the wheat," said Dave Ingram here today.

Joe Gerrans, of Cable creek, who made such a fine sale of beef cattle from the range here to Seattle buyers, stated today that he has sold this season 100 steers at the price mentioned in the East Oregonian, \$48 a head, and will bring in 20 more fat steers to turn over to the buyers. He has first-class cattle, and has fine range with the best of grass to feed the cattle. The price paid, \$48 apiece, is high enough to make the cattle business profitable.

Health and Disease.

Carl Stewart was "Jobbed" by His Employer, with Doctor Thermometer.

Carl Stewart, who works in the photographic gallery of Carl Wheeler, was plying his usual vocations yesterday, when Mr. Wheeler wondered how warm it was out of doors. To ascertain, he placed the thermometer in the sun on the sidewalk, and the mercury ran up until it registered 125 degrees above zero.

Wheeler then placed the thermometer where it usually hung, and remarked to Stewart that he believed it was out of doors. Stewart went at once to look at the meter, and seeing it stood at 125, suddenly said he felt faint and would have to quit work. It was simply so hot no man could endure it.

It is now a subject upon which Stewart is rather sensitive.

Vetem of Black Smallpox at La Grande.

Who was Sick Only Three Days.

The La Grande Chronicle mentions the funeral of Mrs. E. F. Schow of that city, who died Sunday of virulent smallpox, having been sick only since last Wednesday:

"Alive and well, with never a premonition, until a few days since Mrs. Schow was as full of life and sunshine as ever, the center of a happy home, surrounded by the Angel of Death hovering near and the divine summons came. After three days of intense suffering in spite of all that medical aid could do, the soul departed with the tempest of clay, and this morning all that was mortal was laid to rest quietly without the funeral procession, on account of the dread and nature of the disease."
