The body of a man was found in the Columbia river, near The Dalles, by several children Wednesday. The man was, as near as could be judged, about 35 years of age, with red hair, and was dressed in overalls and jumper, with heavy undergar. There was nothing on his person by which to identify him.

The several fires in wheat fields, of wheat in stacks and wheat in sacks, and of two or three separators, have had the effect of causing a number of farmers and threshing machine men to insure their crops and machinery. They could not rest contented with their property exposed to danger and uninsured.

Millions will be spent in politics this year. We can't keep the campaign without money any more than we can keep the body vigorous without food. Dyspepsia used to starve themselves. There has been talk of the gentlemen of Pendleton organizing a shirt waist club. The cooler weather of today nipped the scheme, and its organization will be postponed until next year. The first man to wear a shirt waist in Pendleton will simply take his life in his hand, but men actually do wear them in New York and Baltimore. It is merely a question of time until the habit will prevail elsewhere.

Anderson, the Football Player.

Andy Anderson is going to play football with the Heppner team during the coming season. He has played good football for Pendleton, and will of course improve as he gains experience. He is now at Heppner and has a steady situation. Mr. Anderson is one of the fiercest looking and best natured 'kickers' who ever romped across a gridiron and his friends here hope to see him become one of the best in the business.

Money in County Treasury.

The call for outstanding warrants of Unatilla county issued by Treasurer S. K. Yates on August 8 will release \$4741 principal and \$1733 interest among those holding the paper of the county. The money held subject to this call is sufficient to pay all outstanding warrants of the county issued prior to February 1, 1898. In other words the county is only two and one-half years behind in the payment of its floating indebtedness.

PEOPLE WHO ARE HERE TODAY.

C. M. Hawthorne is a traveler in Pendleton today, having left Heppner yesterday, making the trip by rail, via Arlington. He had a little experience with dust yesterday that he will long remember. "Talk about them yesterday," he said, "I saw you dust storms. I thought I had seen dust before—I have seen what you might call a pretense of a dust storm—but when it comes to a real dust storm you will have to be made for those who can scare up between Heppner and Arlington. It was frightful. The dust was in a solid cloud—and the wind blew. I want no more experience like it."

Oregon Wonder Camp

Clifton Cleaver has returned from a 10 days' trip to Grant county, specifically to Prairie City and the Oregon Wonder camp. He is enthusiastic when it comes to talking about mining property, as he thinks the Oregon Wonder is indeed a wonder. He says they intend to commence work very soon on a 300-foot tunnel on the above mentioned property. Upon the Oregon wonder is the remarkable vein of gold bearing quartz which has attracted so much attention in the newspapers on account of its magnitude and from the fact that so much of it is exposed by the cutting through it of a creek. The ledge can be seen from Prairie City. Mr. Cleaver says the country is remarkable, not only for mines, but on account of the excellent hunting and fishing it affords, in which sports he engaged with remarkable success, and enjoyed the outing thoroughly.

The Hall Cent.

A movement is on foot to put a one-half cent coin in general use in the United States. Several suggestions have been made to the government and a document was recently signed by the heads of the big department stores in the various large cities throughout the country, showing the need for this money in making change. Progress finds many methods of improvement, but for half a century past, in spite of many inventions, nothing has arisen to equal Hostetter's Stomach Bitters, the greatest benefactor the human race has ever known. This medicine cures constipation, indigestion, dyspepsia, biliousness, nervousness and sleeplessness, also prevents malaria, fever and ague. Be sure to get the genuine with our private revenue stamp over the neck of the bottle.

Wheat Destroyed by Fire.

Fire on Wednesday destroyed six stacks of wheat, the property of John Dand, who resides in the Cold Spring country 12 miles northwest of Pendleton. Particulars are indefinite. It seems that Richmond Brothers were present with their threshing outfit ready to commence, when the fire started from the engine. All the machinery was gotten to a place of safety, but the stacks, wheat and 500 or 600 grain sacks were destroyed, and the fire burned over a large area of country. Danger at one time threatened between 6000 and 7000 sacks of wheat, but a road leading through the large field made it possible to put the fire out with the loss just mentioned. The fire could be seen from Helix four or five miles away.

New Water System.

The Indian office at Washington has prepared plans for a new water system at the Unatilla Indian school, which will be installed as soon as final arrangements can be completed. Work is being pushed, so that the new system may be incorporated at an early date. The system will include a new supply tank, a new pump with an accompanying engine, and also embraces the taking up of the old water mains, renovating them, and putting in new sections and additions. A complete sewerage system is also included in the plans now under consideration.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one reliable remedy, and that is by constitutional medicine. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a running ear or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. The cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface. We will give one hundred dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Yes, locked up Monday evening to unpack and shape the goods for Opening Day, Saturday, August 18th. When I bought the Undertaking Business of Wm. Nelson I had to buy his entire stock of House Furnishings with it. Now here I am with a big stock of first class goods that I don't want, but the people want them and must have them. So in order to clear the room that I may prepare fine Undertaking Parlors I decided to shape these goods up (a great portion of which have never been unpacked) and put them on the market at less than manufacturer's cost. "Oh, Robinson Crusoe! why in the world did you do so?" Here's the why. In the first place I bought the stock so cheap that I can afford it. In the second place it must go. Here are prices that will do the work:

Come early and secure choice goods at your own price. I am here to stay and will treat you right.
