There is a growth of empire and a decay in men. Manhood thrives best on a diet of liberty.

Congressman Dolliver is now Senator Dolliver, Governor Shaw, of Iowa, being responsible for the change.

The bees make \$20,000,000 of honey annually and man gets it. Those who make wealth in excess of their own needs thus generously provide for the drones.

Bryan in his speeches in the present campaign makes six charges against the republican party, as follows: It is controlled by the money power.

One of the maxims of the late Collis P. Huntington was: "Don't watch the clock while he works will never accomplish anything. The man who makes of his work a task is never successful."

The American minister and the Americans in Peking have been rescued. The American army in Peking has accomplished its mission.

The situation in China has entered upon a new phase. There are rumors of complications at Shanghai and in the great valley of Yang se.

The Eugene Guard says: "Umatilla county people are trying to escape their just share of taxation" because the assessment for this year in this county shows a decrease.

Equity possible. Under it one county is under assessed and another over assessed. Umatilla contributed to state government last year \$44,400.

Equity possible. Under it one county is under assessed and another over assessed. Umatilla contributed to state government last year \$44,400. That is too much for 18,000 to 20,000 people to pay for the benefits of government at Salem.

It is pathetic to hear women of unusual intelligence arguing in support of woman's claim to "equality" with man.

But otherwise, in the way of material accomplishment woman cannot be said to equal man at present, and she cannot be said ever to have equalled him.

Many of the most intelligent women demand recognition for woman as equal or superior to man in all ways.

Sometimes, after you have listened to a proud, high-spirited woman trying to prove that women would differ from men in material accomplishment if only they had a chance.

No man can live properly unless he desires to add to the happiness of aspiring womanhood. We offer to aspiring womanhood today a few remarks that we hope will please her.

It is necessary to bear in mind that this earth, when man was turned loose upon it, was really a sort of desert island.

Two kinds of work had to be done. The men had to fight, dig, hunt, drain marshes and murder each other.

But woman, caring for her children, sacrificing her life for them, developed on earth the moral sentiments.

Remember that throughout the world's history it has been the lot of a vast majority of women to be constantly caring for young infants, or young children.

Atrocious suffering. Endless worry about the children. Constant warfare against the man's selfish brutality.

some remark of this sort. "How can I work, Maria, if you let the children make a noise?"

But a better day is ahead for woman, and we are proud to point it out to her.

Wise men begin to wonder what we shall do when the earth is fully peopled. Shall we kill surplus babies, or what shall we do?

There will be no surplus babies. Nature will arrange that.

For every two human beings on earth two new ones will be born.

Wars will be ended. Common sense will have done away with the unnecessary illness which now robs millions of mothers.

No woman will have more than two children. Education will be understood. Women will not be slaves to their babies.

Even then we do not anticipate that repulsive "equality" between men and women which is so much prated about.

The complete human being is not a man nor is it a woman. The complete human being is a man and a woman.

That's the motto of many a woman's life. She manages the house, receives the friends, entertains company.

It's almost sure to heal. It has cured ninety-eight per cent of those who gave it a fair and faithful trial.
