TWO HELD FOR MURDER. Columbia George and Tsa-Tsa Were in Court Friday. Columbia George and Tsa-Tsa, the two Indians who are alleged to have murdered Annie Edna, whose death on the reservation occurred Friday evening, were before Justice of the Peace Thomas Fitz Gerald this afternoon, charged with murder. The further examination of the case was postponed until Thursday morning, August 30, at 10 o'clock.

From experiments made Dr. W. G. Cole discovered that the contents of the bottle which were partaken of by deceased were alcohol diluted with water, with an acid strychnine and it would carry. One teaspoonful of the mixture would be sufficient to kill a human being. Dr. Cole administered a dose on Sunday to a kitten at his hospital, and the animal died within five minutes. The odor test was applied, and the result left the matter beyond question that the poison used was strychnine.

The funeral of the deceased Annie Edna occurred Sunday on the reservation. She was an Indian doctor and had one of Tsa-Tsa's children as a patient, and it is said that a last account Tsa-Tsa has been heard to make threats against her life.

MISS LUCKEY LEADS VOTING. Balloting at Benefit Ball for Carnival Queen Was Interesting.

At the benefit ball given Saturday evening at the Armory hall, the voting for carnival queen resulted in placing Miss Pearl Luckey in the lead by 124 votes over all other candidates. The ball was greatly enjoyed by a large number of people, who quite unanimously pronounced it a success. The decorations were tasty and transformed the ballroom into a very attractive room. This is the standing of the various candidates at the close of the voting:

Miss Luckey, 124. Lizzie Milarkey, 68. Bertha Wells, 67. Ethel Meach, 47. Claire Mousseu, 48. Laura Sharon, 42. Gertrude Waltemore, 37.

It is now believed that the public weddings, one for each day of the carnival, will be satisfactorily arranged. None of the names will be given out, and everything will be done in good taste. The presents to be given to the couples will be an excellent one through the stage of Lady Smith, others in Kimberly, Marking and Wagoner. Her sister is a nurse in Marietta hospital.

Chinese the First to Use Ink. The Chinese consider themselves our superiors on many grounds, but largely because they were the inventors of various arts which are fundamental in our own civilization, says the Chicago Tribune. They were the first discoverers of ink, though even at the present day they employ by preference what is commonly known as India ink, which is a solid substance composed mainly of lampblack and gum, rubbed in a saucer to make the requisite solution. In place of a pen they utilize the camel's hair brush, which is much better adapted for producing their curious hieroglyphics.

V. B. Conklin, Bowersville, O., says: "I received more benefit from Foley's Kidney Cure than from months of treatment by physicians." Take no substitute. Koepfen's Pharmacy.
