BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disagreeing pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on.

Mr. H. T. Shuler, 224 Louisiana, St. Louis, Mo., says: "My daughter was afflicted for years with a disgusting eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many months were passed, but no result, until we decided to try S. S. S., and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and not a sign of the embarrassing disease has ever returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions.

SSS purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

UNITED STATES AND RUSSIA

The Bear Makes a Proposal and the United States Responds.

TEXT OF THE PROPOSAL AND REPLY

Russia is Not Desirous of Grabbing Any of China's Territory and Wants to Withdraw Her Forces From Peking.

Washington, Aug. 31.—The state department made public the Russian proposal and its own response today. The Russian representative made a statement that Russia has no designs of territorial acquisition in China.

Incidents in the necessary defensive measure on Russian border, Russia occupied Neu-Chang and soon as order is re-established, will retire her troops therefrom. As the Chinese government has left Peking there is no need for her representative to remain in Russia has directed the Russian minister to retire from China; that Russian troops will be withdrawn; and that when the government of China shall regain the reins of government, and afford authority with which other powers can deal, that government will again name its representative.

The Reply of the United States.

To this declaration our reply states that the government of the United States receives with satisfaction the statement that Russia has no designs of territorial acquisition in China, and that the declarations of Russia in this regard are in accord with those made by other powers, which we agree that the immediate object, for which the military forces have been cooperating, has been accomplished, there still remains other purposes which all powers have in common.

In our opinion, these purposes could best be attained by joint occupation of Peking under a definite understanding between the powers until the Chinese government was re-established and in position to enter into new treaties. With establishment of such authority the United States would wish to withdraw their force from Peking.

England and Germany in Accord.

London, Aug. 31.—The afternoon papers appear to be perplexed at the America-Russia accord to secure the prompt evacuation of Peking. The Globe urges the government to oppose to the American while the Japanese will hold the other three.

Guards at Peking.

Yokohama, Aug. 31.—General Yamaguchi reports that it has been decided to maintain guards at the imperial city, entrusting the south gates to the Americans while the Japanese will hold the other three.

Captured the Palace.

St. Petersburg, Aug. 31.—General Linevitch reports from Peking, under date August 20, that the Russian detachment captured, without loss, the imperial summer palace at Peking.

Peace on Any Terms.

Washington, Aug. 31.—The Chinese negotiators remain at the same point of view as yesterday. It was stated that no conclusion has been reached as to the last phase, namely the Russian proposal of withdrawing. As to the proposition to recognize Li Hung Chang as envoy, negotiations remain at a standstill. There is, however, reason to believe that the way has been opened for settlement of this question on the basis of the Japanese proposal, which is that Li Hung Chang be reinforced by Prince Ching and the viceroys of Nanking and Hankow.

As it is understood, these officials are pro-foreign in sentiments and strongly inclined to make peace on any terms. The influence of Li Hung Chang, even if sinister, would be counteracted.

Orders to Chaffee.

Washington, Aug. 31.—No orders have been issued to General Chaffee to carry out the suggestion in the Russian note for the withdrawal of the troops from Peking. Orders were sent General Chaffee, under which he could act in case there should be withdrawal of troops of any power, or that commanders could no longer act in concert. There is no disposition for precipitate or hurried withdrawal.

Beats With Fear.

London, Aug. 31.—Associated press has authority for announcing that the American-Russian proposal in favor of withdrawal of the allied forces from Peking, with view of facilitating the negotiations or conclusion of terms of peace, has not only met with considerable favor at European chambers of commerce, but is almost certain to be adopted. The recent statement that the admirals of the powers in Chinese waters contemplated detaining Li Hung Chang at Taku is devoid of foundation. Li Hung Chang will remain at Shanghai, endeavoring to open communication with his colleagues of the Chinese government.

GOVERNMENT WILL ACT.

Penniless Miners and Starving Indians Will Be Cared for.

Washington, Aug. 31.—The regular cabinet meeting was held today. Other subjects beside China that were considered were the condition of the destitute miners at Cape Nome and of a large number of Indian tribes in Alaska. It was decided to send a transport to Nome to bring back such miners as are penniless. Provisions and clothing will be sent to the Indians who are destitute.

THE SHIRT WAIST MAN.

A Railroad Attorney Decides a Case in His Favor.

Knoxville, Tenn., Aug. 31.—A woman passenger on the southern railway train having complained that a man wore a shirt waist without a coat in the ladies' coach, the matter was referred to the legal department of the road and it submitted an opinion that "so long as the man is decently dressed, whether he has on a coat or not, his appearance cannot be offensive to any sensible person."

Gold for San Francisco.

Sidney, Aug. 31.—The steamer Montana, which sailed August 29 for San Francisco, has on board \$2,700,000 in gold.

INDIANA IS DEMOCRATIC.

Republicans Poll the State and Find it is Against Them.

Indianapolis, Ind., Aug. 31.—It leaked out at republican state headquarters here that their poll, just completed, shows Indiana to be democratic by 18,000 majority.

This revelation threw the republican leaders into a state of dismay and consternation. Chairman Herby secretly issued a call for a meeting of the state executive committee. To the members of the committee Herby said that at the present time the state is in the hands of the democrats, and it will take a heroic effort for the republicans to get it back before election.

Poll-books were carefully gone over, and the members of the committee themselves verified the report that the state is democratic by 18,000 majority.

State candidates were informed of the situation and were urged to make a canvass of the state and assist in making a more thorough organization. Col. Durbin, republican candidate for governor, who had been looking after the organization in his own part of the state, will shift the scene of his operations to the republican poll shows that the greatest change from the republican to the democratic column is in the counties comprising the gas belt. This is due to the operation of the trusts in that section of the state.

Many of the largest and most important manufacturing plants of the cities in the gas belt have been closed within the last two years and thousands of men have been thrown out of employment.

In Anderson, Mr. Durbin's home city, hundreds of laboring men have been thrown out of employment within the last year as a result of the operations of the trusts, and they will vote the entire democratic ticket.

Indiana's vote at the various presidential elections since 1872 follows:

Table with columns: Year, Dem., Rep., Priority.

HUNTINGTON'S SUCCESSOR.

It Will Probably Be M. E. Ingalls of Big Four Fame.

New York, Aug. 31.—The Mail and Express says: It was said in Wall street today that the presidency of Southern Pacific would be offered President M. E. Ingalls, of the Big Four, who is a Vanderbilt ally. The selection of Ingalls would be another move in line with the alleged Vanderbilt plan to weave all the railroads of America into one vast system under a single head.

Boers Abandon Strong Position.

London, Aug. 31.—Lord Roberts reports as follows: "Further telegrams from Havetia that only a few of the enemy are there and that French and Pole-Carew's forces will move on their flank. The advance of Dunderdoff's mounted troops on their front caused them to abandon a very strong position."

The Government's Gold.

Cheyenne, Wyo., Aug. 31.—An unconfirmed report is in circulation here that the Union Pacific express car, robbed at Tipton Wednesday night, contained \$100,000 in gold to pay off the soldiers in the Philippines and that the robbers secured the whole shipment.

Plague in Glasgow.

Washington, Aug. 31.—The following cablegram was received by the marine hospital service: "Glasgow: The local board of health declared Glasgow is infected with plague. Eleven cases and one suspicious case are in the hospital today."

Horses Burned to Death.

Providence, R. I., Aug. 31.—Fire broke out this afternoon at the stables of Narragansett Park, where the grand circuit race meeting was being held. Eight horses were burned to death.

Strikers Return to Work.

Cardiff, Wales, Aug. 31.—About 50,000 striking colliers went to work here this morning.

CORBETT WON OVER M'COY

Victory Came to the Californian in the Fifth Round.

CLEVEREST EXHIBITION EVER SEEN

Corbett Receives \$18,000 as His Share of the Gate Receipts, McCoy \$6,000, of a \$30,000 House.

New York, Aug. 31.—The long looked for meeting between James J. Corbett and Kid McCoy under the auspices of the twentieth century club at Madison Square Garden is over and in less than five rounds Corbett proved himself to be the better man. Keen judges of the game who saw last night's fight declare that it was the cleverest exhibition ever witnessed in the ring.

Corbett's Heavy Slugging Won.

It was through his superb feinting and heavy slugging that Corbett put McCoy down and out last night. While McCoy landed some stinging jabs, he did not out Corbett's skin nor did he land a single heavy blow during the contest. On the other hand Corbett, when he dropped science and began to slug, landed hard rights and lefts which simply took McCoy's guard away, and when Corbett found the vulnerable spot in the region of McCoy's heart, two lefts divided by a right ended the battle.

The Opening Round.

In the opening round McCoy showed to a much better advantage than Corbett. McCoy seemed very confident though careful, while Corbett was nervous and ill at ease. The entire round was taken up with the cleverest kind of feinting and sparring on McCoy's part while Corbett's work left very little to be recorded. In the second round Corbett came up in better form and his uneasy feinting had evidently left him. He gave an exhibition which could only be given by a man thoroughly posted in the innermost points of the scientific art of boxing.

In the third they got to each other

often, but it was in the fourth that Corbett began to take McCoy's measure. At times Corbett stopped his scientific work and resorted to slugging, which proved very effective. McCoy was forced to clinch and it was then seen that Corbett was surely getting the best of it.

The Concluding Round.

In the fifth and concluding round Corbett forced McCoy into his corner where the Kid kept blocking and sparring for an opening to get out. Corbett swung for the head but McCoy ducked under it very cleverly and jumped to the center of the ring. Jim rushed him across the floor of the ring and by clever work forced McCoy back into the corner again, where he sent a right and left to the Kid's head.

This was the beginning of McCoy's undoing. Corbett went to him, using both hands, swinging and jabbing and occasionally appearing with his left. McCoy saw that he was no longer able to ward off the big fellow's blows and he threw his arms across his face, holding his head down in the hope of saving himself from a knockout punch.

Corbett showered lefts and rights which straightened McCoy up and then Jim swung his left which crashed into the Kid's body. McCoy doubted up and in doing so held Corbett's left glove with his right arm. Corbett then drove McCoy away from him with a right over the heart, and as the Kid went back staggering, Jim leaped after him landing another left straight on the nose and the Kid dropped to the floor and was counted out.

The men battled for 60 per cent of the gross receipts which was to be divided, 75 per cent to the winner and 25 per cent to the loser. It is estimated there was about \$50,000 in the house, so that Corbett will receive in the neighborhood of \$18,000 and McCoy about 6000.

A DOUBLE LOSS

Some weeks ago we bought a lot of Boys' Cheviot Suits, which by mistake were sent to one of our Colorado stores. The parties from whom we bought them being anxious to make matters right have offered us a discount of 50 per cent if we would keep the goods. We have decided to keep them and offer them for sale at prices that mean not only a loss to the maker but the loss of our own profit.
