PLEASING RESULTS always follow the use of Newbro's Herpicide, the new scientific cure for dandruff and falling hair. It possesses certain properties that kill the germ or microbe that causes all the trouble by sapping the oil out of the hair bulb. With this parasite destroyed, dandruff and the falling hair cannot exist. A thick, soft growth of hair springs forth where formerly thin, brittle hair, or perhaps total baldness held sway. One bottle will convince you of its merits. For Sale at all First-Class Drug Stores.

It is He Will Not Seek to Avoid or Evade the Issue of Imperialism--Prosperity is Another Important Theme.

New York, Sept. 8.—A special to the Herald from Washington says: President McKinley's letter of acceptance, which is to be published Monday, next, is said by the members of the administration to be the strongest presentation of the republican side of the issues of the present campaign that has yet appeared. SCHURZ TO GAGE.

The Ex-Secretary Accuses the Secretary of Being a "Rooter." In an open letter to Lyman J. Gage given to the press Carl Schurz takes the secretary to task for his reported interview suggestive that Mr. Bryan if elected could direct his secretary of the treasury to pay off in silver all government obligations payable in coin. Mr. Schurz calls upon Mr. Gage to retract his interview.

Mr. Schurz practically charges Secretary Gage with having given out his interview for a political purpose under cloak of protecting creditors of the government.

He points out it was the avowed intention of the last congress to adopt a currency measure which would put the country upon an impregnable gold basis and that if a loophole were left in the adopted bill which empowered the executive to redeem with silver government obligations made payable in coin it doubtless was for the purpose of furnishing the republican party an opportunity to play on silver without subjecting the gold standard to any real danger.

The silver writer adds that if it were not the purpose to leave the executive untrammelled "the spreading of false alarms of this kind is a very questionable and reprehensible thing and especially for a secretary of the treasury." Mr. Schurz throws down the gauntlet to his open correspondent and courts defense of Mr. Gage's toxin of alarm.
