On the branch the second return, leaving Pendleton, at 7. p. m. On the branch, the same rates will be given that have always been allowed Walla Wila during their truit fair, Similar rates will be granted in other directions, which will be definitely stated in a day or two. been made.

The W. & C. R. R. company has been asked to bring their train in from Hunt's Junction early each day and send it out later than the schedule in the evening. S. B. Calderhead, the general freight and passenger agent, has had the matter laid before him,

over the mountains from Wallowa to gone out throughout the country to the Pauhandle of Union county, the effect that Pendleton has secured thence up the Powder river pass to this wonderful attraction, people from North Powder. The band was started on the 15th of July and came through at that time. It is beyond doubt, that in good shape. It was Mr. McCully's Pendleton will contain the largest intention to ship the sheep to Portland but a deal was closed with the tory. The idea is growing in Portland Umatilla company. Another needlar that the business mus's exercise from

UKIAH IMPROVEMENTS.

Jerry D. Despain Visits Pendleton and

Tells the News.

Jerry B. Despain, one of the fore-nest men of Ukiah, merchant and assiness man with multifarious inerests, was in Pendleton Friday and left for home on the stage this morn

Among the improvements being made at Ukiah the two most note-worthy are a shingle mill and a roller chop mill for grinding feed for horses, chop mill for grinding feed for horses, cows, and other stock. The shingle mill is an automatic feeder with a capacity of 25,000 per day. It has a 20-horse power boller and will be driven with an 18-horse power engine. Mr. Despain has it all figured out how shingles can be furnished at Uktah to those desiring them at \$2.25 per thousand and still have a nuce profit for the owners of the mill. Shinliges are worth \$2.40 per thousand at Pendleton, and it is worth nearly \$1 per thousand to haul them from Pendleton to Ukah. That would make them worth \$5.40 per thousand at Ukiah. The \$3.40 per thousand at Ukiah. The shingle mill will employ more local labor in getting out the timber, and in putting in the mill the owners claim to be fostering home industry in the

right way.

The rolls for the feed mill are six inches in diameter and 14 inches long. The capacity of the mill will be more than sufficient to supply local demand. The shingle mill and feed mill will occupy one building and will be operated by the same boiler and streine.

Sinday forenoon, commencing at 10 o'clock, will occur the first shoot under the auspices of the new club. Six dozen live birds have been provided in addition to plenty of bluetocks, which insures lots of amusement. This is in the nature of a farewell to Harry A. Morgan, who has been a member of the Pendleton gun club and one of its heartiest supporters for years. He has stood with the boys through thick and thin, helping to maintian the honor of the club in trials of skill, in enforcing the game laws, and in otherwise advancing the interests of true sportsmen. Mr. and Mrs. Morgan will leave for Philadelphia Monday morning.

Worse Than War. Hundreds are killed in war, but hundreds of thousands are killed by consumption. There would be no deaths at all caused by this terrible disease, if people could be made to un-derstand that Shiloh's cough and consumption cure is a sure remedy if taken in the early stages. 25 cts., 50 cts. and \$1 a bottle. Druggists will refund the money if a cure is not effected. Tallman & Co., leading druggists.

The Former Postmaster At McEwen.

The W. & C. R. R. company has been asked to bring their train in from Hunt's Junction early each day and send it out later than the schedule in the evening. S. B. Calderhead, the general freight and passenger agent, has had the matter laid before him, and assures the fair and carnival management that the company will do anything in their power to advance the interests of the enterprise. Word is expected from Mr. Calderhead in a day or two, and no doubt it will be favorable.
