READING THE HAND.

Professor Sterling Tells the Characteristics of Leading Citizens.

Professor Sterling, in charge of the ministry department of the East Oregonian, has already read the palms of a number of Pendleton's leading citizens. A number of them will be published from day to day. Out of this list the following have been selected for today's issue:

**P. Scholz, Butcher.**  
You have a good head line, but your heart line droops, which shows that you are of a somewhat despondent nature; you are merry at times and you have a faculty of making others happy; you have a square type of body, which indicate that you will be successful financially, but you never will be in the best of health and you will travel more than you have any idea of.

**Claude Medley, Shoe Clerk.**  
Your hand indicates that you have talent for music and art; you will never be in poor circumstances; you are romantic and brave and have a very vivid imagination; your hand shows much strength of character; you have a firm splendidly formed hand.

**S. W. Swartz, Butcher.**  
You are fond of material comfort, willful, very zealous and exacting where your affections are concerned; also impulsiveness and imagination are strongly indicated.

**D. Tatom, Grocery Merchant.**  
Evidently versatility, ability, impulsiveness and practical and original mind are the strongest attributes shown in this hand.

**A. J. Hissop, Pendleton Umbrella Works.**  
Your hand is full of energy and will attract attention by its intelligence, long life and good health; shows economical disposition, will travel and possess property; music is one of your natural talents.

**G. Ernst, Clerk in Mint Saloon.**  
You will live to be quite old; you will be happily surprised in three months about matters pertaining to money.

Call at the East Oregonian office and get the prepared sheet for taking the outlines of the palm.

At any drugstore get 5 cents worth of tannic acid, add a teaspoonful of water, mix well and then apply to both palms, rubbing your palms together so as to have moisture penetrate the lines, etc., thoroughly. Then place your hands on the paper, holding it there steadily and with pressure for two minutes. Keep your hand firm on the sheet, then lift and gently.

Only use a small amount of the acid mixture on your palms, just enough to color the palm. Do not have it in streaks on the palms, because that will make it blur on the impression sheet.

Directions how to remove the stains from the palms: Wash hands in vinegar thoroughly; then use soap as usual.

After impression of hands has been taken return sheet to the East Oregonian office, signed with any name you desire, and same will be read by Professor Sterling, and the reading published in the East Oregonian.

Mail subscribers wanting the sheets will enclose 2c for postage.

**Prevented a Tragedy.**  
Timely information given Mrs. George Long of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and \$1. Every bottle guaranteed. Trial bottles free at Tallman & Co.'s drug store.

**Pioneers' Social Session.**  
William Martin encampment, No. 1, Pioneers of the Pacific, held a social session last night. After the regular business of the encampment had been transacted the meeting was turned over to the social committee of which Mrs. D. E. Watson was chairman. Max Moorhead read an essay on "Pioneers of the Pacific." Mrs. J. N. Wickersham read a poem on the "Street Fair," written by Dell McCarty; Mrs. W. B. Mays, Mrs. L. E. Laupkin sang solos; Professor Carl Guitt rendered a couple of piano solos. Then excellent refreshments were served. The attendance was good and an evening of enjoyment was passed.

**Story of a Slave.**  
To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle-working medicine is a godsend to weak, sickly, run-down people. Every bottle guaranteed. Only 50c. Sold by Tallman & Co., druggists.

**Fire at Wilbur.**  
Charles McLaughlin, of Wilbur, lost his residence by fire on Friday night, September 21. The fall loss to building and furniture was \$900, which was covered by insurance in the Aachen-Munich, the policy having been written by John M. Bentley, who states that fair work was a disastrous one for the companies he represents.

**Look at Your Face.**  
And see if it is reflecting health or disease. Karl's Clover Root Tea beautifies the face and complexion, and assures perfect health. All druggists, 25 cents and 50 cents. Money refunded if results are not satisfactory. Tallman & Co.

**THE MARKETS.**

**Wheat Has Slumped a Little Since a Week Ago.**  
Pendleton, Sept. 27.—Wheat has slumped a little since a week ago and can only be quoted today at 45 cents per bushel for No. 1 red soft and 47 to 48 for No. 1 bluestem. The most apparent reason for this decline is the advance of ocean freight rates, which went up \$1 per ton in one day at Portland. There are no actual sales reported and farmers are holding for better prices, which seem to be guaranteed by the statistics of the crop of the world, and more particularly of the crops of the Northwestern states.

**Wheat in Portland.**  
Portland, Sept. 27.—The Commercial Review in its review of the market in its issue today says:  
Harvesting is now about completed throughout Oregon, Washington and Idaho and the grain crop has been secured in good condition, little damage being done by recent rains. In the Willamette valley final returns show the yield to be less than half of an average crop. East of the Cascades the returns from most wheat districts are generally satisfactory, the yield being good and the quality far better than an average. The market the past week has been fair; a great many sellers are apart with the buyers as to values; nevertheless the selling movement has been good, and it ought to be with some exporters paying from 3 cents premium for wheat, that is above values abroad, giving their profits in ships to the selling interests, for wheat. Values abroad have been a trifle stronger, but not enough to justify any exorbitant prices paid for wheat. The tendency of the English market has been of a hardening character and more disposition is shown to operate. Pacific coast wheats are being held about 6d per quarter dearer. The foreign improvement has not been reflected here as to values, owing to the fact that local quotations have been too high right along, and unless the markets of Europe show further gains no advance here can be expected or looked for. At the same time indications are decidedly favorable to a gradual enhancement of what values the world over, but the supply and demand are fairly equalized, and no extreme or fancy prices are likely to be reached. Values are: Club, 57c; valley and bluestem, 60c per bushel.

**Wheat in San Francisco.**  
San Francisco, Sept. 27.—There is very little doing on this market and shippers are not extending their limits to secure wheat, having plenty of grain on hand for all requirements. The freight market is too strong to indulge in any movement towards paying fancy prices for wheat, hence there is very little doing and quotations are, No. 1 shipping, \$1.05 per cental; milling, \$1.07 1/2 to \$1.10 per cental.

**Available Supply of Wheat.**  
New York, Sept. 27.—Bradstreet gives the following available supplies for the week:  
Wheat, United States and Canada, east of the Rockies, 1,250,000 bushels.  
Abroad and in Europe, 2,100,000 bushels.  
Total supply, 3,350,000 bushels.  
Among the important increases are those of the 6,000,000 increase in the Northwest and the interior elevators, and 70,000 bushels at Chicago private elevators.

**Stocks of wheat at Portland, Or., and Tacoma and Seattle, Wash., decreased 200,000 bushels last week.**

**Wool in Boston.**  
Boston, Sept. 27.—Territory wools continue to head the list of sales. Quotations: Territory wools: Scoured basis, Montana and Wyoming, fine and medium, 11 to 18c; scoured, 50c; staple, 52 to 53c; Utah, fine medium and fine, 16 to 17c; scoured, 48 to 50c; staple, 52 to 53c; Idaho, fine medium and fine, 16 to 17c; scoured, 48 to 50c; staple, 52 to 53c.

**Australian wools—Scoured basis:**  
Spot prices, combing superfine nominal, 82 to 85c; good, 78 to 80c; average, 70 to 75c.

**Wool in Portland.**  
Portland, Sept. 27.—Wool—Fall clip, 14c; spring, 15 to 15 1/2c; Eastern Oregon, 10 to 13c; mohair, 25c per pound.

Hides—Dry hides, No. 1, 16 pounds and upward, 14 to 15c; dry kip, No. 1, 5 to 16 pounds, 15c per pound; dry calf, No. 1, under 5 pounds, 15 to 16c; dry salted, one-third less than dry; dirty, salted hides, sound steers, 60 pounds and over, 7 to 8c; do 50 to 60 pounds, 7 1/2c; do 40 to 50 pounds and cows, 7c; kip, 13 to 30 pounds, 7 1/2 to 8c; do veal, 10 to 14 pounds, 7 1/2c; do calf, under 10 pounds, 7 1/2c; green (unsalted) 1c per pound less; culls (hulls, stags, moosehides, badly cut, scored hair slipped, weather-beaten or grubby), one-third less.

**KING THE VICTOR.**  
Knocked Out Mike Early at Roseland in the Third Round.  
Andy King, the little cyclone who made himself popular in Pendleton year ago, is adding to his laurels. The following is a telegram from Roseland, B. O., dated Wednesday, September 25:  
Andy King, featherweight champion of British Columbia, whipped Mike

**Early, the champion featherweight of New York, in the third round at the international theater last night. Early is a clever boxer, but King is stronger and heavier. In the first round honors were even, but in the second King struck Early a right-hander over the heart, broke a rib and knocked him down. After this he knocked Early down six times. It was the going that saved Early on the last knock down, as he could not have gotten up in 10 seconds. The third round lasted nearly a minute and was a succession of knock-downs until Early was put out. Early was plainly outclassed, although he put up a gallant fight.**

**FIRST PRIZE PHOTOGRAPHS.**  
Lee Moorhouse Captures the Blue Ribbon at State Fair.  
Lee Moorhouse received the pleasing news Wednesday that his collection of photographs had received the first prize of a blue ribbon at the state fair at Salem. The prize was for best collection of photographs by an amateur. Mr. Moorhouse's photographs of Indians have brought him into prominence all over the United States, and his work never fails to attract attention and favorable comment. Mrs. Weathered, who had charge of the art exhibit at the state fair, requested that Mr. Moorhouse's photographs allow his pictures to remain there for a short time on exhibition. That was evidence that they were appreciated, as still further was the fact that she stated that Mr. Moorhouse's collection had added to the completeness of the exhibit in her department.

**WOLFE RELEASED.**  
The Charge Against Him of Defacing a Building Was Withdrawn.  
J. T. Wolfe, of Union, who was arrested Tuesday evening on a charge of defacing a building, proffered by Kaspar Van Dran of Hotel Pendleton, was released late Wednesday afternoon, the charge having been withdrawn from Justice Fitz Gerald's court.  
This arrest has caused more comment and speculation in Pendleton than a little. Nothing similar to it has ever been heard of by those under whose observation it has come.  
The object of making the arrest was not to punish Mr. Wolfe too severely, but to put a stop to the expense and annoyance to which hotel men have recently been put by water flooding the buildings.

**Substitute for Coal.**  
A good deal of anxiety has been devoted to the question, what will the human race do when coal gives out? Its disappearance will not make the slightest difference, as a chemical substitute has been discovered, which is cheaper and better. The new century is bound to witness many changes, but there is one human benefactor which will remain as firm as the pyramids, and that is Hostetter's Stomach Bitters. It is a cure for all stomach ills. No one has been able to discover anything as effective for indigestion, constipation, dyspepsia, biliousness, liver and kidney troubles as the Bitters. Be sure to give it a trial, and you will be convinced that it is the medicine to strengthen your stomach and restore your appetite.

**COMBINE BURNED.**  
Machinery and Eight Hundred Sacks of Grain Destroyed.  
Some time during the night of Friday, September 21, fire destroyed the Holt hillside combine of William Connerley, which was stored on his farm 12 miles southwest of Pendleton, about seven miles east of Mission station. Mr. Connerley did not learn of his loss until Sunday, as there was no one around the place when the fire occurred. Eight hundred sacks of wheat were also practically destroyed by the same fire. It is thought that the fire was of incendiary origin. The combine was worth \$800. The machinery and wheat were insured in the Insurance Company of Pennsylvania. Chester Deering, special agent to the company, of Portland, and John M. Bentley, local agent, went out Tuesday to adjust the loss.

Last spring Schroder was arrested on the specific charge of misappropriation of government funds in connection with the affairs of Company A, O. N. G., but was acquitted.
