READING THE HAND.
 Professor Sterling tells the characteristics of leading citizens.
 Professor Sterling, in charge of the palmistry department of the East Oregonian, has already read the palms of a number of Pendleton's leading citizens. A number of them will be published from day to day. Out of this list the following have been selected for today's issue:
Lestly Smith.
 You are very steady in your habits; you will never be in poor circumstances; you will, however, be a rover in 1904.
C. L. McGinnis, Clerk in Nolte's.
 You have a quick temper and a passionate, intense nature; you are frank and straightforward in manner. You are quite generous.
F. J. Gault, Butcher.
 This hand indicates an impulsive nature in little things; you are very excitable, but under trying circumstances you are very calm and collected.
W. M. Myers, Barber.
 You have much talent in music and art; you will always be in good circumstances; you have been greatly imposed upon in the past; you never will be rich; you will be disappointed in a trip you have planned to take soon.
W. Badley, Glass Merchant.
 You have had a disappointment in the last three months; you will be disappointed in the same way in a few days, also you will soon make a change that will be very good for you.
H. D. Adams.
 You are earnestly striving after a fortune. Your efforts will be rewarded, but some time must first elapse.
Henry 16.
 You have had a fatal love affair and you will have a lawsuit in 16 weeks; you will lose the case. Be careful of Adams.
 Call at the East Oregonian office and get the prepared sheet for taking the outlines of the palm.
 At any druggist's get 5 cents worth of tannic acid, add a teaspoonful of water, mix well and then apply to both palms, rubbing your palms together so as to have moisture penetrate the lines, etc., thoroughly. Then place your hands on the paper, holding it there steadily and with pressure for two minutes. Keep your hand firm on the sheet, then raise hand gently.
 Only use a small amount of the acid mixture on your palms, just enough to color the palm. Do not have it in streaks on the palms, because that will make it blur on the impression sheet.
 Directions how to remove the stains from the palms: Wash hands in vinegar thoroughly; then use soap as usual.
 After impression of hands has been taken return sheet to the East Oregonian office, signed with any name you desire, and same will be read by Professor Sterling and the reading published in the East Oregonian.
 Mail subscribers wanting the sheets will enclose 2c for postage.
Your Face.
 Shows the state of your feelings and the state of your health as well. Impure blood makes itself apparent in a pale and sallow complexion, pimples and skin eruptions. If you are feeling weak and worn out and do not have a

FOR SALE BY TALLMAN & CO., DRUGGISTS, PENDLETON, OREGON.

AN EAST END VIEW OF IT.
 What a Correspondent of the Milton Eagle Thought of Pendleton's Fair.
 When your correspondent promised an account of the street fair I thought a few lines would suffice; but the contrast grew faster than Jonah's gourd, says someone writing to the Milton Eagle. Pendleton has done herself proud—even for Pendleton. Beautiful weather, beautiful booths and a fine location, all made a really pretty exhibit.
 Some of the booths were the finest I have ever seen, but the Pendleton woolen mills' was by all odds the most artistic. Their beautiful blankets were arranged in a most pleasing manner, the colors blending to form a beautiful whole.
 R. L. Oliver, of Oliver & Co., had a booth devoted entirely to the exhibition of his farm products that made a unique and interesting exhibit. His farm is located one and a half miles below Pendleton and his exhibit was enough to make even a Freewater man envious.
 Joe Eli and Jesse Failing each had a booth furnished in a neat and pleasing manner. Many of the other booths put in by the business houses were worthy of mention, but space forbids.
The Indian Exhibit.
 After all, the exhibit of all was the exhibition of Indian relics by Mrs. J. H. Kuznie, Mrs. F. E. Wamsley, Major Wilkins, Mrs. Dr. Smith, J. Tallman and others. Mrs. Kuznie's, of course, was the best and most complete. There you could see a totem pole, tomahawks, warclubs, beads, Indian idols, stone carvings, a curious Indian mask and arrowhead in an endless variety. There were metal and mortar for grinding the grain for food, and things we could not even guess the name of. Mrs. Kuznie's exhibit also included a curious old lamp or lantern from San Salvador 300 or 400 years old, some beautiful opals from Umattila and garnets from Alaska. Mr. Tallman had a large collection of arrowhead, in his exhibit. I noticed several Navajo blankets, a Pawnee headdress and some headdresses from the Umattila Indians that were of the regulation hair raising variety. It recalled the days when I was small and read the lovely illustrated accounts of Indian massacres. Igh!

The work from the Umattila Indian school was worthy of notice and had a very civilized look—some of the drawing was exceedingly well done.
 In the mining exhibit I noticed samples of coal from each creek, north of Pilot Rock, and a large collection of ore from Prairie City, Grant county. Some of these ores assay as high as \$1000 to the ton.
 The creamery exhibit from Ukiah and Albia was very fine. The butter made its hungry way to common bread and butter. The O. R. & N. had a fine collection of grains and grasses well worthy of study and investigation.
The Fruit Exhibit.
 The fruit exhibit was worthy of even Walla Walla valley, and was grand, both in variety and quality. This exhibit was in charge of Howard Evans and was well arranged and very artistic. The fruit display was crowded and Howard had a constant string of questions to answer. However, Freewater had placed in his hands a liberal supply of literature which was freely distributed. Real estate dealers in Milton could very well take pointers from Freewater in the matter of advertising.
 There is more catarrh in this section of the country than all other diseases put together, and until the best test was made it was incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly falling over with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requiring constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses of from ten drops to a teaspoonful, and it cleanses the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for literature. Address: F. J. CHENEY & CO., Toledo, Ohio.
 Sold by druggists, 25c.
 Hall's Family Pills are the best.

THE DROWNING OF ANDREWS.
 Henry F. Pierce, Just Back From Nome Gives Particulars.
 Henry F. Pierce, formerly of Milton arrived in Walla Walla Saturday, bringing full particulars of the death of Prof. T. E. Andrews, who was drowned near Topkok about two weeks ago.
 The report that the body had arrived at Seattle from Nome proved to be an error, as it has never been found as far as is known. Around the body was a belt containing \$400 in gold, and this man have weighted the man down by his death. Services in his memory were held yesterday at College Place.
 Prof. Andrews, in company with Prof. W. P. Sutherland, president of Walla Walla college, were operating a placer mine on an island near Topkok, 50 miles from Nome City. They had a good claim and in company with another man were making good wages.
 The recent tidal wave that visited the coast along Cape Nome forced back the water in the river and this, combined with the heavy rains, caused the island to become flooded to such an extent that the men were in danger of being swept away. They remained, however, thinking perhaps the waters would recede so they would be able to reach the main land. The river continued to rise, however, and the three men resolved to swim for the shore.
 The stranger and Sutherland being powerful swimmers, remained in the boat in safety, but their unfortunate friend sank when only part of the way over and was never seen again. He had \$400 in gold dust strapped to his belt at the time.
 Sutherland and the other man reached Nome without a rent and have taken passage for home on the steamer Centennial and are expected to arrive here some time this week.
 The drowned man was 31 years of age and had been employed in the college for the past seven years. He leaves a wife and two children.

FIVE THINGS.
 The five diseases for which Shiloh's Consumption Cure is especially recommended, are Coughs, Colds, Whooping Cough, Croup and Consumption. No medicine ever made by man is equal to it in any respect. Sold under a positive guarantee. Money back if it fails. 25 cts, 50 cts and \$1 a bottle. Tallman & Co.

BIG WHEAT SALE.
 Nearly Three Thousand Sacks at 45 1-2 Cents Per Bushel.
 David E. Cargill is in Pendleton today, having been at his farm in Cold Spring during the past week. He sold a great portion of his wheat on Monday, September 24, at what he thinks was a pretty good figure. The sale aggregated nearly 3000 sacks. (One carload, of 250 sacks of Sonora wheat, at 50 cents per bushel. This Sonora wheat is the variety that has given such good results for spring sowing in Umattila county. In several instances it has produced 50 per cent more wheat than another variety sown alongside of it at the same time. The

rest of the wheat sold by Mr. Cargill was of the red chaff and Salt Lake club varieties to the amount of 2400 sacks. It brought 46 1/2 cents per bushel.
 In view of the depression in the price of wheat later in the week, and what it was worth to exporters this morning, Mr. Cargill congratulates himself over having made a pretty good deal.

Death at Hilgard.
 Elmer Butler, aged 7 months and 7 days, son of Mr. and Mrs. Mason Butler, died Sunday afternoon at 4 o'clock at Hilgard. It was intended to bring the remains to Pendleton for burial, but the authorities refused to allow it. The disease which caused death is not absolutely known, but it is suspected that it was scarlet fever. Interment took place at Hilgard at 10 o'clock this forenoon. Mr. Butler is an employe of Boettcher & Boylen, in the sheep business. His home is at Echo but he has been looking after the sheep of his employers in the mountains near Hilgard during the summer.

Wheat in Warehouses.
 L. M. Huson is in Pendleton today from Juniper. He has a great deal of wheat of his own, and is interested with Frank Frazier in some more. Mr. Huson expressed the opinion that this week would see practically all of the wheat of his section of the county in the Helix, Vanecyle and Stanton warehouses. All of Mr. Huson's wheat has already been hauled. He says that the warehouses at the above three places are even now pretty well filled. A raise in a few cents a bushel in the price would see a great deal of wheat change ownership.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions but changes them to a natural and healthy character. Ely Brothers, 50 Warren St., N. Y.

Wants Pardon for Morris.
 Ex-Judge H. H. Hewitt, of Albany, has presenting to Governor Geer a petition for the pardon of P. G. Morris, a former treasurer of Linn county, who, on March 21, 1900, was convicted of the crime of larceny of public money, amounting to \$1564.54, and sentenced to serve four years in the penitentiary and to pay a fine of \$313.08. This petition is altogether the largest and strongest ever presented to an Oregon executive, as it contains the names of 2490 citizens who express a doubt of the prisoner's guilt.

Attention Fireman District No. 5.
 There will be a meeting of the members of hose company No. 5 at the council rooms Tuesday, October 2 at 8 p. m., for the purpose of perfecting organization. All members are requested to be present. By order of H. J. STILLMAN, Chief.

Worse Than War.
 Hundreds are killed in war, but hundreds of thousands are killed by consumption. There would be no deaths at all caused by this terrible disease, if people could be made to understand that Shiloh's cough and consumption cure is a sure remedy if taken in the early stages. 25 cts., 50 cts. and \$1 a bottle. Druggists will refund the money if a cure is not effected. Tallman & Co., leading druggists.

The North Pacific conference of the Grand Methodist Episcopal church will be held in 1901 at Spokane. Such was the decision of the conference, after a number of ballots at Salem Saturday, Portland was a close second in the voting, which was spirited, but good-natured.

Mothers and Children
 Rejoice in the cleansing, purifying, and beautifying properties of CURICURA SOAP and CURICURA Ointment, purest and sweetest of smallest skin cures.  Sold throughout the world. For Sale, Dose and Directions, Curic. Prep., Boston. "All About Baby's Care," free.

REV. PAUL KRUGER.
 He is Declared to Be Not a Respectable Minister.
 Paul G. Kruger, a minister of the United Brethren church, who had charge of a flock for some time in Camas Prairie, this county, has been shorn of his ministerial privileges by J. G. Rhoades, presiding elder, in the following letter to the press:
 Huntsville, Wash., Sept. 27.—To the Editor.—As one of the presiding elders of the United Brethren church, Columbia river conference, I have just received official notice of the excommunication of Paul G. Kruger as a minister of said church, east Nebraska conference, for "sufficient cause," and feel that it is due the church and the general public that this action be published, especially in view of Mr. Kruger's persistent attempts to impose himself upon the public as a respectable minister. J. G. RHOADES, Presiding Elder.

Is This Plain Enough.
 If you have a nagging cough and are losing flesh, go to a drug store, and get a bottle of Shiloh's Consumption Cure. Take two-thirds of it, and then, if you are not benefited, return the bottle to the druggist, and he will return your money. Isn't that fair? No one could ask more. 25 cts., 50 cts. and \$1 a bottle. Tallman & Co., leading druggists.

WALLA WALLA FRUIT FAIR.
