Two ladies took the trouble to count the animals, and told Mr. Glenn there were 23 of them. Mr. Glenn and his two sona, Gay and Bud, and John Schleppy, constable of Summerville, came on to Pendleton last Monday, and that day and the following were spent in trying to learn if the cattle had been sold in Pendleton and butchered. An examination of the hides recently sold here of cattle that had been butchered gave no additional information.

when physicians recommend you have them compounded by us, what does that mean? Simply the certainty on their part that you will get exactly what is prescribed—the right quantity and the right quality, which is even more important.
