GENERAL NEWS.

The Rev. Henry Russell Pritchard, the oldest minister of the Christian church in the United States, died at Chesterfield, Ind., aged 81.

The receipts at the Philippine treasury for the month of August, 1900, were \$934,661. The treasury receipts for the corresponding month of 1899 were \$525,192, showing an increase in favor of the month of August, 1900, as compared with 1899, of \$409,469.

A novel thing in injunctions, even in Milwaukee, where injunctions have been so much overworked, was that issued by Judge Ludwig, says a dispatch in the Chicago Chronicle. It restrains a wife from calling her husband impudent names or from interfering with him in his business.

City Marshal Wake of the town of Reno, Neb., was shot and killed by Bill Hunt, Monday. Hunt was disturbing speakers at a political meeting and the city marshal attempted to arrest him, when Hunt shot him twice, killing him instantly. An effort was made to form a mob to lynch Hunt, but he was hurried away to the county jail.

The Transvaal agency announces that Mr. Kruger will arrive at Marcellus on the Dutch cruiser Gelderland November 11 or 12. He will receive several French, Dutch and Belgian delegations. Mr. Kruger will proceed to The Hague without stopping at Paris, and after expressing thanks to Queen Wilhelmina for Dutch hospitality on board the Gelderland, he will appeal to the powers to intervene in South African settlement on the basis of Article III of The Hague convention.

PACIFIC NORTHWEST NEWS.

The Arlington Record, after careful inquiry and computation, estimates the wheat yield of Gilliam county, this year at 1,750,000 bushels.

Daniel Sloner, who carries the mail between Mossrock and Forest, Wash., reports an excitement at Mayfield, on the Cowlitz River, 25 miles southeast of Chehalis, on account of the alleged discovery of a rich gold-bearing ledge at the mouth of Silver Creek.

At her own request, Miss Snell is to retire from the management of the girls' dormitory at the Oregon agricultural college. In the new arrangement, Miss Chamberlain is to have charge of the discipline and Mrs. Callahan of the business and culinary department. The change is to take place November 1.

The Motter-Wheeler company at Walla Walla has filed articles of incorporation. The capital stock is \$25,000 in 500 shares of \$50 each. W. W. Wheeler, Joshua Motter and W. P. Whopper are named as the directors. The Motter-Wheeler company is successor to I. Falk, who formerly conducted the sterling department store. The transfer was made last spring.

The steamer Dolphin arrived from Skagway with 12 passengers and 1,000 in gold from the Klondike. The Klondikers came up the river on the Zealandia, leaving Dawson October 14. The river was then full of floating ice for 100 miles and the weather was bitterly cold. Two small steamers left two days later and are now well bound on Lake Lagrange. River navigation is over for the season.

A unique water was made in Farmington, Wash., Saturday which induces Farmington a display of fireworks on election night. C. R. Hill for the democrats and M. W. Bolshaw for the republicans agreed to the following proposition. If Bryan is elected the republicans are to pay for 25 worth of fireworks and powder and fire it under the direction of the democrats; if McKinley is elected the democrats are to do the firing and buying. The money has been put up.

THE COUNT OF THE PEOPLE OF THE NATION.

GEN. MERRIAM ESTIMATES

1900 Census Placed at 76,296,220, With Some to Hear From.

AN INCREASE OF 21 PER CENT

Oregon Has 413,532, Which Equals a Gain of Nearly 33 1-3 Per Cent During the Past Decade.

Washington, Oct. 30.—The census of Oregon for 1900 is given out today at 413,532. The 1890 census showed 314,767, the increase being nearly 100,000, and almost 33 1-3 per cent.

POPULATION—76,296,220.

Director Merriam Gives Out the Final Figures for the United States.

Washington, Oct. 30.—Director William R. Merriam, of the United States census bureau, today gave out the figures of the population of the United States as 76,296,220. This is an increase over 1890's figures of 13,225,454, or nearly 21 per cent.

This preliminary statement, which is subject to final verification, represents approximately the total population of

President McKinley Said He'd Not Keep the Islands.

United States Senator Wellington, Maryland, says: "A few days before the vote on the treaty with Spain was taken I called on the president, with a witness, at his request, and the question was discussed at length. The conclusion reached at this conference was that I would cast my vote for the treaty. This was agreed to upon the assurance of the president that he did not propose to acquire or hold the Philippines against the consent of their inhabitants. Upon that promise I voted for the ratification of the treaty. Without my vote it could not have been ratified. The treaty was ratified by the senate, but the promise of the president was never fulfilled."

the country, including all states, organized territories and Alaska, as well as figures purporting to give the number of persons in the service of the United States stationed abroad, and is derived from partial data only, as all returns for Alaska and for certain military organizations stationed abroad are not received. In forty-five states the population is 74,627,507. The statement shows 134,158 Indians are not taxed. No provision was made by the census act for the enumeration of Puerto Rico, but the census of that island under the direction of the war department showed 953,243. The following states and territories are given out: California, 1,485,053; Colorado, 539,709; Idaho, 161,771; Montana, 243,289; Nevada, 42,334; Oregon, 413,532; Utah, 478,895; Washington, 617,672; Wyoming, 92,941; Alaska, estimated, 44,000; Arizona, 122,212; Hawaii, 152,401; Indian territory, 391,960; New Mexico, 193,777; Oklahoma, 398,245. Persons in the service of the United States abroad 84,000.

THE AMERICA'S CUP RACES.

Are to Be Puffed Off at New York City.

New York, Oct. 30.—While there is talk in some quarters of transferring the America's cup races to Newport, the Journal states on the best authority that there is not the slightest chance of the races being presented there. While the course of Branton's Reef lightship is good it is not as good as one for a fair test as the Sandy Hook course. Off Point Judith, Block Island, and Vineyard sound, four sides would face to be encountered during the race against one or two at Sandy Hook. For all or other, it would be unfair to ask Sir Thomas Lipton to accept such a handicap and there is not the slightest chance of his being requested to do so.

So far as winds go there is quite as much chance of a breeze at Sandy Hook in August as at Newport, for they have calm days there just as they do at Sandy Hook.

HELD UP PAY WAGON.

Hungarians in Pennsylvania Shot the Paymaster—One of Them Killed.

Mount Pleasant, Pa., Oct. 30.—Four Hungarians held up the Southwest Pennsylvania Coke company's pay wagon a mile west from here this afternoon. Falling to secure five thousand dollars in cash they opened fire from ambush, killing Paymaster Wm. Hoeler. The driver returned the fire, killing one Hungarian. The holdups then fled. Police are scouring the country in search for them.

Swore Falsely.

Louisville, Ky., Oct. 30.—Finley Anderson makes an affidavit that his testimony at Georgetown against Caleb Powers, convicted of complicity in the Goebel murder, was false, and was secured by Colonel Tom Campbell and Arthur Goebel for \$300.

OSTEOPATHS.

KIPLING'S HOME FOR SALE.

Will Live in England—Thought Once to Live in Vermont.

Brattleboro, Vt., Oct. 30.—Rudyard Kipling has offered for sale his country place here. He has evidently abandoned America as an abiding place in favor of the village of Rottingdean, England. Ever since the death of his daughter in New York the English author has spent little time at his place at Brattleboro.

Kipling undoubtedly intended to make his permanent home at Brattleboro. The country was familiar to him when he built his house here three years ago. He had visited Vermont with his wife's people, and had picked out 13 acres of rolling country, which reminded him somewhat of the hill country in India. So he made a house, a long, shingled structure, with a wide veranda at one end and nearly like an Indian bungalow as the American climate and American building would permit, and gave it an Indian name, "Naulaha." This house Kipling has left as he lived in it.

Alvord Arraigned.

New York, Oct. 30.—Alvord, was arraigned this morning and remanded to appear this afternoon in court, when it was expected to decide the status of the case. A large crowd followed him about.

THIRTY-SEVEN DEAD.

New York Police Report That Many Killed Monday.

The New York Drug Store Holocaust Had a Long List of Victims.

Alvord Arraigned.

New York, Oct. 30.—Up to noon today but two bodies had been discovered in the ruins of yesterday's drug store fire. One is a woman, the other a man. Neither can be reached at present, owing to the extreme heat. According to the police, thirty-seven are still missing. A dozen streams of water played all night and today on the wreckage, while three hundred men toiled, seeking to bring to light the bodies which were buried in the ruins.

LACK A LINK.

Evidence Against Murderers of Jennie Roschlester, the Paterson Girl.

New York, Oct. 30.—The only link that seems to be lacking in the chain of evidence against the alleged murderers of Jennie Roschlester, the Paterson girl, is the identification of the purchaser of the drug. There is no question that she died from the effects of chloral poisoning but it is not known where the drug was bought or by whom obtained. The police say that they know McAllister tried to get a bottle re-filled, at Kent's drug store on the evening of the tragedy and they say they have the affidavit of one of the clerks there that he refused to sell chloral to McAllister on that night. The police have been canvassing the list of McAllister's friends in drug stores. There is no law in New Jersey against the sale of chloral.

Injured in Lenton Jubilation.

London, Oct. 30.—Actual police records show that twelve hundred persons were injured in yesterday's demonstrations in honor of the returning volunteers, with many unrecorded cases. The papers demanded an official investigation of the police permitting the orgie.

During the Chicago Prosperity Parade.

A press dispatch on the day of the Chicago republican demonstration: "All except the blast furnaces in the Illinois Steel Company's plant at Joliet will be reported, shut down tonight. More than 2,000 men will be thrown out of work. No statement can be obtained from officials as to the cause or length of the suspension. The Illinois Steel Company has orders for 850,000 steel rails."

PROF. MAX MULLER DEAD.

The Eminent Philologist Was of Oxford University Faculty.

Frederick Max Muller, corpus professor of comparative philology at Oxford University, died Sunday at 12:35 p. m. His disease was an affection of the liver.

Until 10 days ago he was able to continue writing his autobiography, dictating to his son. He was perfectly conscious until Sunday morning. He was 77 years old. Frequently during his illness dispatches of inquiry were received from Emperor William. For more than a year he had no hope of permanent recovery.

Professor Muller, the son of the poet, Wilhelm Muller, was born at Dessau, Germany, December 6, 1823. He was educated at Leipzig and Berlin, and took his degree in 1843, after which he proceeded to Paris, where he studied Sanscrit and the sacred books of the East under Eugene Barthelemy. In Germany he had previously studied Arabic and Persian as well as philosophy and comparative philology. In 1846 he visited England for the purpose of examining manuscripts in the East India house and at the Bodleian library, Oxford, and in the following year was commissioned by the East India company to edit the Rig Veda, which was subsequently issued by the University Press, Oxford. In 1860 he was appointed deputy Taylorian professor of modern languages at Oxford, and four years later succeeded to the professorship. He became curator and Bodleian Oriental Librarian in 1866 and was elected a fellow of All Souls' college in 1868. In 1888 he was appointed professor of comparative philology at Oxford, and held the chair until 1878, when he accepted the editorship of the series of important translations of the sacred books of the east. Of these series, 49 volumes have been issued, which embrace translations of the Upanishads, the Bhagavadgita, the Zend-Avesta, the Vedic Hymns, the Qur'an (Koran), the Ganes and Vedanta-Sutras, the Buddhist Mahayana Texts, the Sacred Books of China, and the institutes of Vishnu.

TOUR OF THE THREE

Bryan, Roosevelt and Woolley at Elmira, N. Y.

THENCE THEY WENT BY SPECIALS

Cleveland Brands the Times Story as a Lie Without Foundation or Warrant.

Elmira, N. Y., Oct. 30.—In a pouring rain, the three special trains of Bryan, Oct. Roosevelt and Prohibition Candidate John G. Woolley met at the Erie depot here. Col. Bryan continued west, speaking first at Addison, Col. Roosevelt departed for Corning, and Mr. Woolley for Williamsport. Bryan speaks in fourteen towns today, tomorrow entering Ohio. Mr. Bryan replied by telegraph to a statement by a Baltimore newspaper that President Cowan, of the Baltimore and Ohio railway, would cancel orders for cars if Bryan were elected. He said he imagined that Cowan's objection to his election was not based so much on a fear of business depression as to the fact that Mr. Cowan would oppose to government by injunction, and the blacklist railway pooling bill which Mr. Cowan went to Washington to lobby for.

Grover Cleveland's Denial.

Princeton, N. J., Oct. 30.—Grover Cleveland, in regard to the Philadelphia Times story, this afternoon said: "The whole thing from beginning to end is an absolute lie without the least foundation or shadow of truth. I have never uttered a word to any man being that affords the least pretext for such a mendacious statement. I have already telegraphed the Philadelphia Times to that effect."

No Freedom for His Drummers.

Jessie Gregg, manager of the Nicholas & Dean wholesale hardware house, is thus reported by the St. Paul Globe, supporting McKinley: "I was in New York last week, and passing down the street I was surprised to observe a large banner floating from a business house upon which was this inscription: 'Bryan Traveling Men's Club.' In our firm we have twenty traveling men at work, and I do not know how but one of them is going to vote this fall, but I want to say to you, gentlemen, that if any one of these traveling men should vote for Bryan, and I knew it, I should discharge him immediately."

Criminal Operation.

San Francisco, Oct. 30.—Dr. R. A. Huntington and J. D. Hill are under arrest for a fatal criminal operation performed yesterday on Jennie McKeown. Huntington has been keeping company with the girl, and it is alleged he is the cause of the trouble.

A Very Long Flame.

Madera, Calif., Oct. 30.—A celebration was had today over the completion of the longest flume in the world, which is fifty-four miles long, the property of the Madera Sugar Pine company. The new mill is also completed.

Wanted to Blow up Governor.

Hong Kong, Oct. 30.—Fourteen persons were killed and two injured today in an explosion which took place near the Chinese governor's yamen. It is said it was planned to kill the governor.

JAPANESE IMMIGRATION.

Higher Class Has Come Along With the Laborers.

Immigration to this country from Japan has brought a higher class with the laborers, and one whose coming is a complement to our educational system, says Auslin's Magazine. Education is relatively hard to get in Japan, where wages are so low that a student cannot afford to support himself and go to school, too. But the public schools in San Francisco and the two great universities at Berkeley and Palo Alto are free to them, and ambitious young men of the upper classes have been glad to come to California, where they could work as servants in private households and hotels while preparing to take their degrees. To such an extent does this practice prevail that two years ago it was estimated that there were 6000 Japanese seeking education in California alone.

Only about 1225 were on the whole Pacific coast in 1890. In the next two years 2634 arrived at San Francisco and many more came by way of Victoria and the northern ports. The arrivals in San Francisco were 1380 in 1893, 1931 and 1894, 1150 in 1895, 561 in 1897, 826 in 1898, 1667 in 1899, and 2664 for the fiscal year just ended.

INDIANS ACQUIRE.

Verdict of Columbia George and Toy-Toy Discussed.

A meeting of a dozen or so of prominent Indians and Indian Agent Charles Wilkins was held at the agency Monday. Chief of Indian Police Brisbane acted as interpreter. Among those present were Young Chief, Cook Hair, and Judge Poo-Poo-Tajah. The subject under discussion was the conviction of Columbia George and Toy-Toy for the murder of Anna Edna.
