FOOTBALL GAME IN SIGHT. Righ School Team Bas a Number of Dates.

The game of football last Sunday between the Indians and the Pendictons was just a starter for the senson. It amosed interest and will result in more games being arranged. The High of team is practicing almost daily with Roy Conklin as coach, and has two games marked down on its program, with a third one in prospect. The two games arranged for are with the La Grande High School team at La frande on Saturday, November 24, and with the Baker City High School team on Thursday, November 29, Thanks-giving day. Leonard Larone has been selected as captain of the local aggregation from the High School, Negotia-tions are being conducted by the respective managers of the Waitsburg, Wash., and Pendleton High School teams for a game at the first mentioned place some time between now and the La Grande game. The Pendleton management are not willing to allow men in the Waitsburg team, but insist opon it being composed strictly of bonalide members of the High School. That is causing a little in arranging the game, and may result in its not

RAILBOAD NEWS.

Shortage in Freight Cars Threatened

Jap Laborers on G. N.
That the present shortage of freight cars in the west and northwest will develop into a genuine freight car famine is regarded by traffic officials as highly probable. The situation in the far northwest is regarded as critical, the yards at Tacoma, Portland, Seattle, the yards at Tacoma, Portland, Scattle, Spokane and other important shipping centers being congested with cars loaded with grain for the eastern markets. At Tacoma there are between 3, 500,000 and 4,000,000 bushels of wheat awaiting cars for shipment, and the sidings, between Tacoma and Spokane are uncomfortably crowded with loaded cars. The traffic officials are doing all they can to clear the yards and sidings and keep the cars in motion. The accumulation of grain ready for immediate shipment, however, has been so great that the motive power at hand has not been adequate to meet the demands.

From the report made to the state labor commissioner the Great Northern company employed 1050 section men at \$1.33 1-3 per day in the year 1897. These men have all been replaced by Japanese laborers at \$1.10 per day, and there are now 2500 Japanese at work on the construction of the Great Northern in the state of Washington. ern in the state of Washington

Thirty more new freight engines were recently ordered from the Baldwin Locomotive works by the Burlington. The order involves an expenditure of approximately \$420,000, or about \$14,000 for each enigne, and it species next March as the time for delivery. Most of the new locomotives, which will be of the socalled "prairie" type, will be pressed into the Burlington service west of the Missouri river, where the freight traffic within the last year has shown remarkable growth.

Mail handlers in the railroad sta-tions at St. Paul, Minneapolis and other important terminal points in the northwest claim that the government is crowding too much matter into can-vas mail sacks. They have appealed to traffic officials of the road which employs them, declaring that within the last lew weeks they have handled

many mail sacks that have weighed considerably more than the maximum weight prescribed by law. The legal maximum weight is 150 pounds for second-class and third-class matter, but there have been complaints that sacks weighing 200 pounds or more have been carried from the twin cities to the Pacific coast. The mail handlers said that in addition to the delay caused in transferring the mails from the wagon to the cars the handling of the heavy sacks wore them down althe heavy sacks wore them down most to a state of collapse.

A Lady Assists Her Husband to Stop Drinking.

An unusual scope was presented in the recorder's office Tuesday, when a woman entered and asked if that was created by the feedback of the notified not to sell her husband any-thing more to drink. There was a pathos in her voice as she made the pathos in her voice as she made the request, but courage and firmness were alike shown, and in a two-minutes talk unintentionally divulged the heartaches and misery of several years. She paid the price of \$2.50, the cost of having the marshal serve the notices on the different saloonkeepers, and lett the office happy in having done her duty to reclaim her husband from his devious way that leads to moral and social degredation.

THE LOST IS FOUND.

Quick Action in an Advertisement in the East Oregonian.

Mrs. Mary A. Stover was coming up town Tuesday to purchase her wood for the winter. She carried in her pocket a small purse containing a \$20 gold piece. In due course of time, when she needed the money, she dis-covered that she had lost both it and the purse. A small advertisement was inserted in the East Oregonian of Tuesday, but Mrs. Stover was fearful that she would never see the money again, owing to the fact that it was in again, owing to the fact that it was in such shape that a dishonest person finding it would have no trouble in disposing of it, then keeping silent as to having found it. Fortunately for the loser the purse and contents were picked up by J. A. Drake near the corner of Alta and Aura streets, and brought to this office, thence trans-ferred to the loser. Mrs. Stover said he had been making calculations use the money to pay for wood, and that it would have been a very inconvenient loss.
