HOG CHOLERA CURE.

[R]esults From Frank Spike's Medicine.

[Good] results have been obtained [from u]se of the medicines as com[pounde]d by Frank Spike, of Echo, for [the] hog cholera. L. Stubblefield, [represe]nting Mr. Spike during the lat[ter's a]bsence in Chicago, where he went [two we]eks ago to organize a big com[pany] for the manufacture of the [medic]ine. Walter M. Pierce, of this [city] has 500 head of hogs at his ranch [... m]iles from La Grande, of which [Mr.] Pierce has charge. Many of [the ho]gs aforesaid were afflicted with [chole]ra and were dying at the rate of [... a d]ay until last Saturday. On that [day] Mr. Stubblefield was induced to [go the]re by Mr. Pierce and apply his [medic]ine. The result was wonderful. [Not] a hog has since died that was [well e]nough to eat the medicine with [which it w]as provided. Only two deaths [have o]ccurred among the hogs since [usin]g the medicine, and they were so [far go]ne that they could not obtain the [benef]its from the medicine. Mr. [Pierce] is outspoken in praise of Mr. [Spike]'s decoction. Mr. Stubblefield is [now i]n the Grande Ronde valley, and [is tre]ating other hogs to doses of the [medic]ine in addition to the diseased [anim]als the property of Mr. Pierce.

[D]eafness Cannot be Cured

[by loc]al applications, as they cannot reach the [disea]sed portion of the ear. There is only one [way t]o cure deafness, and that is by constitu[tiona]l remedies. Deafness is caused by an in[flame]d condition of the mucous lining of the [Eusta]chian tube. When this tube gets in[flamed] you have a rumbling sound or imper[fect he]aring, and when it is entirely closed [deafn]ess is the result, and unless the inflamma[tion c]an be taken out and this tube restored to [its no]rmal condition, hearing will be destroyed [forev]er; nine cases out of ten are caused by [catar]rh which is nothing but an inflamed [condit]ion of the mucous surfaces. We will give [One H]undred dollars for any case of deafness [(cause]d by catarrh) that cannot be cured by [Hall']s Catarrh Cure. Send for circulars, free.

WEEKLY MARKET REVIEW.

Local Millers Continue to Pay 44 Cents for No. 1 Club.

Pendleton, Dec. 13.—There have been temporary fluctuations in price of wheat locally during the past week, but the price is again where it was a week ago. Exporters were offering 43c yesterday, but that is too much today and 42c would be a better quotation. Local millers continue to pay 44c for No. 1 club.

Local Market.

Pendleton dealers are paying the following prices for ranch and farm produce:
Butter, 40 to 60c per roll.
Eggs—30c per doz.
Potatoes—50c per sack.
Parsnips, 60c per sack.
Cabbage—3c per pound.
Turnips, 75c per 100 pounds.
Turkeys—Alive, 10c per pound.
Geese—$10 per dozen.
Chickens, $2.50 to $4 per dozen.

Wheat in Portland.

Portland, Dec. 13.—The Commercial Review in its report of the market for the past week in its issue today says: The situation shows very little change since our last review. Some buying was done on the basis of 55c for Walla Walla, but this cannot be for immediate loading, as every warehouse and dock here is filled to the utmost capacity, and if every ship in port was loaded this week there would be plenty of wheat remaining on hand for another fleet as large. Exorbitant prices have been paid, but mostly for very late spring loading. The foreign cargo demand is either entirely checked or is so small that the market has a neglected appearance; as a result the situation steadily favors the buying class, who have the advantage, are inclined to make the most of it, and, when sales are too heavily pressed, sellers are compelled to make concessions. In view of the depression abroad it is natural that the effects should be seriously felt here, in almost stagnant trailing and abnormally low prices. Many of the large holders are bravely struggling against the downward movement by withholding supplies, but this is not seriously felt here, as all the exporting houses have plenty of grain here and in the interior. If exporters would pay what wheat is actually worth prices here in Portland or Tacoma would be about 50 to 51c per bushel. Walla Walla wheat prices are quoted from 53 to 53½c; bluestem, 57c; Valley wheat is worth whatever the miller will pay for the same, as the exporter is not figuring on the quality, and could not, if he so desired. Eastern Oregon wheat is going into the valley quite freely. This is due to the scarcity of valley wheat on account of the partial crop failure.

Wheat in San Francisco.

San Francisco, Dec. 13.—The market for wheat has been neglected, exporters apparently having export demands well in hand, and not disposed to operate extensively forward in the face of weak and lower foreign advices. Prices have not shown much change, and large holders have not pressed their holdings on the market, yet offerings from the weaker dealers were moderate, and this class is compelled to accept lower prices. No. 1 shipping is quoted at 76¾ per cental, and even at that figure there was little competition among the buyers to secure wheat. At the close there was a slight advance in spot wheat, in sympathy with call board prices, but no material improvement in the shipping demand. At the call board rooms business was very light, and fluctuations were within a very narrow range. Exporters have evidently supplied themselves with all the wheat necessary to fill contracts, and are now largely out of the market especially at extreme figures. Twenty-seven vessels are in port chartered for grain loading. The disengaged fleet numbers five vessels. Freight rates are too high to induce exporters to operate, hence nothing is doing in chartering vessels. We quote No. 1 shipping 96¼ to 97½c; milling, $1.02 to $1.05, per cental.

THIRD ANNUAL SOCIAL.

Pioneers of the Pacific and Many Friends Were Present.

The Pioneers of the Pacific gave their third annual social in their lodge, banquet and dance rooms in LaDow hall last evening. The program of the early evening consisted of music by Kirkman's orchestra, recitations by Miss Catherine LaBarre, songs by High School quartet, consisting of Messrs. Roy Conklin, Clyde Gard, Byron Hawks and Dell McCarty and stereopticon views, with lecture by Max Morehead.

The above exercises were listened to by a lodge room-full of people and were enjoyed. Next came a supper which was sufficient to cause Epicurus, long since dead, to look through a peek-hole in the curtain which separates the spirit of those who still live, to grit his teeth because he could not don mortal garb and participate.

The supper went merrily on, games were played in the lodgeroom, while the orchestra and dancers repaired to the ballroom. The latter chased themselves gracefully over the floor to inspiring music and had a real good time.

Among those present from abroad were: J. F. Johnson, Fairview; William Hessel and Otis Turner, Weston; Mrs. W. H. Evans, Pilot Rock.

A New Year's Guide.

The issue for 1901 will be over eight millions, printed in the English, German, French, Welsh, Norwegian, Swedish, Holland, Bohemian and Spanish languages. It contains proof of the efficacy of Hostetter's Stomach Bitters, the great remedy prepared by the publishers, and is worthy of careful preservation. The almanac may be obtained free of cost, at any druggist or general dealer in the country.

Coffee and cake will be served this evening and a general socal time enjoyed. The patient is the wife of Mason Butler, a sheepman of Nolin.

BAD COLDS

Quinine is ten years behind. Colds do not now have to be endured. MENDEL'S DYNAMIC TABULES (called dynamic from their energy) crowd a week's ordinary treatment into twelve hours and abort the worst of colds over night.

"It was the worst case of grip I ever had. A half dozen friends had sure cures. Still it hung on. Heard of the DYNAMIC TABULES. To my amazement they stopped both cold and cough the first night. I endorse and recommend them to the people." BARCLAY HENLEY, ex-Member Congress and Attorney, 101 Sansome street, San Francisco, July 7, 1900.

"Winter colds have always been serious things to me. They are hard and stay for months. But the last was stopped suddenly by MENDEL'S DYNAMIC TABULES. Both cough and cold disappeared in a couple of days. Nothing else does this for me." MRS. EMMA L. HOLLIN, 14 Moss St., San Francisco. Aug. 6, '00.

"I live across the street from where MENDEL'S DYNAMIC TABULES are made. That is how I first took them. They stop colds without notice. I took a dozen boxes with me for self and friends when I went to Nome." H. L. VAN WINKLE, Capitalist, 3017 Washington Street, San Francisco. August 10, 1900.

COUNCIL MEETING.

Quarantine Against Smallpox Will Be Strictly Enforced.

A meeting of the city council was held last evening at which the smallpox question was discussed and acted upon. Up to this time, owing to the rarity of cases and mildness of the disease, it has not been deemed necessary to take strict measures, but the condition of affairs has changed. The council instructed the city marshal to issue the following notice and enforce it to the letter.

Warning!!!

Smallpox in a mild form is in the city. Under the city ordinances the owners or occupant of any building in which there is any infectious or contagious disease is required to give notice in writing to the city physician immediately, and in case of failure or neglect the offender is liable to a fine of not less than $25 nor more than $100, or imprisonment in the city jail. This ordinance will be strictly enforced from this date. Any one knowing or suspecting any violation of this ordinance will confer a favor by reporting the same to me. In families where any such disease exists the members of such family must keep within their own enclosures until they secure a certificate from the city physician.

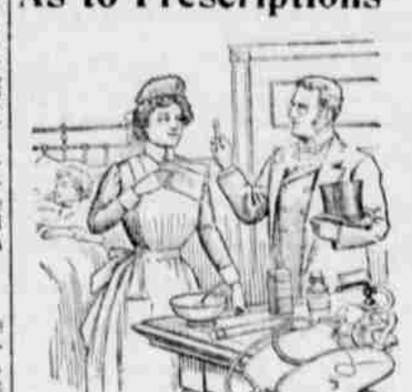
As to Prescriptions



when physicians recommend you to have them compounded by us, what does that mean? Simply the certainty on their part that you will get exactly what is prescribed—the right quantity and the right quality, which is even more important. But we go further than that, for we take honest pride in our skill in compounding.
