HURRY UP!

Everywhere one hears that expression 'hurry up!' It is a genuine American expression of the 'rush' in which we live. Nothing is so swift and so sure as the race against steam and lightning and find them slow. We grudge the time given to eating, and rush through meals as though life depended upon it. Life does depend on our haste, but not in that sense. Look at the ordinary columns alive and vigorous and see how many prominent men are carried away by 'stomach trouble,' 'acute indigestion' and other related diseases. Their lives have in general been sacrificed to the haste and rush of business which overlooked the fact that food can only nourish the body when digested and assimilated and that the digestive and assimilative processes are the most important.

Dr. Pierce's Golden Medical Discovery, cures diseases of the stomach and the associated organs of digestion and nutrition. The source of all physical strength is food properly digested and perfectly assimilated. By enabling the perfect digestion and assimilation of food 'Golden Medical Discovery' increases and enriches the blood supply and sends new strength to every organ of the body.

'I was at one time as I thought almost at death's door,' writes Mr. J. S. Bell of Nevada. 'Van Buren Co. Iowa. I was confined to my house and part of the time to my bed. I had taken quantities of medicine but they only seemed to feed the disease; but I must say that "Golden Medical Discovery" has cured me, and today I am stronger than I have been for twenty years. I am now forty-three years old.'

DEWET HOLDS HIS OWN

Determined Efforts Are Being Made by the British.

LORD KITCHENER WIRES THE LATEST

Reported That the Boer Generals Have Agreed to Terms on Which They Will Lay Down Their Arms.

London, Dec. 27.—The war office has received no confirmation of the reported capture of yoesmanby by the Boers near Britstown.

A Cape Town dispatch says the Boers attacked Burgersdorp on the 24th inst., but were repulsed. Skirmishes are reported as occurring at many places, but no signs that a concerted effort is being made to drive the Boers out.

A dispatch from Standerton, in the Transvaal, says the explosion of a gun there killed three men and wounded two others.

Lord Kitchener, in a dispatch, dated the 26th, says: Generals Knox, Pillemer, Baker and White are engaging General Bessie near Launton, in the eastern part of the Free State, and that the Boer commandant is trying to break through the British lines to the south. He says nothing concerning the report of the eastern column of Boers apparently has been headed off by the British near Retpoortspruit. He says the Boer western column is reported to have gone north in two sections with the British following.

British Lancers Suffer. Burgersdorp, Dec. 27.—Colonel Grenfell was engaged with Kruisinger's commando at Plaisierfontein on the 24th. The British lancers suffered eight casualties, including Lord Frederick Blackwood, the son of Marquis Dufferin, who was wounded.

Lord Roberts Gives the News. London, Dec. 27.—A second dispatch from Lord Kitchener today says: 'A force of two hundred Boers attacked the police near Baksburg yesterday and were driven off. The British lost one man killed. Another attack was made by the Boers at Utrecht. The enemy was repulsed with a loss of two killed. We had one man wounded. The Boers held up a train three miles west of Pan station, on the Cape railroad, below Kimberly. Reinforcements arrived with the Boers were driven off with the loss of one killed and seven wounded. Our loss was one killed and four wounded. The Eastern force of Boer colony invaders have been headed off and driven toward Venterstad. The western force is still being driven northward.'

Smith was found on the floor of his office by Attorney Coleman, who called at the office on business. He was conscious and said to Coleman that the woman entered and asked to use his telephone. Smith replied that he was too busy. She pulled a revolver and shot him. He says he does not know who she is.

Damages Awarded, Because Association Refused to Sell Its Goods. San Francisco, Dec. 27.—Edward S. Lowry was given a verdict of \$500 and damages, in the circuit court here this morning, against the California Title, Mantle and Grate Association. Under the Sherman act the court decreed the association was a trust. The jury rendered a verdict accordingly. The defendant had refused to sell goods to the plaintiff. Many anti-trust suits will follow in consequence of this decision.

JEFFERSONIAN BANQUET.

A Greeting Accorded Bryan Was Excitingly Hearty. Lincoln, Dec. 27.—The annual banquet of the Jeffersonian club of Lincoln, held last night, brought together nearly 300 representative members of the democratic and populist parties of Nebraska, with a number of leaders from other states. The dinner afforded the opportunity to W. J. Bryan to make his first appearance at a public gathering since the election, and the greeting accorded him was never surpassed in point of heartiness in his home city.

A Notable Speech.

Aside from the ovation to Bryan and his speech, the event of the evening was the speech of John W. Kern, of Indiana, who aroused the banqueters to the high pitch of enthusiasm not only by his laudation of Bryan but by

his outspoken criticism of those democrats whom he accused of contributing to Bryan's defeat. His denunciations of those democrats who offered 'gratuitous counsel to democracy,' though he mentioned no names, was expected by the crowd as a reference to ex-President Cleveland.

Bryan's Speech. A portion of Bryan's speech was as follows: 'Surrounded by neighbors who have been my friends for years, I may be pardoned for saying a word of a personal nature. Whether I shall ever be a candidate for office again is a question which must be determined by events. Our destiny is not known until life's works are completed. I shall be content if it is my lot to aid in the triumph of the principals while others enjoy the honors and bear the responsibility of office.

'The holding of public positions should be an incident not the aim for a citizen. It should be the means for the accomplishment of a purpose.

'The presidency seemed desirable because it would have enabled me to give effect to certain reforms which I believed to be necessary to public welfare, but defeat and even second defeat does no lessen my interest in this reform, and time may prove that my work is to advocate rather than to eradicate.

'The principles for which we contended in the last campaign still live, and we who believe in them must continue to fight for them. An election does not change principles. It only determines what principles shall be for the time being applied.'

VOLUNTEERS MUST WAIT.

No More to be Brought Home Until Congress Acts. Washington, Dec. 27.—As a result of a conference between the Secretary of War and Quartermaster General Lindtgen, it has been decided that no further action can be taken with regard to the return of the volunteers from the Philippines until congress shall make provision for their replacement. The War Department is considerably embarrassed by the failure of congress to make provision before the recess for the relief of the military situation in the Philippines. Acting upon representations made by General MacArthur, the department has concluded that it is absolutely necessary to maintain an army of 60,000 men in the Philippines until the current policy of establishing municipal governments throughout the archipelago has been executed. It is stated at the department that any reduction of the military strength below that figure in existing conditions would doubtless prove most disastrous to the interests of the United States.

NICARAGUAN CANAL BILL.

STRONG FORCES WORKING UNDER COVER AGAINST ITS PASSAGE. A Wily Attempt to Provoke British Dissent in Order to Defeat It Failed. Washington, Dec. 27.—Analysis of the amended Hay-Pauncefote treaty shows that the conservative element of the senate accomplished a victory over the radicals, who wanted to make the treaty as harsh as possible in its terms, seemingly for the purpose of provoking British dissent and further in the hopes of defeating the Nicaragua bill and delaying commencement of the work. It is suspected that railroad influence was at the bottom of this wily attempt.

It appears that neither the Davis nor the Foraker amendment interferes with the clause providing that 'no fortifications shall be erected commanding the canal or the waters adjacent.' The Davis amendment immediately precedes this section of the original treaty. The Foraker amendment repeal the Clayton-Bulwer treaty and reject the clause calling for foreign adherence.

The amended treaty is regarded in many quarters as ambiguous and subject to many interpretations. In brief, it is not regarded as a purely American document and does not preclude the possibility of serious complications in the future with England or other countries in the event of hostilities in the vicinity of the proposed Nicaraguan canal.

MOTHER KIDNAPS HER SON

The Boy is Found Hidden at a Farm House.

A SENSATION FOR INDIANAPOLIS

The Parents Are Prominent People, the Father Being the Son of Ex-Attorney-General W. H. H. Miller.

Indianapolis, Dec. 27.—After an all-night search Sheriff Miller, the 7-year-old son of Samuel D. Miller, who was kidnapped yesterday by his mother, was found in a farm house near Lawrence, at 4:30 o'clock this morning, and brought back to Indianapolis. Mrs. Miller took the morning train for the east. Yesterday the child went with his mother and nurse, ostensibly for a drive. Mrs. Miller refused to tell where she was going and the nurse jumped out and telephoned to the father, who is a son of a former attorney general of the United States.

The father then drove fiercely to Brightwood, where the woman expected to catch a train but missed it. Then she drove to Lawrence, the next station east, where she took lodgings for the night, while Mr. Miller took up the chase to Muncie and thence to Lawrence.

The trouble between the couple is alleged to be due to the fact that the wife refuses to live in any other place than New York or Washington. Miller, who is an attorney, is said to have been unsuccessful in his profession and came to Indianapolis recently and formed a partnership with his father. The mother is believed to have been at her hotel, and yesterday attempted to remove him from the state.

Will Fight in Courts. Indianapolis, Dec. 27.—Before Mrs. Miller left Lawrence she wired her attorneys in New York and Indianapolis to bring suit for recovery of her boy from his father. She alleges she has been the victim of much abuse by her husband.

DO NOT LIKE THE TERMS.

Chinese Government Objects Strongly to Certain Parts Joint Note. Peking, Dec. 27.—Emperor Kwang Su has acknowledged the receipt of the joint note of the powers and has notified the Chinese commissioners, Li Hung Chang and Ching, that China objects strongly to certain terms of the note, particularly the parts relating to the raising of Chinese forts and the establishment of permanent legation guards. Commissioners Chang and Ching were in conference for an hour after the receipt of the note from the emperor. Probably they will communicate further with the court before conferring with the foreign ministers.
