GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Maxwell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide April 6, '99, and began to use it for entire baldness. In 20 days, he says, he had hair all over his head, and on July 2 he writes, and today my hair is as thick and luxuriant as any one could wish. Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once, and starts the new growth in a week.

LIVELY TIMES AT A SALOON.

Mrs. Carrie Nation Missed it by Not Being in Pendleton Last Night.

A number of disputes over different subjects caused a large crowd and quite a commotion at a Main street saloon last night. Mrs. Carrie Nation, of Kansas, missed it by not being present. The outbreak for a while would have caused her to weep briny tears of joy. The first altercation was as to the respective merits of a couple of disputants as to their wrestling ability. One of the men took off his coat and vest and got ready for the match, giving one garment to each of two bystanders. After the wrestling contest had been declared off owing to the fact that no permit had been issued and the principals were not properly trained, the man who had divested himself of his wearing apparel discovered that he was short one watch, and accused an outsider of having taken it. Another outsider chipped in and was promptly ejected by the proprietor of the saloon and his right bower. One of the wrestling principals kept telling his troubles until he was hustled out in the same manner as was the first. Officer Scheer was present by this time, ready to take charge of any other who might require his services, but quietness was restored without the necessity of calling on him. The saloon was filled with excited people who wanted to know what it was all about, and many more gathered outside with their mouths so wide open they were in danger of getting their lungs frost-bitten, but nothing further of importance happened.

The man who claimed to have lost his watch had not found it at last accounts, and what became of it is a mystery to those present, for the young man accused of taking it was certainly innocent, as he said he never had it in his possession at any time, and in addition expressed a perfect willingness to be searched by the proper officials.

Is This Plain Enough.

If you have a nagging cough and are losing flesh, go to a drug store, and get a bottle of Shiloh's Consumption cure. Take two-thirds of it, and then, if you are not benefited, return the bottle to the druggist, and he will return your money. Isn't that fair? No one could ask more. 25 cts., 50 cts. and $1 a bottle. Tallman & Co., leading druggists.

CORRECTS AN IMPRESSION.

John Marshall Was the Fourth Chief Justice of the United States.

Pendleton, Feb. 12.—To the Editor.—The observance of John Marshall day appears to have aroused a marked popular interest in the great names in our country's early history, but in the discussions which I have heard, especially among the young people, there seems to have resulted a misunderstanding as to what the Marshall celebration really signified, the impression in many cases being that he was the first chief justice of the republic.

The value of history is its accuracy, and in the interest of that I beg to ask the courtesy of your columns to state that the first chief justice was John Jay of New York, the second John Rutledge of South Carolina, the third Oliver Ellsworth of Connecticut and that Marshall was the fourth. Indeed he was the sixth appointee, because William Cushing of Massachusetts was appointed to succeed Rutledge and declined the honor and upon Ellsworth's resignation, President Adams offered the position to John Jay the same man who had once held the office. He declined and Marshall was then appointed. For thirty-four years he occupied the great office—a post in some respects more exalted and powerful than that of president,—and during those years the most of the great questions arising under the constitution were settled, and the character of the government under that instrument determined.

It was in recognition of the justice, wisdom and patriotism which characterized the legal opinions of the great chief justice the mighty part which he played as the head of one of the three branches of the government during its formative period, that the one hundredth anniversary of his assumption of the office was instituted and observed as John Marshall day.

Respectfully
STEPHEN A. LOWELL.

BUCHANAN-RITNER WEDDING.

Newly Married Couple Left Last Night for Goldendale, Washington.

The marriage of Miss Ethel R. Ritner and Rev. Jackson K. Buchanan occurred in Pendleton at 8:30 o'clock on Tuesday evening, February 12, at the home of the bride's parents, Mr. and Mrs. J. P. Ritner. The ceremony was performed by Rev. William H. Blakney, of the Pendleton academy. Miss Effie Frazier rendered the wedding march. Only the immediate relatives and a few friends were present. After the ceremonial a wedding supper was served. Rev. Buchanan was formerly pastor of the First Presbyterian church of this city and is now in charge at Goldendale, Wash. Miss Ritner has been employed in the public schools of Pendleton, and more recently in those of Portland. The newly married couple left on the train last night for Goldendale, where they will make their home.

WHEAT-CORN FOR FEED.

William Blair's Experiment at Weston Given Wide Publicity.

William Blair, mayor, merchant and miller, of Weston, was a visitor in Pendleton yesterday. He says he has about a bushel of Russian wheat-corn left from his crop of 1900, some of which he will sow this year. The rest of it will be disposed of to others to give them the privilege of experimenting with it themselves. He sowed a quarter of an acre of land last year with this peculiar grain, and got a big yield. He has received numerous inquiries concerning it from many places in the United States and British Columbia as a result of the notices received in the East Oregonian at harvest time last year. The grain promises to be raised extensively, as it yields from 70 to 125 bushels to the acre and makes an excellent feed for man and beast.

THE SPECULATOR FAVORED.

Captain Cheever, Government Horse Buyer, Doesn't Tote Fair.

Considerable indignation was aroused among the farmers and horsemen of Union county this week by what was alleged to be unfair discrimination on the part of Captain Cheever, who purchased 43 head of horses for cavalry and artillery purposes, says the La Grande Chronicle. About a month ago it was announced by the Portland press that the United States quartermaster at Vancouver wished to secure for the government 500 head of horses in Washington, Oregon and Idaho, and that he desired to buy direct from the farmers. This was the only notice that the farmers received, and they were at a loss to know when to submit their animals. It was observed, however, that the McDonald Bros., who had previously acted as agents for the government were busy collecting horses, and this led to the discovery that a selection would be made at Union last week. The speculators ran in 57 head, from which 39 were selected. The farmers discovering the "lay of the land" submitted only 23 head, and from these only four were selected, these four being the property of the man at whose stable the sale was held. Naturally the farmers are inclined to believe that the selection was determined largely by "pull."

ISSUED A BENCH WARRANT.

John Doyle Brought in Tuesday From Helix.

Deputy Sheriff T. D. Taylor went to Helix Tuesday forenoon and returned in the evening with John Doyle, who was placed in the county jail. Mr. Doyle was arrested last summer for selling liquor at Freewater in less quantities than one gallon. He had a government license only. He plead guilty and served 90 days in the county jail. Further information was filed against Mr. Doyle on August 13 and September 12, but it was not deemed necessary at that time to push the cases, as Mr. Doyle had given evidence of a contrite heart. Recent developments however, changed the appearance of things and two bench warrants were issued on February 7, upon the information previously filed. It is alleged that Mr. Doyle has been selling liquor at Helix in violation of any license of which he may be possessed.

NEW CURE FOR CONSUMPTION.

A Physician Claims Success in 90 Cases Out of 100.

Dr. George M. Barney, of Brooklyn, ex-president of the Long Island Medical Society, is the discoverer of an alleged new cure for consumption. He claims 90 per cent of recoveries under his system. Improvement is supposed to be brought about and felt by the patient within the period of one week. The doctor is quoted as follows:

"My treatment consists of introducing into the system a chemical or combination of chemicals. This combination thoroughly saturates the system, and by reason of its irrisistible power destroys the bacilli without injuring the tissue cells. It is administered in three ways, through the mouth, hypodermically and in vapor. When the vapor is used the patient inhales from three to fifteen minutes while seated in a specially equipped cabinet. Personally I prefer the vapor, as it goes deep into the lungs and reaches the diseased parts. To effect a cure all the way from 12 to 16 weeks of treatment, according to the resistance of the disease and the recuperating powers and conditions of the patient.
