WEDNESDAY, FEBRUARY 20, 1901.

THE AMENDED CITY CHARTER.

[PUBLISHED.]

Noting the owner of real estate within the limits of the city which will be affected by such assessment or tax, and upon which he actually pays a tax, and which property was assessed on the last assessment roll in the name of such owner, provided that such owner, having the same general and property qualifications as qualified voters of the city of Pendleton under the provisions of this act, may have the right to vote at any special election for the purpose of determining any assessment or tax affecting real estate only. No person shall be entitled to vote at any general election in the city of Pendleton who has not within said city registered his intention to vote at such election not less than sixty days prior to the date of such election, and it shall be the duty of the common council of the city of Pendleton to provide, and have kept in charge of the recorder or such other person or persons, to be known as registry clerks, as the city ordinance may determine, suitable books for the registry of electors required by this act, showing the name, age, occupation and residence within the city of each elector registering for the purpose of voting, and no person shall be permitted to register for the purpose of voting unless he shall first exhibit to the officer having charge of the registry books satisfactory proof by receipt or otherwise of the payment of his street poll tax for the year in which the next election is to be held, and no person shall be entitled to be allowed to vote except in the ward in which his residence is fixed.

Street Commissioner's Duties.

That section 11 of article 3 of the said act, which was approved on February 15, 1899, be amended so as to read as follows:

Section 11. It shall be the duty of the street commissioner to superintend all improvements of streets, alleys, sidewalks, and crosswalks of the city, and to see that all streets, alleys and crosswalks of the city are kept clean and free from obstructions; he shall superintend all public squares and other public works of the city, except in cases where the common council may determine otherwise; he shall do and perform all such other duties as may be required of him by this act, the ordinances and regulations of the city and the laws of this state.

The Council's Authority.

That section 2 of article 8 of the said act, which was approved February 15, 1899, be amended so as to read as follows:

Section 2. The common council has power and authority:

1. To employ, hire and discharge from time to time all such agents, workmen, laborers and servants as may be necessary in the conduct and management of said sewerage system.

2. To make all needed rules and regulations for the conduct and management of the same by the city and inhabitants thereof.

3. To establish rules for the use of said sewerage system, and of all sewers owned or controlled by the city or inhabitants thereof, and to prescribe the punishment for violating the same.

4. To compel owners of lots abutting on streets or alleys through which any sewer runs to make connections with the same.

5. To do any act or make any other regulations necessary and convenient for the conduct of its business and the due execution of the power and authority given by this act, and not contrary to law.

Rendering of Judgments.

That section 4 of article 9 of the said act, which was approved February 15, 1899, be amended so as to read as follows:

Section 4. There shall be entered in the said lien docket, in the manner hereinbefore provided, all judgments rendered by the circuit court of the

state of Oregon for Umatilla county, or by the supreme court of the said state, in matters of street assessments which may be brought before said courts, as soon thereafter as judgment shall be rendered, and all liens of the city for street or sidewalk improvements shall be entered in said docket by order or resolution of the council, as soon thereafter as the improvements for which the said city shall be entitled to a lien shall be commenced.

Foreclosure of Liens.

That section 5 of article 9 of the said act, which was approved on February 15, 1899, be amended so as to read as follows:

Section 5. The city of Pendleton may proceed to foreclose any lien to which it shall be entitled under this act at any time after thirty days after the same shall have been entered in the lien docket, as follows: It shall be the duty of the city attorney, at the direction of the council, to file with the recorder a complaint setting forth a description of the lien and the property in which or upon which the lien exists, and the fact that it has not been paid or satisfied, and the name of the owner or owners of the property against which said lien is docketed and their successors in interest, and persons having subsequent liens thereon. If any such complaint shall be verified in the manner in which a complaint in civil action is verified, it shall be the duty of the recorder thereupon to issue a citation to the owners of said property against which said lien is docketed, and their successors in interest, and said lien holders, if any, to appear before said recorder within ten days after the service of the citation, and show cause, if any, why said property should not be sold to satisfy said lien; and a copy of said complaint, and the citation shall be served upon the person or persons cited ten days before the time set for hearing, and may be served either in the same manner as a summons in a civil action is served or be deposited in the postoffice, addressed to the address of the person or persons to whom the same is directed, with postage fully prepaid; and upon the hearing the recorder shall, unless good cause is shown to the contrary, issue a warrant to the city marshal for the sale of the property mentioned in said complaint, and citation, for the satisfaction of said lien against the same and all costs, and thereupon it shall be the duty of the city marshal, on the said warrant, to advertise and sell said property in the manner provided by the laws of the state of Oregon for the sale of real estate on execution, to satisfy such lien and all costs, and to return such warrant with his doings and all moneys collected thereupon to the recorder of the city of Pendleton, whose duty it shall be to pay the same over to the city treasurer, and take his voucher therefor.

Waterworks and Levees.

That article 10 of said act, which was approved February 15, 1899, be amended so as to read as follows:

Section 1. The indebtedness of the city hereafter to be incurred shall never exceed the sum of \$10,000, except as otherwise provided in this charter; and the common council shall provide for a sinking fund to meet the payment of existing indebtedness of the city, and interest of levee and water bonds heretofore issued or hereafter to be issued.

Section 2. For the purpose of maintaining and extending the levee the common council may condemn to the use of the city, in such manner as may be prescribed by ordinance, so much land, stone, timber or other material within and beyond the limits of the city as may be necessary for the keeping of the same in repair or extending the same; it shall define the location and termini thereof; may employ such person or persons as it may deem fit; may make surveys or private property as may be necessary for the preliminary surveys and observations; may employ such superintendent of the work and all matters connected therewith as it may see fit, or let the same by contract in such manner as may be prescribed by ordinance.

Section 3. For the purpose of maintaining the existing waterworks and supplying the city and its cemeteries with water, the water commission herein provided for shall have power to erect and maintain works within and without the city limits, and may enter upon and condemn to the use of the city so much land within and beyond the limits of the city for the erection, maintenance and protection of such works as shall be necessary therefor or be adjacent to or drained by supply wells or subways and all land and water needed for reservoirs, springs, streams, trenches, pipes and drains as may be necessary or desirable to be used in connection therewith; and for the purpose of protecting the water from pollution the city shall have jurisdiction over the lands adjacent to or drained by any wells or subways used for supplying water, and any stream, which may be the source of supply above the point from which the water is taken. The water commission may employ such person or persons as it may deem fit to make surveys and estimates of such works, may enter upon private property for the purpose of making preliminary surveys and observations; may employ such superintendent of the construction of such works and all matters connected therewith as it may see fit, or may let the same by contract; may

control and regulate the works and the use of the water when such works have been established, and fix rates for the use of said water, and provide for the collection of the same.

Section 4. By the first day of April, 1901, or as soon thereafter as practicable there shall be selected by the common council five persons for the purpose of maintaining and conducting the water works of the city of Pendleton, who shall be styled individually "water commissioners," and collectively "the water commission," and are hereinafter referred to as "commissioners" and "the commission" respectively. And hereafter the power and authority heretofore vested in the city council shall be extended and maintained the water works shall be conferred on said commission by the provisions of this act. Members of the water commission shall not be entitled to receive any compensation for their services as such. They shall be residents of the city at least five years prior to their appointment or election, and shall be real estate owners in said city and own property of at least \$2000 assessed valuation in said city.

Section 5. The commissioners shall be selected by the common council in the first instance, for the several terms of two, four, six, eight and ten years, counting from January 1, 1902, and thereafter the commissioners shall be elected by the qualified voters of the city of Pendleton, one commissioner for the full term of ten years next thereafter. Should a vacancy arise from any cause, it shall be filled by the common council by appointment to hold until the first of January following the next general election. At the next general election the legal voters of the city shall elect a commissioner to fill out the remainder of the term.

Section 6. Three commissioners shall constitute a quorum for the transaction of business. The commission shall first meet at a time and place appointed by the council and organize by the selection of a chairman and clerk, and thereafter the commission shall meet in the city for the transaction of business, regular or special, at such time and place as it may provide, and otherwise, as often as it may be deemed necessary and convenient.

Section 7. When the commission is selected and organized as above provided, the council shall turn over to the water works to it and all property pertaining thereto including the water rents from January 1, 1901, less the operating expenses, together with all the books, papers and accounts relating to the construction and maintenance thereof and the commission shall thereupon take possession and charge of, manage, conduct and maintain the same, and in so doing it may alter, improve and extend such works from time to time and may purchase, erect or condemn other waterworks and property as the growth and needs of the city and convenience of the inhabitants thereof may in the commission's judgment require.

Section 8. All moneys collected or received by the commission for the use and consumption of water, or otherwise, shall be deposited with the treasurer of the city, who shall give such bonds as the commission may require, in addition to the bonds already required by the common council, who shall keep the same separate and apart from the other moneys of the city, and pay it out on the order of the chairman of the commission countersigned by the clerk thereof, and to the holder of any overdue interest coupon of the water bonds upon the presentation and surrender thereof and not otherwise.

Section 9. The commission has power and authority: (1) to employ, hire and discharge from time to time all such agents, workmen, laborers and servants as it may deem necessary and convenient in the conduct and management of said waterworks; (2) to make all necessary rules and regulations for the conduct and management of the same; (3) to establish rates for the use and consumption of the water by the inhabitants, as well as people living in the vicinity but without the city; and also for cemetery purposes; (4) to provide for the payment of water rates monthly and to shut off the water from any house, tenement or place for which the water rate is not duly paid, or when any rule or regulation is disregarded or disobeyed; (5) to provide for and require that all water consumers shall put in and furnish such water meters as the commission may designate, and the expense thereof shall be borne by said consumers; (6) to charge the city for fire hydrants, flushing sewers and other water used for cemetery and other municipal purposes, and the said city through the council is authorized and required to pay said commission the aforesaid charges for all water so used; (7) to do any other act or make any other regulations necessary and convenient for the conduct and management of the water works of the city, and the execution of its power and authority given by this act, and not contrary to law.

Section 10. All water rents shall be a charge upon and a lien against the real estate and the property on which the water is used, whether used by the owner, tenant or other persons, and such liens shall be docketed and foreclosed as provided for in other city laws.

Section 11. The commission shall have power and authority to issue water scrip to an amount not exceeding 50 per cent of the cost of any new work, either in extension or betterments of the water system, provided that the balance of the cost thereof is already on hand and applicable thereto; such scrip shall bear six per cent interest per annum, and the same is further provided that said water scrip outstanding shall not exceed \$900.

Section 12. The commission shall each year set aside not less than five per cent of the gross receipts of the water rents as a sinking fund, and such sinking fund shall be handled and held separately to be used in retiring the water bonds, heretofore issued, and at the maturity thereof, and shall have authority to purchase, at not to exceed par, with the sinking fund, any of such bonds as can at any time be so purchased.

Section 13. The commission shall annually before the first day of January make a written estimate of the probable expense of maintaining and conducting the water works during the ensuing year, and also the cost of any contemplated alterations, improvements or extension thereof, and thereupon ascertain and prepare, as nearly as it conveniently can, the water rate for such year which would insure a sufficient income from the sale of water to pay such expenses and costs, together with the sinking fund above provided for and one year's interest on the bonds heretofore issued and outstanding.

Section 14. The commission shall cause an annual statement in detail of its receipts and disbursements to be made and signed by its chairman and clerk and filed with the city recorder, who shall preserve the same among the files of his office, and he shall cause the same to be published in a daily paper of the city; and the commission

shall cause to be made, filed and published each year an inventory or statement of the property, implements and material in its possession or under its control pertaining to the waterworks, together with the condition and approximate value thereof.

Councilmen and Contracts. That section 5 of article 13 of the said act, which was approved February 15, 1899, be amended so as to read as follows:

Section 5. No member of the common council shall during his term of office be interested in any contract the expenses of which are to be paid out of the city treasury, and all jobs or contracts for constructing, repairing, improving or ornamenting any place or object in the city or out of the city, the expenses of which are to be paid out of the city treasury, and the probable cost of which will exceed \$100, shall be let out to the lowest responsible bidder, and done according to specifications furnished from the proper office or department of the city government, and which shall have been approved by the common council and made public at least ten days before the closing of the bids for such job or contract, provided the common council shall have the right to reject any and all bids.

It is Now the Law in Pendleton. Inasmuch as it is necessary that these amendments to the said act, which was approved February 15, 1899, should take effect as soon as possible, they shall take effect on and after their approval by the governor.

HAIR NATURALLY ABUNDANT.

When it is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair grows naturally and grows naturally luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and so far, the only hair preparation that will positively destroy that germ is Newbro's Hairdressing, absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It always itching instantly; makes hair glossy and soft as silk. "Destroy the germ, you remove the effect"—dandruff.

HEIR TO A FORTUNE.

Josef Mueller Left Tuesday Morning for Vienna, Austria.

Josef Mueller, well known in Pendleton, and in fact throughout the state of Oregon as a crack piano salesman, has fallen heir to a fortune and left Portland Tuesday morning to obtain it. Mr. Mueller is not only a salesman, but a singer and actor, and will be so gratified upon the sad death of a relative that leaves him with funds to burn. He can turn them, for he is as gay a gamster as ever "got out on a limb" or made a roulette dealer's heart stop beating by his big bets. Mr. Mueller will go to Vienna, the capital of Austria, to obtain his legacy and it is stated that after his return he will connect himself with the San Francisco branch of The Wiley B. Allen company.

Acker's English remedy will stop a cough at any time, and will cure the worst cold in twelve hours, or money refunded. 25c. and 50c. For sale by Brock & McCouan.

For 50 Years

mothers have been giving their children for croup, coughs and colds

HELIX BAND TO THE FRONT.

A Concert Given Last Sunday Was Heard at Pendleton and Walla Walla.

The Helix brass band held a practice meeting on the veranda of Huson's new hall at 2 o'clock last Sunday afternoon. They had been playing but a short while when Charles Huson, the leader, was asked by Doctor Griswold if he had any objection to waiting a minute or two while he made telephonic connection with the Walker farm, a few miles out of the city. Charles replied that he had none, the music waited, and the connections were made. Horace Walker, one of the Umatilla county commissioners was at home sick with the smallpox, and enjoyed the concert.

Over a Wire Fence.

The sounds were transmitted not over the regular telephone wire of any grasping monopolistic octopus with wire tentacles hundreds of miles long, but instead made the trip by way of the wire fence alongside the road. Doctor Griswold had put in the transmitter in his office and connected it with a short wire to the wire fence aforesaid. A receiver had been placed in position at the Walker farm, and it likewise had been connected with the fence. Just about this time Cap Inance asked to have Pendleton and Walla Walla connected by regular telephone wire, and it was done.

Walla Walla Listened.

The band had only played a short while until the Pendleton central girl wanted to let Walla Walla listen to the music and that was done likewise. Mr. Huson was blowing the base drum in the band and forgetting himself of the fact that his daughter and son-in-law, Mr. and Mrs. Charles Harris lived at Walla Walla and had a telephone at their residence. Walla Walla central was asked to switch on the Harris residence, and it was done. Mr. and Mrs. Harris were both at home, and they called in a number of friends who chanced to be passing, so that a large company enjoyed the music and speculated upon the location of Helix, for the fame of the hamlet had not spread to the garden city to any great extent. They in addition marveled greatly when they listened to the music and wondered how such a small place could get such an aggregation of musicians together. After the concert Walla Walla, Walla Walla and Pendleton sent in to the thanks for the pleasure, and were answered at Helix on behalf of the band by Miss Inance, "hello" girl in the telephone office there.

The day we Celebrate

is not far distant. The "father of his country" will be toasted from one end of the country to the other. Not a little of our WINE and LIQUORS will be consumed on this occasion. The fine quality of these goods, the flavor, mildness, etc., make them especially adapted for hospitality.
