THE NEW SCHOOL LAW.

Directors Can Not Be Elected Teachers Without a Full Vote.

The new general school law contains some provisions intended to guard the public school system against nepotism and other kindred abuses. One of these provisions is found in section 48 which relates to the duties of directors. Subdivision 7 of this section provides, among other things, that "no contract shall be made with any teacher who is related by blood or marriage within the third degree to any member of the school board without the concurrence of all the members of the board, by a vote duly entered on the board's records of proceedings."

Since it requires unanimous consent of the board to employ a near relative of a member as teacher, there is small chance that an incompetent person will be employed because of the relationship.

Subdivision 19, of the same section, provides: "It shall be illegal for any director, either directly or indirectly, to have any pecuniary interest in the erection of schoolhouses, or for the warming, ventilating, furnishing or repairing the same, or to receive or accept any compensation for his services rendered as a member of the board."

The spirit of this provision is in a measure defeated by its enumeration of special contracts. If the prohibition had been in general terms, forbidding a director to have any interest, directly or indirectly, in any contract made by or for the district of which he is a director, the desired end would have been accomplished. As it is, there is room for directors to profit by many contracts that may be made on behalf of the district. The spirit of the law is evident, however, the new measure will probably have a beneficial effect. The new school law, which does not take effect until May 2, contains one glaring defect, which may possibly give some trouble. Section 41 provides, among other things, that "the fiscal school year shall begin on the third Monday of June and end on the last day of June." This would make the school year either about 10 days or a year and 10 days long. It is evident that it was the first intent to have the school year begin on July 1 and end on the last day of June. As only 1 would sometimes fall on Sunday, the bill was changed to make the year begin on the third Monday in June and it was intended to make it close on the day preceding, but by some oversight this latter change was not made. The annual school meeting hereafter will be held on the third Monday in June, so it is to be presumed that the accounts of school officers will be opened and closed accordingly.

$100 Dollars Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address,

F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

SCHOOL BOARD ORGANIZATION.

Judge Fee Was Elected as President, All Members Being Present.

The new board of school directors held its first meeting in Judge Fee's office, Judd block, at 7:30 o'clock on Tuesday evening, March 12. Jesse Failing called the meeting to order, he being the president of the old board, Judge James A. Fee and Dr. C. J. Smith the holdover directors. They canvassed the vote and declared that W. M. Pierce, Jesse Failing and C. S. Jackson had been elected as directors, as was published Tuesday. Miss Belle Bishop was elected by the board to serve as school clerk for one year, to succeed her mother, Mrs. Lana Bishop.

According to the votes cast, W. M. Pierce, having received the greatest number, will serve for five years; Jesse Failing for four years; C. S. Jackson for three years.

TO CURE DANDRUFF.

It is Necessary That the Dandruff Germ Be Eradicated.

"Destroy the cause, you remove the effect." Kill the germ that causes dandruff, falling hair and baldness, you will have no more dandruff and your hair must grow luxuriantly. Herpicide not only contains the dandruff germ destroyer, but it is also a most delightful hair dressing for regular toilet use. No other hair preparation is on this scientific basis of destroying the dandruff germ, and none other claims to be, for the simple reason that it is only recently that a destroyer of the germ has been discovered—Newbro's Herpicide, the only hair preparation that actually kills dandruff.

Trust Those Who Have Tried.

I suffered from catarrh of the worst kind and never hoped for cure, but Ely's Cream Balm seems to do even that.—Oscar Ostrom, 45 Warren Ave., Chicago, Ill.

I suffered from catarrh; it got so bad I could not work; used Ely's Cream Balm and am entirely well.—A. C. Clarke, 341 Shawmut Ave., Boston, Mass.

The Balm does not irritate or cause sneezing. Sold by druggists at 50 cents, or mailed by Ely Brothers, 56 Warren St., New York.

School District No. 55.

G. W. Maybee, teacher of the school in district No. 55, near Weston, was a visitor in Pendleton on Tuesday and left for his home this morning. He states that it became necessary to close his school on account of the prevalence of smallpox, and that there is not much reason for believing that the school will be reopened before next fall. It is the same kind of mild smallpox that has been at Pendleton, Pilot Rock, Walla Walla, and elsewhere through this section, but still of such character that people don't like to have it in the family.

Worse Than War.

Hundreds are killed in war, but hundreds of thousands are killed by consumption. There would be no deaths at all caused by this terrible disease, if people could be made to understand that Shiloh's cough and consumption cure is a sure remedy if taken in the early stages. 25 cts., 50 cts. and $1 a bottle. Druggists will refund the money if a cure is not effected. Tallman & Co., leading druggists.

Free Delivery at Freewater.

A rural free delivery route has been established at Freewater, to commence April 1. The route runs entirely to the north of the office, with two carriers, William B. and James O. Clements. This case has been suspended for several months because of the rival claim of Milton, which was recommended by two department inspectors.

She Didn't Wear a Mask

But her beauty was completely hidden by sores, blotches and pimples till she used Bucklen's Arnica Salve. Then they vanished as will all eruptions, fever sores, boils, ulcers, carbuncles and felons from its use. Infallible for cuts, corns, burns, scalds and piles. Cure guaranteed. 25c at Tallman & Co.

Frank Stamm, a young man of Butte, is missing and no efforts by the authorities of the Montana mining city avail to locate him. He left Butte, presumably for Spokane, a year and a half ago. The missing man is single, 25 years old, has dark eyes and pale complexion and is nearly six feet tall. He has a brother, Albert Stamm, in the jewelry business at Dillon, Mont., who seeks information concerning him.

OF INTEREST TO SHEEPMEN.

Report of Specialists on Poisonous Plants.

During the closing hours of the session of congress a resolution was passed by the house, at the request of Representative Moody, of Oregon, authorizing the printing of 10,000 copies of a report upon an investigation made by specialists of the department of agriculture of plants poisonous to stock in Montana. This report is of inestimable value to the sheepmen of Montana and other Western states, containing as it does minute descriptions of the various poisonous plants, with remedies in each instance. More than half the plants common to Mantana are found on the ranges of Oregon, and to this extent the document will be very valuable to Oregon sheepmen.

For years the sheepmen of the entire West have been perplexed at the heavy losses of sheep from plant-poisoning. In many instances the deadly plants have been located, but remedies have not been found. The department expended considerable money in practical field experiments during the past season, and as a result has discovered cheap but successful antidotes for most of the poisons existing in the wild forage plants of Montana.

Secretary Wilson, of the department of agriculture, says that his report, if it can be placed promptly in the hands of stockmen of the Western states, will enable them to prevent losses aggregating hundreds of thousands of dollars annually. He feels that unless an adequate edition of this document can be had, that the work of the department will be practically wasted. It was with a view of having an ample supply of the report printed for distribution at the opening of the approaching season that Mr. Moody urged prompt action upon the senate resolution authorizing this large edition.

The report was prepared by Messrs. Chestnut and Wilcox, who discovered, out of 60 plants examined, six that were poisonous to stock. The report will be profusely illustrated, so that breeders may more readily locate the dangerous plants. Accompanying the description of each plant and the symptoms of the resulting poisoning are explicit directions for the application of the remedy referred to (permanganate of potash generally answering all purposes), a remedy which can be easily carried by the herder, and as easily administered. General recommendations are given for the avoidance of the poisonous species by proper handling of stock on the range. Losses amounting to about $25,000 came under the actual observation of Mr. Wilcox within a period of 2½ months, and of these losses he estimated that more than four-fifths were preventable. The total preventable losses of stock by plant-poisoning in Montana alone for the past year was estimated to reach from $75,000 to $100,000.

In view of these facts, sheepmen will readily recognize the importance of securing this document and having it constantly with them until they have learned to identify the dangerous plants and understand the treatment. The report will be printed as "Senate document No. 160, 56th congress, second session," by which title application should be made to representative or senator in whose district the sheepowners, herders and others may reside.

HONORS ARE NOW EASY.

Deputy Sheriff Til Taylor the Victim of a Practical Joke.

At the time and following the getting away of John Doyle from the county jail, Deputy Sheriffs Joe Blakley and Til D. Taylor have been having more or less amusement at the expense of Deputy Sheriff C. P. Davis. Mr. Doyle was allowed to go down town by permission of Deputy Davis, so the others have been referring to that event jocularly on several occasions. Mr. Doyle was quite lame, so every once in a while Deputy Sheriff Taylor would walk lame and thus pleasantly recall the missing prisoner. That joke was on Mr. Davis.

Next came the trip to Gibbon of Deputy Sheriff Joe Blakley, Coroner Cole, and Joseph B. McDill, superintendent of the county hospital, after a corpse, which proved to be a wild goose chase. That joke was on Deputy Sheriff Blakley.

Deputy Sheriff Taylor had thus far escaped anything and everything of that nature and was enjoying the sunny side of life. It is a long lane that has no turn. And Taylor's turn came Tuesday forenoon. He had gone into the jail part of the court house at 10 o'clock on business, where Columbia George, Tua-Tua and John Fitzgerald were. That settled it as far as his liberty was concerned for an hour. Deputy Sheriff Blakley closed the door and turned the key. Deputy Sheriff Taylor limped around after the manner of Mr. Doyle and wanted Deputy Sheriff Davis to let him go down town to transact some business, as had Mr. Doyle, but Deputy Davis had learned by experience and remained obdurate. Then Til told Deputy Blakley that he had received a telegram from Gibbon to come up at once and bring a coffin, as a dead man had been found. Mr. Blakley said he would have to have more evidence than a telegram—he would have to see the corpse first. After parleying around for almost an hour, the deputies on the outside thought that they had had sufficient revenge and let the prisoner out, provided he would do the honors with cigars, etc., and would never again refer to the Doyle escape or the Gibbon hoax.

EXPERIMENTING IN GRASS.

O. R. & N. Co. Has Seeded 40 Acres in Morrow County.

A whole section of land upon which to experiment with grasses has been purchased by the O. R. & N. in Morrow county, four miles east of Castle Rock, and 40 acres have already been seeded to bunchgrass, brome grass and Turkestan clover. C. L. Smith, a well known expert on farming and livestock, returned to Portland Monday from Eastern Oregon, says the Oregonian. He has been superintending the preparation of the ground and planting of the seed, and feels confident of satisfactory results. The whole section, containing 640 acres, he said, will be fenced with a rabbit-proof wire network, and all the grasses will thus be protected while growing. Disk harrows are used to prepare the light, alluvial soil for the seed, and ordinary harrows afterward finish the work. "By next fall, we will know just what grasses succeed best in the arid region along the south side of the Columbia river," he said, "and this knowledge will be of immense benefit to the stock interests of the eastern portion of the state.

"The bunchgrass seed was raised on the company's farm, near Walla Walla, and as this is the natural grass of that region, there is no question about its bountiful yield, even where the rainfall is not sufficient to mature a crop of wheat. Bunchgrass grew to perfection all over the section now blown up into sand dunes and grown up with sagebrush, but years of overstocking and the trampling of hordes of sheep, cattle and horses have long since killed it out. It will take time, expense and protection to grow full crops of grass over this level stretch of country, but it will pay well in the end, by the increased number of stock supported.

"The Turkestan clover resembles alfalfa, and thrives well in North Central Asia, where the soil and climate strongly resemble that of Eastern Oregon. The general government seeded 40 acres to this grass near North Yakima, Wash., last year, and the yield was very satisfactory.

"Brome grass is a good deal like Kentucky blue grass, and produces well on light soil, where rain enough falls to enable wheat heads to fill. Whether it will do so well where the rain and snowfall are not sufficient to mature wheat, is an experiment."

E. P. DODD WON HIS CASE.

The Union Mutual Aid Society Will Have to Pay.

The case of E. P. Dodd vs. The Union Mutual Aid Society of, Portland, at the conclusion of the taking of the testimony on Monday in Justice Fits Gerald's court, was taken under advisement by the judges. The decision was handed down on Tuesday afternoon. It was a judgment in favor of the plaintiff for $90, the sum sued for, and costs and attorney's fees. The decision was a complete victory for the plaintiff, who was represented by J. J. Balleray, as attorney. Several other similar suits have been instituted against the same society. It has many members in Pendleton, many of whom have been sick since taking out this insurance, which has entailed a heavy loss on the corporation. Ralston Cox, the secretary, returned to his home at Portland Monday night.

Is This Plain Enough.

If you have a nagging cough and are losing flesh, go to a drug store, and get a bottle of Shiloh's Consumption cure. Take two-thirds of it, and then, if you are not benefited, return the bottle to the druggist, and he will return your money. Isn't that fair? No one could ask more. 25 cts., 50 cts. and $1 a bottle. Tallman & Co., leading druggists.

A TRIP TO CALIFORNIA.

Mrs. C. C. Van Orsdall and Miss Belle Bishop Will Leave Tonight.

Mrs. Carrie C. Van Orsdall, grand guardian of the Pacific Circle, Women of Woodcraft, will leave for California tonight, accompanied by Miss Belle Bishop, her private secretary. The trip is a tour of inspection of the circles of California. There are 48 circles in that state, and 40 of them will be visited on this trip by the grand guardian. It will be impossible to visit the other eight at this time, as they are remote from the main line of travel and to get to them would consume too much time. Even as mapped out Mrs. Van Orsdall's itinerary is one that will keep her busy day and night for six weeks. The last circle will be visited on April 29, and the travelers expect to arrive home at Pendleton on May 2.

Five Things.

The five diseases for which Shiloh's Consumption Cure is especially recommended, are Coughs, Colds, Whooping Cough, Croup and Consumption. No medicine ever made by man is equal to it in any respect. Sold under a positive guarantee. Money back if it fails. 25 cts, 50 cts and $1 a bottle. Tallman & Co.

After 21 Years.

An interesting incident occurred in the life of John A. Smith, a pioneer of Eastern Oregon, when by accident he met a son that he had not heard from for 21 years, Henry Smith, at Baker City a few days ago. Mr. Smith was separated from his wife over 21 years ago and his son Henry, being but two years old, was taken to Colorado by his mother, and since that time nothing had been heard of him. His father noticed a family resemblance as his unknown son passed him on the street. Later in the day the facts became known and two hearts were made glad after 21 years of separation.

Arthur Vannoy, manager of J. B. Griswold's branch store at Sumpter, is missing with $300 of his employer's money.

For 50 Years

mothers have been giving their children for croup, coughs and colds

Shiloh's Consumption Cure

Mothers—have *you* SHILOH in the house at all times? Do you know just where you can find it if you need it quickly—if your little one is gasping and choking with croup? If you haven't it get a bottle. It will save your child's life.

"Shiloh always cured my baby of croup, coughs and colds. I would not be without it."
MRS. J. B. MARTIN, Huntsville, Ala.

Shiloh's Consumption Cure is sold by all druggists at 25c, 50c, $1.00 a bottle. A printed guarantee goes with every bottle. If you are not satisfied go to your druggist and get your money back.

Write for illustrated book on consumption. Sent without cost to you. S. C. Wells & Co., LeRoy, N.Y.

SEEKING AFTER NEW HOMES.

Hundreds of Immigrants Pass Through Pendleton Every Week.

The passenger traffic on the O. R. & N. railroad during the past month has been enormous. The trains passing through Pendleton have been crowded with homeseekers looking after suitable locations. About 75 per cent keep on going to the Willamette valley and the other 25 per cent go north into Washington. Some of the questions asked by the passengers when they get off at the depot for a few minutes, to look around while the train waits to transfer passengers and bagagge to the Spokane branch line, are amusing. They show that they have no idea of the natural resources of this Inland empire any more than a chipmunk would have. Not so much, in fact.

What effect would it have on this county and community if 500 good families from the central states were to come here, buy land and go to farming and raising stock? Would it be a benefit or a detriment? It has been suggested by a business man of this city that advertising the resources of Umatilla county so that the immigrants could take advantage thereof, would have the effect of causing many of them stop and become identified with the county. To do this properly it would be necessary to have suitable data prepared and printed in great quantities and placed on the westbound trains at Huntington, or even as far east as Pocatello, Idaho.

Many who have land to sell have been overlooking the fact that purchasers come from abroad. Free advertising by word of mouth at the depot is not effective. It does not come at the right time. By the time he gets to Pendleton his mental gaze is fixed on green valleys far away. He knows nothing of the possibilities of Umatilla county land for raising wheat, or of its adaptability for raising cattle, sheep, horses and hogs. They who have something to sell might take advantage of the tip here given, to advertise it, but it is history that they will be last ones to do it.

He Lost $10,000.

A. Smyth, one of the most prominent sheepdealers in Eastern Oregon, whose home is in Arlington, returned recently from St. Paul. Mr. Smyth put on the market at Chicago 25,000 head of sheep which he wintered in Colorado. Owing to the extremely stagnant market, and the high price of feed, he suffered a loss of more than $10,000. It was another severe blow such as he suffered two years ago under similar circumstances.

Old Soldier's Experience.

M. M. Austin, a civil war veteran, of Winchester, Ind., writes: "My wife was sick a long time in spite of good doctor's treatment, but was wholly cured by Dr. King's New Life Pills, which worked wonders for her health." They always do. Try them. Only 25c at Tallman & Co.'s drug store.

Family Orders

receive the attention their importance deserves. We have a very fine line of Wines and Liquors for table and medicinal use and are confident of our ability to supply them at the lowest prices. We carry a large selection of Sweet and Dry Wines and many popular brands of Kentucky Whiskeys and Imported and Domestic Brandies.
