EACH NATION BLAMES THE OTHER
Russia Says England Was Too Precipitate, While England Charges That Russia Intrigued With China.
London, March 21.—Official announcement that the Russo-British dispute has been settled was made today by Lord Lansdowne. Russia and England have agreed to withdraw their troops from the disputed territory to Tien Tsin, and reserve the question as to who has the right title to the land for a subsequent examination.
What Caused the Quarrel.
Lord Lansdowne said that the Tien Tsin dispute had reference to a somewhat extensive area on the left side of the Pei Ho river, which was occupied last autumn by the Russian troops who claimed that it belonged to them by right of "private conquest." Subsequently, the English government was informed that Russia had entered into an agreement with China under which this area was to be vested under Russian occupation. It comprised plots of land held to belong to the North China railroad company which formed a part of the security in which many British bondholders are interested.

RUSSIA BLAMES ENGLAND.

Says They Were Too Rash in Trying to Settle a Disputed Question.
St. Petersburg, March 21.—A semi-official note was issued today which says:
"A commonplace incident has been terribly exaggerated by the British press until it has almost assumed the gravity of a casus belli. It was entirely due to the forceful manner in which the British tried to obtain possession of some disputed land that the Russian government found it necessary to take energetic action. The matter is manifestly a question for diplomatic treatment, and the Russian government has no doubt that it will be amicably settled between London and St. Petersburg."
British Outposts Called In.
Tien Tsin, March 21.—The situation is unchanged this morning, excepting that the British outposts have been called in.
COMMANDANT BOTH A DIES.
Brother of the General Killed in Battle—His Two Sons Were Wounded.

The Boers besieged the British garrison at Vrede, in the extreme northeast of the Orange Free State. General Campbell, with a considerable force, went to the relief, but was obliged to retreat, after evacuating Vrede with two hundred sick and wounded.

GLUTTONY

Is more common than we may think. If we define gluttony as eating beyond the body's need of sustenance and beyond the stomach's capacity for digestion and assimilation of food. That is a fair definition, and it fastens the name gluttony on many a person who would resent the term as an insult. The fact of this gluttony is marked by its consequences. The overloaded stomach becomes diseased. The popular term for the condition is "weak" stomach. The "weak" stomach fails in furnishing adequate nutrition for the body, and soon the "weakness" spreads from the stomach to other organs.
Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect assimilation of food, by which alone the health and strength of the body is maintained.
"Your medicine helped me so much that I cannot praise it too highly," writes Mrs. C. L. Brooks of Poland, Androscoggin Co. Me. "The first dose I took helped me. I cannot forget how I felt when I took it; I was suffering everything with indigestion and my stomach was so bloated that it seemed as though it most burst. My husband said he was going for the doctor, but I said if we would get me a bottle of the 'Golden Medical Discovery' I would try that. I had not taken it long when I felt relieved, and have not had a touch of indigestion or stomach trouble since. I had been sick for four years, and I had four bottles cured me. Some people that knew me before I began to take the 'Golden Medical Discovery' tell me that they never saw such a change in any one, and they also say they don't see how I can do such large washings as I do now, when I had not done a washing for so long."

CUBA WILL DEMAND INDEPENDENCE NOW.

But Will Consent Later to Altered Conditions.
BURTON AND DOVENOR COME HOME
With a Report for the President—Intelligent Classes Pleased With Platt Amendment. The Masses Are Thoughtless.
Washington, March 21.—Representatives Burton, of Ohio, and Dovenor, of West Virginia, returned here today, after a visit to the Florida coast and Cuba, and reported to the president their views of the situation in the island. Mr. Burton says that, notwithstanding the Americans have done a great deal for Cuba, the sentiment there for independence is strong. The vast majority do not give government or politics any thought. They do not care. He believed the Cubans must be given at least a period of independence, in order to preserve their friendly attitude towards the United States.
Mr. Dovenor felt certain that the Cubans will eventually accept the terms of the Platt amendment, as the conditions named in the bill please the people of intelligence, wealth and influence.

Major Harris, of Portland, division secretary of the Salvation Army will perform the ceremony. An admission of 25 cents will be charged for reserved seats; general admission 10 cents.
