### FOUND A GUN CONCEALED.

Thompson, of Briggson, fined and sent to jail.  
A gun was found concealed in the home of Thompson, of Briggson, on Friday morning by City Marshal McLaughlin, on a charge of carrying a concealed weapon. The gun was found in a box in the room of the young man had a .45-caliber Colt. Being taken to Justice J. W. Smith, he pleaded guilty to the charge, but claimed that he had carried the gun for the past 15 years he had been in the habit of carrying a revolver for protection from bears while riding in the mountains. In answer to the question "Did you ever have use for a gun to protect yourself from bodily injury?" he answered, "No." The judge fined him \$25 or to be committed to the county jail for twelve months.

### Ornamental Hedges.

A large number of hedges were in the city yesterday to receive their winter dress. These plants were brought from Troy, Ohio, and it is claimed that they make a very pretty and durable hedge. If this experience is successful, we will soon see substantial farm homes endorsed with ornamental hedges, instead of the unsightly barb wire fences now mar an otherwise perfect landscape.

### Mr. J. M. Craig went to Weston.

Mr. J. M. Craig went to Weston yesterday morning to visit relatives. He came to town this morning with an old gentleman by the name of Jones, living about two miles east of Weston in a critical condition. The old man had not been called, as he was not of the faith church sect, and would not allow a physician to attend him.

### For Nearly Two Years

unable to Lay in Bed

In my capacity as druggist, in Buffalo, N. Y., I have the best opportunity of the merits of many different remedies. I am in close touch with the people who come into my store for medicines, and most of them tell me how they are getting along. Of all the hundreds of preparations which I sell, a single one begins to give me satisfaction as Acker's Eng-lish Remedy for Coughs, Colds, Whooping Cough, Asthma, Pleurisy and Bronchitis. I sell it on a guarantee that it will cure, and the purchaser's money will be refunded. This is a perfectly safe guarantee, because the remedy cures. Nobody wants his money returned. Its cures are so short of marvelous. Take the case of Mr. A. H. Gilbert, for instance. He lives at No. 5 Carey street, Buffalo, N. Y. For more than three years he had a bad case of asthma, and had been unable to lie in bed for nearly three years. He came to my store and asked me what to do. I said: "Buy Acker's English Remedy." He had tried other remedies, but didn't think this would cure him. But he thinks differently now. Three bottles fixed his asthma all right. He could sleep and eat, and as well as when a boy. He was cured several months ago, and he will go further than me in praising himself, if you doubt my word. He will go further than me in praising himself, if you doubt my word. (Signed) S. B. THOMAS, druggist, Buffalo, N. Y., Acker's English Remedy.

Id at 25c., 50c. and \$1 a bottle, throughout the United States and Canada; England, at 1s. 6d., 3s. 6d., and 6d. If you are not satisfied after buying the bottle to your druggist, and get your money back.

We warrant the above guarantee. W. H. HOOKER & CO., Proprietors, New York.

We warrant the above guarantee.

### Racket store. Mr. Bagley, proprietor of the Racket store, has just completed moving his stock to the store building vacated by Ed Manasse.

Pinkerton & Froome are preparing to build some new sheds to accommodate their ever growing livery business.

### From the Athena Press.

The Press regrets to announce the death in Portland last week of Arthur Bergovin, son of Mr. and Mrs. Charles Bergovin. Arthur had many warm friends in Athena, and was an exceptionally bright and industrious young man. The sympathy of the friends and acquaintances here is extended to the parents in their sad hours of sorrow.

James Mosgrove, wife and daughter returned Saturday. Mr. Mosgrove spent several weeks in Ireland, and brought back with him several shamrock plants, and canes for numerous friends. Mrs. Mosgrove and daughter visited relatives in Pennsylvania while Mr. Mosgrove was across the Atlantic.

Mayor Wilkinson and wife returned Sunday from a week's visit in Lewiston. They were the guests of Mr. and Mrs. Clyde Beach of that city. Mr. Wilkinson speaks flatteringly of Lewiston and her future prospects.

Nate Pinkerton and Jinks Taylor returned from Walla Walla Wednesday evening. While over there they sold to the government 60 head of horses for cavalry purposes.

### Thousands Sent into Exile.

Every year a large number of poor sufferers whose lungs are sore and racked with coughs are urged to go to another climate. But this is costly and not always sure. Don't be an exile when Dr. King's New Discovery for consumption will cure you at home. It's the most infallible medicine for coughs, colds and all throat and lung diseases on earth. The first dose brings relief. Astounding cures result from persistent use. Trial bottles free at Tallman & Co. Price 50c and \$1. Every bottle guaranteed.

### CARRIED SAWED-OFF GUNS.

Reference to Early Days When Indians Were Hostile.

The Athena Press gives a graphic account of the celebration of Tom Page's 60th birthday, remarks the dapper cartoonist. And that reminds Eastern Oregon pioneers that Mr. Page used to do daring deeds in early days. Hundreds of times he has ridden on the stage between Canyon City and The Dalles, with a sawed off shotgun in his hands, watching for hostiles and highway robbers, while Tom Morgan, now of Heppner, held the lines with a steady hand. Those were dangerous days, and there were big bags of gold dust in the boot.

Both of these pioneer pathfinders are still young and active, and after all the frontier hardships they went through are entitled to all the joys of life.

### Some Mountain Toughs.

Bragadoelo Youths at Briggson Disturb a Meeting.

Complaint came in last evening from the neighborhood of Briggson, on Wild Horse mountain, of the efforts of embryo desperadoes there to terrorize public meetings, says the Weston Leader.

It seems that Prof. Twomey, a phonologist, attempted to lecture at Fairview school house, and his discourse was interfered with by a gang of young toughs who threw rocks at the building, shot in the air, and otherwise proceeded to convey the idea that they were training for the profession of train wrecking and bank robbing. After the meeting they endeavored to make night hideous with yells of derision, and by reckless shooting, as the people left the school house. They threatened to lasso the lecturer, and a respectable mountain citizen to whom they objected, and dragged them down the mountain. This ambitious project was not carried into effect, however; probably through wholesome fear that the respectable prospective victims might take a hand in the game.

These matters were reported in the justice court at Weston, and it was also stated that similar trouble has been caused before on the part of young cubs with a penchant for mischief. No action has yet been taken, but if the mountain fire-eaters do not subside it is probable that the law will be invoked.

### Several Wheat Sales.

Several Weston farmers who had been holding their wheat for 45 cents took advantage of Saturday's bulge to reach their expectations. J. H. Price, agent of the Western Warehouse Co., bought about 8000 bushels Saturday at 45c, comprising the following lots: Henry Stamper, 3088 bushels; James Ritchey, 2410 bushels; Frank Green, 1472 bushels; William Gould, 225 bushels.

Several big lots are still unsold in this neighborhood. Baddeley & Hartman and T. J. Price & Sons being the principal holders, but the bulk of Weston's product has now been shipped.

### Hundred Year Clubs.

Are becoming numerous. The idea is to promote longevity. It is interesting to note that the means through which long life is to be obtained, is food and the stomach. Long life and good health are not possible unless the stomach does its work properly. There is a way to make it, if it does not. Hostetter's Stomach Bitters is an ideal strength restorer. If you would be cured of dyspepsia, indigestion, belching, constipation, insomnia, nervousness, biliousness, try the Bitters. Everybody should try it at this time to help nature rid the blood of winter impurities. It's a specific for malaria. See that our private revenue stamp covers the neck of the bottle.

### HOUSE BURNED DOWN.

Residence of James Neil Destroyed by Fire Friday Evening.

A fire on Friday evening destroyed the residence of Mr. and Mrs. James Neil, a quarter of a mile southeast of Wade Hill. San Neil, son of the above mentioned, had been in his room and had a lighted lamp on the dresser when he went out at 7 o'clock. A few minutes thereafter Mrs. Neil heard the lamp explode and the fire made such rapid progress that the building and all the furniture were destroyed with the exception of three chairs and one drawer and its contents from a bureau. The distance from the city and absence of connection with the water system assured absolute destruction of the building after the fire had once attained good headway. The building was insured for \$200.

### He Kept His Leg.

Twelve years ago J. W. Sullivan, of Hartford, Conn., scratched his leg with a rusty wire. Inflammation and blood poisoning set in. For two years he suffered intensely. Then the best doctors urged amputation, "but," he writes, "I used one bottle of Electric Bitters and 1½ boxes of Bucklen's Java Salve and my leg healed and well as ever." For eruptions, eczema, tetter, salt rheum, sores and all blood disorders Electric Bitters has no rival on earth. Try them. Tallman & Co. will guarantee satisfaction or refund money. Only 50 cents.

### Wool Season Will Be Good.

Pendleton is to handle more clips than last year.

Eastern holders of wool are letting go, indicating loosening of the Tight Market Conditions.

In one respect, at least, the local wool prospects are brighter than they were a year ago, and the amount of wool to be handled this season will certainly be larger than that handled during the past twelve months. One reason for the increase is that there are more sheep in this county, as well as in the counties tributary to Pendleton, than there were a year ago.

The report of Stock Inspector Bean, made at the beginning of the year, showed that there are 100,000 more sheep in Umatilla county than were reported by the stock inspector in January, 1900. The same increase, or near to it, is found in other localities.

Weather conditions have been fairly good, and the crop of wool will be up to the standard.

Sheep owners are being bothered in finding sufficient range for their larger flocks, it is true, and, if the market for sheep improves, so as to afford them what they think the sheep are worth, sales will be heavy. The independent position of the sheep men is due to the fact that the majority of them are able to hold for an indefinite length of time. Only shortage of range could compel them to dispose of their sheep against their inclinations.

The Eastern quotations are anxiously watched, in the hope that prices will show up better by the time the 1901 crop comes on the market.

### Wool Fibre Will Be Excellent.

W. J. Furnish stated today that Umatilla county will shear close to two million pounds of wool this year, or something like, half a million more than was shorn in 1900.

"It will also," said Mr. Furnish, "be a very good fibre. Sheep have come through the winter in excellent condition. I am of the opinion that wool will open the buying season at from 8 to 12 cents a pound here, which is about a couple of cents below last year's prices. Sheep, too, will drop off from 1900 prices from 50 to 75 cents. Most buyers lost money on their 1900 purchases for shipment east, and they are chary of repeating the experience. Few buyers have been here, and demand has been light. The larger number of sheep in the country than in 1900 and comparative scarcity of feed will tend to force down the figures somewhat. I estimate the amount of 1900 wool on hand yet at about 500,000 pounds."

### Sheep Notes.

Nearly all the sheep men will have plenty of hay left over this winter, says the Grant County News. Those engaged in this industry have grown wise during the past several years, and consequently the loss of stock has been reduced to a minimum. In days gone by but little hay was put up for the winter, and when a hard storm dropped in the loss of stock was appalling. Things are different now.

### WANTED.

Dug Eleven Wells.

San Endcott has returned from the Prospect country, where he has dug 11 wells during the past winter and got water in almost all of them. He will leave on Monday for the Juniper country 18 or 20 miles north of Pendleton to dig wells for Mr. Creswell and others. Mr. Endcott locates water deep in the ground by means of a peacock with, and can give a scientific reason for the movements of the limb of the peacock when in his hands.
