WANT A BASEBALL MANAGER

SUCH AN INDIVIDUAL NEEDED TO LEAD THE PENDLETON TEAM.

Walla Walla Has Prospects for a Good Series of Games Under Manager Sharpstein.

Just why Pendleton should not enlist some live, influential manager to lead the baseball team has not been explained. Although the season has advanced close to time for the umpire to call the first game here, nothing has been done towards getting things into shape for the season. Pendleton has more people now than ever before who would enjoy some good ball, and a number of first-class players are willing to do the work incident to forming and perfecting a baseball aggregation. Some of them are good players, too, and probably as good a team could be gotten together here as in any town in the inland Empire.

The thing needed is to interest enough of the young business men in the project to insure financial backing. Uniforms, balls, bats, mits, masks cost money, and also the grounds need fixing, very badly need fixing. This last item is, of course, the principal one. If the baseball cranks expect to make a success, the public from whom admission fees are to be asked must be furnished a grandstand, and made comfortable. And this will consume considerable money.

Athena is already in the field with a strong team. Whitman college is organized, and has been playing a game on each of the two last days of the week. The Walla Walla team, independent of the Whitmans, is being given efficient leadership by John Sharpstein, who has infused enthusiasm into the entire company of lovers of the national game in the Garden City. Over there they are fitting up a baseball park to visit which will be a pleasure. Pendleton wants just such an infusion of enthusiasm and just such a park and such a series of games as Walla Walla is promised. Managers from other towns are now arranging schedules. Unless Pendleton move, and move at once, there will be no game here except they be played by the schools, which should not be compelled to bear all the burden of furnishing sport.

Walla Walla's Fine Prospects. In talking to the Walla Walla Union regarding baseball, manager John L. Sharpstein said: "We will have the best teams in the country here during the season, and we will give them a hard run for their money. There has only one game I have looked for certain in the season, that contest. That will be played with Whitman college. There will be games day and plenty of them, before that, though. I am in correspondence with Pendleton, Athena and other towns and recently received a letter from the manager of the Spokane Athletic association stating that he would like to have a few days and would arrange for a series of games at that time. "I believe the first game will be played with Athena. They have a strong team there and have been practicing for several weeks. "Should the Northwest league, that they are attempting to organize at the present time, prove a success, we will have each of the pines here for a series of games. This will be easy as they have to pass through Pasco on their way to and from Spokane and it will be easy to get them here for two or three days. What is better yet, the expenses will be light."

Today's Baseball Game at Athena. More interest is being taken in amateur baseball this season than for years, in the inland Empire. The news of the game at Athena on Friday aroused great enthusiasm, and Pendleton is represented by about 20.

Clarence Penland and a party of eight or ten rode up their bicycles. The train from the east due at 8:05 did not arrive until 10:30. They held the train for Athena until 10:40, and when it pulled out it had the following passengers aboard to see the baseball game this afternoon between the Whitman college team and Athena: Miss Bertha Alexander, L. E. Penland, Bismarck Koesch, Roy Alexander, Frank Robbins, George Hill, Orce Turner, A. C. Haley, John Endicott and Mort Meach.

SOME LIVESTOCK NOTES

Eastern Oregon Exchanges on the Movements of Buyers. From the Heppner Times are taken the following references to sheep and cattle:

The Ayers Cattle company last week bought of Lone Rock parties 20 two-year-old steers at \$20.50 per head and 60 yearling steers, at \$18.50 per head. They also bought eight head of two-year-old steers of W. P. Dutton at \$25 per head. These cattle will for the present be turned in with the 230 head which the company has been wintering on the Saling place in Sand Hollow. After the sale of Dutton's cattle was made, Matthews & Bay, the butchers, offered the Ayers Cattle Co. \$3 per head for their bargain, but the offer was refused. Cattle are cattle these days.

A. Smythe, one of the most prominent sheep dealers in Eastern Oregon, whose home is in Arlington, returned recently from St. Louis. Mr. Smythe put on the market at Chicago 25,000 head of sheep which he wintered in Colorado. Owing to the extremely stagnant market, and the high price of feed, he suffered a loss of more than \$10,000. It was another severe blow such as he suffered two years ago under similar circumstances.

W. A. Richardson, a leading shearer in the Jake Wattenberger crew, informs that last Thursday they finished shearing 1200 head of thoroughbred bucks for Ed Day. They also shorn six Lincolnshire bucks, the lightest fleece weighing 14 1/2 pounds and the heaviest 20 pounds.

Tom Quaid this week sold 1300 head of his breeding ewes to Pat McDaid at \$4.25 per head. This is with the wool on and before lambing.

From the Gazette. The Heppner Gazette says: Morrow county sheep have come through the winter in good shape, and lambing throughout the Heppner hills will become general after April 1. Present prospects are good for a 100-per cent increase.

Sheepbuyers are inclined to think that mixed yearlings will sell at \$2 in Heppner this spring. Those who have been in better general health now than ever, and you can't imagine how she is for her recovery. She tells everybody about Acker's English Remedy and so I, for I believe it to be our duty to the public to help every sufferer with throat and lung troubles. My neighbors say it is a sure specific, and has saved the lives of hundreds of little ones around in this valley.

My name is E. J. Sprong, and my address is 16 Bondman Block, Troy, N. I want to tell how thankful I am that my wife's health has been restored to about a year ago she caught a dreadful cold, which settled in her bronchitis and lungs. She certainly had bronchitis, and I think pneumonia, too, and we despaired of her life. She had a cough and soreness in her throat, and it was difficult for her to breathe. There were darts, dull and heavy pains, with frequent coughing and expectoration. Each day she was worse the day before. I was advised to get Acker's English Remedy and did so, but my wife only threw it away. "Another remedy," she said, "is thrown away." She took Acker's, however, and said "It was magical. In less than an hour there was a remarkable change. She got better and in a short time she was well and strong again. The cure was permanent and there has been no relapse. I don't know what Acker's English Remedy is, but it contains something that fortifies the system against future attacks. My wife is in better general health now than ever, and you can't imagine how she is for her recovery. Wm. H. Breiter, a mutton-buyer from Portland, has bought of James B. Cartwright, about 1700 head of bred ewes. We understand the price paid was \$4.50 per head.

REGARDING THE SMALLPOX

Only 11 Cases, Not 75, as Was Reported in Other Towns.

There are at present 11 cases of smallpox in Pendleton with a 12th in dispute as to whether it is variola or the seven years' itch in its first stages. All these cases are mild and there is no necessity for a scare. The duties of a newspaper are peculiar when circumstances occur such as are now present. While the disease can only be called smallpox, it is not really that loathsome smallpox of which many have a horror, extending back to childhood days, when in the middle and eastern states to have the smallpox meant a hovering of several weeks between life and death. The smallpox in Washington Idaho and Oregon for the past two years has been very mild. It should be given another name—it would not then cause such a scare.

This brand of smallpox has not been confined to the Pacific coast. The doctors say that the medical journals are full of reports from many of the other states of the union regarding it. Here is where Missouri comes in to break another record. Physicians from every county in the state report smallpox, tell how to treat it and discuss it as though it were nothing worse than the hives.

A Very Mild Type. The fact of the matter is that if there were any danger from the smallpox now prevalent it would not be allowed to have such sway. In many instances those who have it don't know until they have commenced to get well—then they are told that they have had it.

A very small percentage of the cases has been of those who have been vaccinated when it "took." The most of the cases in Pendleton add vicinity have been of children between the ages of 5 and 12 years.

All these stories circulated in neighboring cities regarding Pendleton having 75 cases of smallpox and that business is being affected by the disease are fairly tales to prevent people coming here to trade. There is no more alarm in Pendleton over the smallpox than there would be if the report was circulated that the mumps were epidemic.

Whatever the disease is, whether variola, varioloid, Philippine itch, eczema or mange, the people of Pendleton are not alarmed and are going right along with their business. Within 30 days there won't be three cases of smallpox in Pendleton.

PENDELTON CLUB NOTES

Indications Are That the Social Season Will Bring Many Entertainments After Easter. The indications point to a lively season in Pendleton after Easter. Many entertainments of various kinds of different purposes are in process of growth. One thing is noticeable, the final purpose of all the work is the same, the improvement of our city. One of the objects and one for which a special interest is hoped, inasmuch as it will literally be for the greatest good to the greatest number.

Miss Oliver's Recital. Club women are actively working for the sale of tickets for Miss Katherine Oliver's recital, and "The Sky Pilot" is being industriously read. Miss Oliver is said to have no rival in her profession and charms the most critical audiences in our largest cities. Those who heard her masterly rendition of "The Little Minister" and "That Lass o' Lowrie's" given in Pendleton need no second invitation to avail themselves of an opportunity to hear this artist in her latest triumph, "The Sky Pilot."

Two Club Meetings. The Thursday afternoon club held its regular meeting at the home of Mrs. B. Wade on Thursday of this week. The program was on "Great American Industries" and interesting papers were read on "Our Granite, Marble and Slate Quarries," "Comparison of Early with Modern Methods of Sugar Making," the "Lumber Trade" and "Women's Opportunities as Industrial Managers." The next meeting will be at the home of Mrs. C. J. Smith.

The Current Literature met on Friday afternoon at the residence of Mrs. Somerville.

CASTORIA Bears the signature of CHAS. H. FLETCHER. In use for more than thirty years, and The Kind You Have Always Bought.

THE STANDARD SMELTER

A Mining Property in Which Many Pendletonians Are Interested. Zoe Houser, U. S. marshal and one of the principal owners in the Standard mining company, is in Pendleton today, accompanied by J. F. Batchelder, of Portland. He will go to Baker City Sunday evening concerning mining operations. Mr. Houser said: "The Standard mine is located on Dixie creek, seven miles east of Prairie City in Grant county. There is more ore of value in sight than at any mine in the state of Oregon for the amount of money spent in developing the property. L. B. Reader is secretary and C. B. Wade treasurer of the company. We have recently purchased a smelter plant, which is now at Sumpter awaiting shipment to the mine. Owing to the weather and conditions of the roads, the smelter will not be shipped out of Sumpter until about June 1, and it will then take two months to transport it and put it into running order. The Standard will be paying dividends within a year."

Mr. Houser is not the only one in Pendleton who has a good opinion of the Standard property.

In This Field Enough. If you have a nagging cough and are losing flesh, go to a drug store, and get a bottle of Shiloh's Consumption Cure. Take two-thirds of it, and then, if you are not benefited, return the bottle to the druggist, and he will return you your money. Is that fair? No one could ask more. 25c. 50c. and \$1 a bottle. Tallman & Co., leading druggists.

AUGUSTAN AND HERCULEAN

Two Literary Societies of the High School Join Forces.

The Augustan and Herculean literary societies of the High School joined their forces Friday evening, March 29, and gave an entertainment at Assembly hall on the hill. In addition to the members of the two societies, a number of invited guests, including the parents of some of the pupils, were present to enjoy the occasion. First on the program was the singing of their songs by the musically inclined, the audience joining. Next was a guessing game, which afforded much amusement. Principal E. B. Conklin pronounced the questions on subjects of general news history and practical things. The first person giving a correct answer to each question as propounded was presented with a bow of ribbon as a badge of honor. The paper containing articles contributed by members of both societies was read by Miss Florence Atkinson, associate editor. This part of the program was thoroughly enjoyed. Last on the list was a recitation by Roy Blakeley, who was dressed to represent a Dutchman. It afforded the opportunity for a hearty laugh.

The entertainments of these two literary societies are always enjoyable affairs and are assured of big attendance when made known to those who delight in literary and other educational matters.

Food Changed to Poison. Putrefying food in the intestines produces effects like those of arsenic, but Dr. King's New Life Pills expel the poison from clogged bowels, gently, easily but surely, curing constipation, biliousness, sick headache, fevers, all liver, kidney and bowel troubles. Only 25c at Tallman & Co.'s.

OXFORD WON BO
