## Cleaver Bros. Dry Goods Co.

THURSDAY, APRIL 4, 1901.

TO BE KNOWN HEREAFTER

As "Studebaker Brothers' Company, Northwest"—Their Extensive Plans.

Announcement has just been made of the incorporation of "Studebaker Brothers' Company, Northwest," with a capitalization of \$400,000. The new incorporation is simply in line with the general action taken by Studebaker Bros. manufacturing company, South Bend, Indiana, with respect to the nine principal branches of the firm throughout the country. The officers of the new company in Portland are: Frederick S. Fish, president; E. M. Brannick, vice president, general manager and treasurer; and E. R. Kimble, secretary and cashier.

"Studebaker Brothers' Company, Northwest," practically control the carriage and wagon trade of Oregon, Washington, Northern and Western Idaho, British Columbia and Alaska. Two facts bring this about. First, the acknowledged superior quality of their goods; secondly, the fact that they are really the only exclusive vehicle manufacturers who can be said to have had from the beginning the trade of the Pacific Northwest thoroughly in hand. A feature of particular interest in connection with the new organization is that the company intends during the present year to erect a new building and double its present warehousing capacity in Portland, and incidentally to strengthen and enlarge all its present facilities in the Northwest. Under the contemplated plans, Portland will be the headquarters of the strongest, most active and aggressive carriage house on the coast.

### A GREAT RECORD.

A 4 is in a Clear Case of Deserved Prosperity.

The 41st annual statement of the Equitable Life appears on page four of the daily East Oregonian, page 7 of the weekly East Oregonian and page 3 of the semi-weekly East Oregonian. It is well worthy the careful scrutiny of every business man because it shows an astounding amount of prosperity. Assets of more than \$200,000,000 and a clear surplus of more than \$60,000,000 are figures appearing in this statement, and the ordinary mind can scarcely comprehend what a vast amount of

### WHEAT REMAINS AT 45 CENTS

MILLS PAY ON ADVANCE FOR GOOD LOT, 45-2 to 47.

Boston Reports Wool in Better Demand. Though Sales Are Halting, Holders Being Stiff.

Pendleton, April 4.—The price of wheat in foreign and eastern markets having been on the down grade since the report on Monday showing an increase in the visible supply when a big decrease was expected, has had its effect on the local market. Exporters are paying 45 cents for No. 1 club and redchaff at outside warehouses, and that is the top limit. Mills are paying 46 1/2 to 47c for the same quality delivered at the mills. This is only a slight shading of the figures of one week ago, while Chicago and New York prices have dropped off two cents per bushel in the same time.

#### Local Produce Market.

Pendleton dealers are paying the following prices for ranch and farm produce: Butter, 40 to 50c per roll. Eggs—12 1/2c per doz. Potatoes—50c per sack. Parsnips, 50c per sack. Cabbage—4c per pound. Turnips, 75c per 100 pounds. Turkeys—Alive, 12 1/2c per pound. Geese—\$12 per dozen. Ducks—\$4.50 per dozen. Chickens—\$3.50 to \$4.50 per dozen.

#### Portland Wheat Market.

Portland, April 4.—The Commercial editor of the Oregonian says: The European wheat market yesterday very graciously responded to the weakness of the American market of the day previous, and slumped off materially. Not to be outdone in weakness the American market took another turn downward. Just where the matter will end is uncertain, but it is hardly probable that John Bull will make any Herculean efforts to lift a market which we are unable to keep up ourselves. Local exporters were not doing much yesterday, and there was not enough of the cereal changing hands to enable an accurate market quotation to be made, but 57 cents was about the best price openly quoted for Walla Walla for export, and some of the exporters said they intended to wait until it got down to 54 cents before they bought any more.

The combined stock of wheat at Portland, Tacoma and Seattle decreased 208,000 bushels last week.

#### Boston Wool Market.

Boston, April 4.—With a much better demand and with larger sales the wool market here had a better tone this week than for a year. The market appears to have settled down to a firm basis, and there is a feeling that values cannot be forced any lower. Holders of wool are not as anxious to sell as they were some weeks ago, but buyers have not got to the point where they are prepared to pay any advance. The bulk of the sales were in good grades, and these wools are in good demand. For fine medium and fine scoured staple 40 to 45c is asked, while strictly staple lots call for 45 to 46c. Quotations were as follows: Territory, scoured basis, Montana fine medium and fine, 14 to 15c; scoured, 42 to 43c; state, 45 to 46c; Utah, Wyoming and Idaho, fine medium and fine, 12 to 14c; scoured, 40 to 42c; staple, 44 to 46c; Australian scoured basis, spot prices, combing, superfine, nominal, 68 to 70c; good, 64 to 65c; average, 60 to 63c.

#### A DIFFERENCE IN RANGES

Past Winter Has Been a Hard One on Cattle.

Od Teel, who lives a half mile from Echo, spent Wednesday in Pendleton and returned home on the night train. Mr. Teel's talk on stock and range matters differs materially from the reports from other sections. He says that the ranges are in very different condition from what they were 20 years ago, and that cattle and horses would have had a hard time of it the past winter if the stockmen had not arranged things so as to be able to feed the stock for several months. When the stock ranges of this section were first discovered, the bunchgrasses grew high and was luxuriant. The stock grazing upon it did no damage for years. The animals would eat the cured grass even when compelled to paw through it through the snow in winter time, but in the summer the grass would again have a chance to spring up. In recent years, however, the feeding has been closer—right down to the roots—with a result that the grass doesn't have a chance to get up over a few inches, leaving the roots unprotected. This has been disastrous to stock-raising interests in one way, but a benefit in another, for it has caused experimentation with different kinds of

#### Got the Wrong Picture.

The officials of the Canadian finance department admit that the picture on the face of the new Canadian \$4 bill is that of the American "Soo" lock. The finance department sent to Montreal for a picture of the Canadian lock at the fault. In reply they received a picture of the American lock and used it. The officials say they were misled by noticing the Canadian Pacific steamer Athabasca in the lock, and assumed in consequence that the picture was all right. The department of railways and canals was not consulted in the matter.
