ANOTHER SCANDAL IN PHILIPPINES

Auditor Lawshe Says Postoffice Accounts Are Mixed.

THE AMOUNT INVOLVED IS \$300,000

Government May Send a Force of Expert Accountants to Make a Thorough Investigation at Manila.

Washington, April 11.—A big scandal in the Philippine postal affairs is promised. Secretary Root has received a report from Auditor Lawshe, saying that the accounts over there are in a terrible state. The amount said to be involved is at least \$300,000. Postmaster-General Smith may send a force of expert accountants from Washington to Manila to make a thorough investigation.

Lawshe writes that a number of discredits have not reported for months. The absence of financial accounting may mean that the finances are in a tangled shape or may have no significance whatever. The rumor that Secretary Root had not been informed of the shortage of \$300,000 gained currency, but could not be confirmed.

'I am certain everything is all right over there,' said Postmaster-General Smith this afternoon. 'It is merely a failure to report on the part of a number of postmasters.'

A GOOD MANY SEVENS.

Peculiar Coincidence Noted by Walla Walla's Postmaster.

The postoffice officials in this city yesterday had brought to their attention the queerest coincidence, or series of coincidences, that has ever occurred in the history of the Walla Walla office, says the Walla Walla Union. It came by mail—and registered mail at that—and arrived over the Washington & Columbia River railway yesterday morning from Spokane.

Registered mail, except where it is carried in large quantities, has a special pouch which is smaller than the regular bag and which is placed inside the latter. This special bag is locked with a patent numerical registering lock. Every time the key is turned in the lock a number which shows under a glass plate, is increased by one. In this manner it is possible for the officers at the different offices to tell whether the sack has been opened while in transit. With each registered bag is sent a receipt, or check card on which is written the day the mail is sent, the number which the lock shows, the number of packages inside the bag and the number of the train on which it leaves its starting point.

When the registered bag arrived yesterday it showed the following from the accompanying tag: To begin with the tag was numbered 7, it being the seventh in the series for them on 7th of April; the lock was numbered 777 it having been the 777th one constructed at the factory; the number that showed under the glass plate was 77 it being the 77th time that particular lock had been used; the bag started on its journey on the 7th of the month; there were seven registered letters inside the sack and it left its destination on the Northern Pacific train No. 7.

'Talk about luck in odd numbers,' said Postmaster Branton.

PENCHANT FOR TROUBLE.

J. H. Gates, of Legislative Hoopie Fame, Arrested for Forgery.

J. H. Gates, who has acquired widespread notoriety on account of his getting away with \$1500 during the late legislative session, says the Eugene Guard, supposed to be intended for some legislator, during the senatorial fight at Salem, is now in a predicament from which he cannot so easily extricate himself and which no doubt will result in his serving a term of years in the state penitentiary.

He was arrested this morning about 11 o'clock by Sheriff Withers on the charge of forgery, was taken before Justice of the Peace C. A. Winermuir, where he waived examination and was placed in the county jail.

This morning shortly before 11 o'clock Gates entered the First National bank and represented to Cashier F. E. Snodgrass a check on the First National bank of Portland for \$75 with the name of 'Henry Corbett' attached thereto. Mr. Snodgrass immediately saw that the check was a forgery and held Gates until Sheriff Withers, who was telephoned for, arrived, when he was turned over to that official.
