Muscle

Does not make the man. "The blood is the life," the vital force of the body. So it not infrequently happens that the man who looks to be a picture of physical strength falls a sudden victim to disease. A proper care for the blood would prevent many a serious sickness.

The cleansing of the blood is perfectly accomplished by the use of Dr. Pierce's Golden Medical Discovery. It drives out the impurities and poisonous substances which corrupt the blood and breed disease. It increases the activity of the blood-making glands, and so increases the supply of pure blood. It builds up the entire body with good sound flesh.
There is no alcohol in "Golden Medical Discovery" and it is entirely free from opium, cocaine and all other narcotics.
The dealer who offers a substitute for the "Discovery" does so to gain the little more profit paid by inferior medicines. There is nothing "just as good" for the blood as "Golden Medical Discovery" therefore accept no substitute.
"I took five bottles of 'Golden Medical Discovery' for my blood," writes Mr. William D. Reynolds of Kenia, Chesapeake Nation, Indian Territory. "I had 'ring worms' on me and I would burn them off and they would come right back, and they were on me when I commenced using 'Golden Medical Discovery,' and they went away and I haven't been bothered any more."
Dr. Pierce's Pleasant Pellets cure constipation.

TROUBLE FOR STEEL TRUST

Two Hundred Workmen Go on a Strike.

A LABOR ASSOCIATION INVOLVED

Advisory Board May Call on All the Combine's Employes to Join in the Walkout.
Pittsburg, April 15.—Two hundred workmen at Dewee's Wood, a department of the American Sheet Steel company of McKeesport, struck today, demanding the reinstatement of men who had been discharged, it is alleged, because they had organized a local union of the Amalgamated Association. All is quiet in that vicinity, but the situation may become serious any hour. The Amalgamated officials seem to be determined, and made the demand that the advisory board exercise the power to suspend work in every department of the gigantic steel corporation and also to close all coal mines supplying the mills with fuel.

THE CROWN PRINCE FETED

Vienna Festivities Continue—Brilliant Dinner This Evening.
Vienna, April 15.—The festivities connected with the visit of Crown Prince Frederick William, of Prussia, to Vienna continued today. The prince spent the morning in visiting the notable sights of the Austrian capital. This evening he attends the imperial dinner at which the emperor and two hundred of the leading nobility will be present.

REPORT KRUGER IN DANGER

His Villa Guarded Against Assassins Who Would Get to Him.
Amsterdam, April 15.—A report that an attempt had been made to assassinate President Kruger is declared to be untrue. Notwithstanding the denial, it is evident that the authorities are apprehensive that he is in some danger, as two policemen and two detectives are guarding the villa in which he is residing.

Denies French's Capture.

London, April 15.—The British war office officially denies the report of the capture of General French and five hundred men by the Boers.

DEATH OF A. C. M'CLURG

Civil War Veteran and Prominent Publisher.

THEY DON'T LIKE THE LAWS

Standard Oil Fight Shy of Texas Oil Fields.
Fort Worth, Tex., April 15.—Oday and Payne, Standard Oil representatives who have been investigating the Beaumont oil fields, are here en route home. They stated that the Standard Oil company would invest \$30,000,000 in the Texas oil property were it not for the anti-trust laws of this state. As it is, they will not come to Texas, but admit that the field is the greatest ever discovered.

SENATOR CLARK'S VICTORY

His Road Gives Right-of-Way Over the Southern Pacific.
Pomona, Calif., April 15.—The board of trustees this morning granted a right of way to the Salt Lake railway on a strip of land contended for by the Southern Pacific. The latter will not relinquish its claim, but will contest the matter in court. There is no excitement in Pomona today over the question as to which road shall have the preference.

ANOTHER ALASKA COMPANY.

Has a Capital of Two and Three-Quarters Millions.
Trenton, April 15.—The Northern Commercial company of San Francisco was incorporated today with a capital of \$2,750,000. It will construct and operate vessels and carry on mining, manufacturing, mercantile, telegraph, telephone and railroad business. The Northern Navigation company was incorporated by the same men for the same purpose.

Question of Service Decided.

Washington, April 15.—By decisions in several cases from New York and New Jersey the supreme court of the United States today declared that decrees obtained in one state by service upon a defendant in another state are valid. Justices Fuller and Peckham dissented.

Spanish Robbers' Work.

Madrid, April 15.—Robbers today held up an express train between Oribania and Cabasa, firing a volley into the carriage, and seriously injuring one passenger. They compelled all to disgorge their valuables, escaping without identification. The troops are now pursuing them.

Logan Takes Troops.

San Francisco, April 15.—The transport Logan sailed this noon for Manila with troops of the Ninth and Tenth cavalry and the First and Eleventh infantry on board.

LI WANTS OUR PROTECTION

China Suspicious of Other Foreign Troops' Intentions.
Peking, April 15.—General Chaffee has been appealed to by Li Hung Chang to leave behind him sufficient troops to do police duty in the city. Earl Li says the Chinese fear that the foreign troops will not take proper care of the district if the Americans leave. Five thousand German and 3000 French troops will leave Pao Ting Fu tomorrow to drive several thousand lawless Chinese out of the province.

Cold in the Mountains.

Walla Walla, April 15.—To many of those who are at present enjoying the bright sunshine of the Walla Walla valley it seems impossible that only a few miles away there are places where the snow lies many feet deep and the cold, winter winds howl along the walls of the canyons and make it all but impossible for a pedestrian to venture out and escape without a frost bite. Yet such is the case. M. A. Williams returned to this city yesterday from a lumber camp in the mountains about 25 miles from Pendleton and says that the weather there is more severe at present than it has been at any time during the entire winter in this valley.

Anxious for the Garonne.

Washington, April 15.—The transport Garonne is now a week overdue at San Francisco and anxiety for her safety increases each hour.

A Carlist Uprising.

Barcelona, April 15.—Troops have been sent to Borg in the northern part of Spain to check the rising of Carlist bands under Don Grandia.

French Premier Recovers.

Nice, April 15.—Premier Waldeck-Rousseau, of France, is declared to be fully recovered.

MORT MEACH WILL PLAY.

He Returned From Portland This Morning and Will Remain.
Portland, April 15.—Mort Meach returned after having visited with relatives at Portland and at Vancouver, Wash., where he formerly resided. Mr. Meach has announced that he will remain in Pendleton until July at least. This information is received with great satisfaction, as it means much for the Pendleton baseball club. He will strengthen the team in the pitching department, where strength is always necessary in order to win. The following from the Portland Telegram of Saturday, April 13, is complimentary to Mr. Meach, and when read here on the day prior to his return caused worry for fear he was going to remain there: "Multnomah's men are on the field every night. The diamond is being put in condition so that regular practice will start in a moment. Some new men have appeared as candidates; that is, new for this year, but not strangers to the game. The appearance of Barrett in a baseball uniform will be greeted with pleasure. Barrett played shortstop to Multnomah in 1899, when he made a record for himself, and will have the same position this year. Meach, a newcomer to Portland, is a candidate for the pitcher's berth. The club is fortunate this year in the number of pitchers. Meach, Whitehouse, Keller and Williams are all available, and the best man will win the race. Meach is a dark horse in the race, but he may have the qualities which will win him the coveted place."

CARRIE NATION LEAVES TOWN

Kansas City Judge Gives Her Alternative.

PAY \$500 OR GO, SAYS HIS HONOR

She Gives the Court Some Bible Verses and Calls the Policemen Bad Names.
Kansas City, Mo., April 15.—Mrs. Carrie Nation was fined \$500 by Police Judge McCanby this morning and given the alternative of leaving town before 6 o'clock. She was arrested on the charge of blocking the streets. Addressing Mrs. Nation, the judge said: "Missouri is no place for you. Missouri is not a good state for short-haired women, long haired men or whistling girls."
Mrs. Nation poured verse after verse of bible quotations in the court's ear, and, after the close of the officer's testimony, she said: "These officers are liars, perjurers and paupers who receive pay for doing nothing." The judge ordered her to leave and she said she would leave town.

Corbin's Engagement.

Washington, April 15.—Adjutant General Henry C. Corbin this afternoon authorized the announcement of his engagement to Miss Edyth Patton, of this city. The Pattons formerly were residents of California.
They have considerable wealth and are of great social prestige in Washington. Corbin is a widower. The engagement has been reported frequently in the newspapers and as frequently denied during the past few years.
Prof. Lyman, of Whitman College, Writes an Interesting Article.
In an article contributed to the Atlantic Monthly for April Professor W. D. Lyman of Whitman college gives a most interesting account of the making of the state of Washington, its wonderful resources and its commercial prospects, which latter, he declares, are limited only by the confines of the earth's surface. Beginning with the explorations of Bodega, Drake and old Juan de Fuca, the early, or, as Mr. Lyman calls it, "the heroic age of Oregon," is charmingly described. He says in part: Taking the three salient features of the state, the Puget Sound country, the Cascade mountains, and the Columbia valley—Mr. Lyman points out the actual and potential resources possible for reclamation for the use of man, pointing out how nature, by volcano, glacier and torrent, has prepared a soil of such marvellous fertility that the story of its productivity excites the incredulity of the listener. For descriptive purposes he divides the state into four zones, each extending north and south. Speaking of the first, the western one, conspicuous for its lumber production, he says: "During May of that year orders for 30,000,000 feet of bridge stuff and ties were placed in Washington by railway companies of the east and middle west. Most remarkable to eastern readers is the yield of an acre of Washington timber land. A single acre has been known to produce 800,000 feet and one tree has yielded 50,000 feet. It is estimated that within a radius of eight miles from Skomokawa is standing 600,000,000 feet of yellow fir. There is poetry in one of those swaying forests which carry their coils of marvellous fertility through greenish, as if in leafy sculps; but there are dollars in the knotless stems when sawed, and of the latter feature only the lumberman thinks."
