The evening's entertainment will begin at 8:30, several musical numbers being first given, followed by the banquet with toasts.

WORK AT THE MAXWELL.

Mine Owned by Pendleton Business Men Shows a Good Ore Vein. A great depth has been attained in the Maxwell mine, of the Rock creek district, which is being operated by J. K. Romig for a company of Pendleton business men, says the Baker City Bulletin. Recent arrivals from that property state that the main tunnel is now 3000 feet, giving a depth of approximately 1400 feet. It is estimated that this tunnel is now directly beneath the apex of the mountain, and that 2000 feet further will bring it out on this side of the mountain near the well known Baisley. A good vein of ore is being followed, satisfying the operators that they have a large mine. In the last workings much water is being encountered, but as the method of work is by tunnel, this is easily disposed of. Miners on duty in the face must stand in a shower now, which makes work rather difficult. It is expected that as further progress is made under this side of the divide, the formation will divert more of the water. This tunnel is on the 1,400 foot level from the summit, and there is still another level 1800 feet below the summit. A vast amount of work has been done on the Maxwell, aggregating over one mile all told.

HAIR WON'T FALL OUT

If You Kill the Dandruff Germs With the New Treatment. John N. Fuller, a well known citizen of Colfax, Wash., says: "I had dandruff so badly that it caked on my scalp. Herpicide completely cured me. George H. McWhirter of Walla Walla, Wash., says: "Herpicide completely cured me of a bad case of dandruff of 30 years' standing." They took the only really sensible treatment, a remedy that destroys the dandruff germ—Newbro's Herpicide. Stop dandruff, hair won't fall out, but will grow luxuriantly. Always itching instantly and makes hair glossy and soft as silk. At druggists. One bottle will convince any doubter of its merits.

L. E. Roy's Generosity.

There have been a number of cases of smallpox at Pilot Rock during the past few months, and among others one or two of L. E. Roy's family. Mr. Roy's house was quarantined, and at that time a number of men were taken down, who had no homes, and would have had to be brought to the Pendleton pesthouse but for him. He took them in and they received the best of treatment, so that all recovered and were discharged. Their names are as follows: Messrs. D. Foster, Ryburn, Carnes and Diamond. The quarantine raised on Monday of this week. There is only one case of smallpox in Pilot Rock at present.

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but, when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for coughs and colds. 50c and \$1 bottles guaranteed by Tallman & Co. Trial bottles free.

Known in Pendleton.

A telegram from Stanford university has the following regarding a young man known in Pendleton: "Chester Murphy, of Salem, was one of the 'rarities' baseball players on the Stanford nine that defeated the University of California Saturday, 15 to 4. He scored one run, and played an errorless game at third base, making four put-outs and three assists. Both university teams have now each won a game, and the third will be played on Saturday, April 27. Next Saturday the track teams contest on the Berkeley field."

JOS. DUPUIS VS. W. S. BYERS

PLAINTIFF ASKS \$1200 DAMAGES FOR INJURY TO RESIDENCE PROPERTY.

The Complaint Filed for the Reasons as Here Set Forth.

Joseph Dupuis has filed a complaint in circuit court against W. S. Byers, claiming \$1200 damages on account of his residence property having been damaged to that extent.

T. G. Hailey and John McCourt are attorneys for the plaintiff.

In his complaint, the plaintiff claims to be the owner of lots 3, 4 and 5, block 120, Reservation addition, where he has a dwelling house and other improvements; that said premises are situated on the south side of the right of way of the O. R. & N. Co. through said reservation, the right of way being 100 feet wide; that for about 29 years the railroad company has had a track located about the center of said right of way, 46 1/2 from the north boundary of said real premises; that this plaintiff and the public have used the said right of way as a public highway for more than 13 years, immediately preceding the commencement of this action; that during the month of November, 1900, the defendant wrongfully and without the consent of plaintiff, and contrary to the wishes and protests of plaintiff, and without having paid or offered to pay plaintiff anything for the right to do so, made excavations to the depth of about 10 feet and about 30 feet in width, between the railroad track of the said O. R. & N. Co. and the said real premises of plaintiff for a distance of about 35 feet directly in front of plaintiff's dwelling house;

That this excavation was to provide a mirrace which would carry sufficient water to operate the mill of said defendant; that defendant has eight feet of water in said mirrace and threatens to maintain that or a greater depth of water continually; that the south bank of said mirrace is only five feet from the north line of plaintiff's real premises, and only 15 feet from plaintiff's dwelling house; that by reason of this excavation for the mirrace all ingress and egress to and from said premises, by vehicle, along said right of way was and is impracticable; that pedestrians cannot get upon said premises except by crossing said right of way over the O. R. & N. Co.'s railroad track, or by going about one quarter of a mile east and returning along said O. R. & N. Co.'s right of way; that said dwelling house has been excavated and operated the earth under and about said dwelling house, and that the earth so excavated and operated has become so loose and crumbled that it endangers the health of plaintiff and family and has rendered said premises valueless as a dwelling place; that since and on account of said excavation and its use as a mirrace the dwelling house of plaintiff has settled and moved so that it has become unsafe and the roof has become cracked on account of said settling, and will no longer draw, thus continually filling the house with smoke to the great annoyance and inconvenience of plaintiff and his family.

Dangerous to Life and Property.

That the earth immediately behind the house has cracked and it will only be a short time until a large portion of said premises, together with said dwelling house of plaintiff will slide down into said mirrace and upon said right of way of the O. R. & N. Co. That the said right of way is not covered or in any way enclosed and the children of plaintiff are in the continual danger of falling into the same; that said defendant, that said acts of defendant were done against the will of plaintiff and over his protest; that said property of plaintiff is rendered practically valueless, that access to said premises is almost wholly cut off, and the use of said premises is made dangerous, in consequence of the above, and that the plaintiff has been damaged in the sum of \$1200. That said mirrace so wrongfully constructed, used and operated by defendant in front of and along plaintiff's real property constitutes and creates a private nuisance to said premises and to this plaintiff and ought to be abated.

PEOPLE HERE FOR A DAY.

Col. R. C. Judson, who was in town for a time this morning, and went to Milton, is the man who became famous from the marvellous incubator mentioned in the evening edition of the East Oregonian of Tuesday. He said that he would strenuously object to any further mention of his name, in the columns of the daily press, but said a reporter for the East Oregonian that the invention, thought to be a wonderful thing for the egg and chicken industry, had proven to be a total failure, and that he had abandoned it entirely. The difficulty was that the hens didn't understand the machine. It was supposed to operate upon the principle of placing the eggs in the end of the incubator to lay the eggs, utilizing a high degree of heat to hatch them quickly, and bring out at the end of the affair a constant stream of live chickens. A hopper was beneath the hens, the eggs laid by the fowls dropping into the hopper and disappearing. The hens did good, faithful work, in fact, too faithful work, for they would proceed to lay the eggs, and the hen fruit disappearing through the hopper, the hens were made to think that they had failed in what they believed to have been successful attempts to do their duty. They would proceed with other eggs, and kept this up all the time, until they died from sheer overwork. This quered the incubator, and compelled Mr. Judson to give up the enterprise and dissolve the joint stock company formed to make and sell the great machines. He hinted that he had dropped several thousand dollars, and that some of his friends had, through his representations, done the same.

Rev. Perry Chandler, once pastor of the Thompson street M. E. church, is in town, having returned from a journey in places east of the Blue mountains in the interest of Whitman college, of which he is now field agent. This afternoon, he visited the High School, and spoke to the students. Mr. Chandler said to the East Oregonian that the young people of East Oregon are represented at Whitman by a number of students, and that matriculates from this state are more numerous each successive year. The college is now upon a firm basis, being endowed with enough money to insure funds for maintenance. The college secured excellent advertising through the journey made by the blue club a few weeks ago. President Penrose's addresses given in many places have also attracted attention to the

school, which is recognized as an institution of standard grades among colleges of liberal arts.

Personal Mention.

County Judge Hartman went to Weston this morning. Mr. and Mrs. J. C. Hayes and son have gone to Seattle to take up their residence there.

Gus Teutsch, accompanied by Frank Nicklin, of Chicago, spent Tuesday at Pilot Rock.

Ed. H. Saunders, a farmer who resides north of Athena is a visitor in Pendleton today.

Dan Downey was in town Tuesday and has returned to Charles Cunningham's ranch, where he is employed.

Robert Kennedy, of Portland, manager of the Pacific Coast Elevator company, is a guest of the Hotel Pendleton.

Charles Neborgall, of La Grande, is a guest of the Hotel Pendleton, where he was employed during the days when Louis F. Cook was lessee of that institution.

Charles Cunningham came in from his ranch Tuesday and returned early this morning, accompanied by J. M. Spackman, of Chicago, who goes out for the purpose of inspecting the sheep and see how things are conducted on the range.

Wesley Peters was graduated April 4 from the school at Salem for deaf mutes and arrived home on April 8. There were nine members of the graduating class. Mr. Peters has been attending the school for six years. He will go to work at the woolscouring mills.

Mr. and Mrs. L. F. Moore and the latter's sister, Miss Mead, are at Wallace, Idaho, where Mr. Moore is proprietor of a cafe, and doing a lucrative business. Mr. Moore was formerly proprietor of the Hotel Pendleton, and his many friends will be glad to learn that he is doing well.

J. H. Robbins, of La Grande, arrived in Pendleton Monday evening and will remain until Friday morning. He attended the meeting on Tuesday morning of the Navajo Coal and Petroleum company, of which he is a director. He is attending to many other business matters.

Jacob Bloch and Charles Schubert are in town today from Athena. Mr. Bloch says that Vaughan, the first baseman of the Athena baseball team, was with an accident a few days ago by having a horse fall on him, but thinks he will be able to play in Scraper's game, tonight, centerfielder, has the grip, but is not seriously sick.

BAKER CITY'S NEW DAILY

Herald Comes Out as Previously Announced—Livmore Editor.

The Baker City Herald came out on Monday as a daily, with L. Bush Livmore as editor and Chas. W. Hill lessee. The Herald has a telegraph report from the same news association that furnishes the East Oregonian. In the initial number, the Herald says:

The Baker City Herald announces that it has secured for its readers a telegraphic news report from the Scripps-McKee Press Association, the greatest news gathering concern for afternoon newspapers in the world. This association co-operates with the Publishers' Press Association, collects its own news, controls its own correspondents, leases its own wires, maintains its own bureaus in London, Paris, Berlin, Rome and other foreign news centers, and keeps special correspondents in the field in South Africa, China, and the Philippines. It is also allied with one of the largest press associations in England.

The Scripps-McKee Press Association is not a trust, but an independent newsgathering organization that collects and sells news as a merchantable article. It is not controlled by special interests and its report is non-partisan and uncolored. That the public appreciates such a report is shown by the growth of the organization, which has grown from nothing four years ago to its present size, supplying over 350 afternoon papers in the United States, with correspondents in every city in the world.

THE NAVAJO C. & P. O. COMPANY.

Articles of incorporation have been filed of the Navajo Coal and Petroleum Oil company, and organization was perfected Tuesday evening, April 16, in Carter & Bailey's law office. Following is a list of the directors: T. C. Taylor, J. H. Robbins, C. B. Wade, T. J. Kirk and F. B. Clopton. The directors perfected the organization by electing the following officers: T. C. Taylor, president; T. J. Kirk, vice-president; C. B. Wade, treasurer; F. B. Clopton, secretary.

The company has a capital stock of 1,500,000 shares of the par value of 20 cents. The lands owned by the company are in Archuleta county, Colorado. F. O. Beckman is on the ground with an outfit for drilling, and a well will be sunk as rapidly as possible.

Hot Lake Excursions.

The O. R. & N. Co. has made a rate of \$3.30 Pendleton to Hot Lake, Union county and return. Tickets limited to 30 days. Apply at T. K. & N. ticket office.

THE DOMESTIC LAUNDRY

ONE OF THE MOST COMPLETE PLANTS IN THE STATE.

J. F. Robinson is Proprietor and He Employs a Force of Twenty People.

The Domestic Laundry at the corner of Court and Thompson streets impresses a visitor by its sightliness and air of general prosperity everywhere in evidence. J. F. Robinson is the proprietor, and he looks after the business carefully and keeps abreast of the times by adding new machinery as it comes upon the market, so that he now has one of the best equipped plants in the state. In fact, it is no exaggeration to state that it is the best in Oregon for its size, and the largest outside of Portland. The building is a two-story brick.

Built an Annex. An annex 16x80 feet has just been completed on the east side of the building, which is used for ironing rooms, washing room and engine room. Two new tanks of 2000 gallons capacity each have taken the place of the old tanks. Mr. Robinson pumps water into these tanks and uses it for washing the city water being used only to supply the boiler used in connection with the engine. The engine is of 15-horse power, and is installed upon a solid concrete foundation. The extractor has the same kind of a foundation. A new washer has recently been added. Making four in all, and a number of small tubs for hand work. A special drying flannel at the right temperature. Special soap for the different kinds of material used in washing woollens, shirt waists and colored goods.

Foremen and Forewomen.

The foremen and forewomen of the different departments are all competent, having had from two to ten years' experience each, and they have the best machinery to work with, ironers, manglers, Slay rough edger and slasher, etc. all of late pattern. The fame of the Domestic Laundry has extended abroad and work comes in from as far away as Ontario, Malheur county, Huntington, Coadon, Hepper, Lone, Adams, Weston, Helix, Athena and from Pasco, Wash.

Your Face.

Shows the state of your feelings and the state of your health as well. Impure blood makes itself apparent in a pale and sallow complexion, pimples and skin eruptions. If you are feeling weak and worn out and do not have a healthy appearance, you should try Ayer's Blood Purifier. It cures all blood diseases, whether cheap Sarsaparilla and so-called purifiers fail. Knowing this, we sell every bottle on a positive guarantee. For sale by Brock & McComas.

A SERIOUS RUNAWAY

One of the Horses Broke a Leg and Had to Be Killed.

The A. C. Shaw & Co. team ran away this afternoon on Webb street one block east of their lumber yard and collided violently with a telegraph pole on the north side of the street. The lead horse fell and broke its left hind leg in three places, so it was killed to put it out of misery. The wagon to which the team was attached was partially loaded with lumber, which was badly wrecked before and at the final crash. Henry Thompson had charge of the team. The horses became frightened and started. The brake was set at the time, but the horses paid no attention to a little thing like that.

When the Hair Falls Out

accompanied by numerous patches in the mouth, eruptions on the skin, sore throat, copper colored spots, swollen glands, aching muscles and bones, the disease is making rapid headway, and far worse symptoms will follow unless the blood is promptly and effectually cleansed of this violent destructive poison.

S. S. S. is the only safe and infallible cure for this disease. It cures the worst cases thoroughly and permanently.

My Condition Could Have Been No Worse. In the fall of 1894 my body was almost covered with copper colored spots and offensive sores. I suffered severely from rheumatic pains in my thighs and legs. My condition could have been no worse; only those afflicted as I was can understand my sufferings. I had about lost all hope of ever being well again when I decided to try S. S. S. but must confess I had little faith in my medicine. After taking the third bottle I noticed a change in my condition. This was truly encouraging, and I determined to give S. S. S. a thorough trial. From that time on my improvement was rapid. In a few days I seemed to have the disease completely under control, the sores on my thighs healed and I was soon free from all signs of the disease. I have been strong and healthy ever since.
