New peas, very fine; new potatoes wax beans, asparagus, sweet potatoes, green onions, spinach, lettuce. Chickens, dressed or alive. Leave your orders. G. R. Demott. Don't overlook the White Horse grocery for your vegetables, everything the market affords. The new proprietors are looking for business and giving goods that are nice and fresh. A. C. Henderson and son announce an increase of 120 per cent of lambs. They own sheep in the southern part of the county and are in town today to pay their taxes and attend to other business. Thomas T. Nelson is in receipt of a letter from Portland stating that the celebrated 'Dumner' arrived there safely and has been honored by being placed in stall No. 1, for inspection at the dog show. Chief Poo has been released from the city jail and was taken out home to the reservation. The latest information from him is that he is bleeding at the nose, and may not recover. He was 'out of his head' while in the city jail, and it is thought that it may be necessary to send him to the insane asylum. N. Roberts, who was taken in by the city authorities a week ago on account of his erratic conduct and afterwards taken to the county jail, was adjudged insane by Dr. Vincent and County Judge Hartman Tuesday evening and was taken that night to Salem. He was laboring under the impression that he had been robbed. Tom Hicks, who resides in West Pendleton had a horse stolen Wednesday night. He had the animal tied up with a halter the evening before, but when he went for it this morning the horse was gone. The halter strap had been cut in two with a knife, good evidence that some person had been in a hurry when he got away with the property. George A. Hartman jr., has been appointed field captain of the Pendleton baseball club by Manager M. A. Rader. The boys go daily at 4 o'clock in the afternoon to the Alta street grounds for practice. The grounds will be put in good shape. Manager Rader is a civil engineer and knows his business when it comes to shaping up a baseball ground. It will be put in such condition that in fielders and outfielders will have little excuse for making errors. There will be a lecture in the Christian church next Monday night on the Order of Pendo by C. W. Wheeler, deputy supreme organizer, commencing at 8 o'clock. Everybody is cordially invited. The guiding star says of Mr. Wheeler: 'C. W. Wheeler, one of the jolliest fratres that ever told a good story, and one of the best posted lecturers on the coast, has taken up the work for Pendo, after five years of successful labor with the Woodmen of the World. A great many persons will visit Yellowstone park this spring, owing to the fact that the park will be opened on June 1, instead of June 10, as previously announced. The change has been made in the plans of the past management because President McKinley and his party desire to go there as they return from the coast. The visit of the president will attract many others. The Northern Pacific railway company makes the announcement through the local agent, Walter Adams. THE AMATEUR MINSTRELS Objects to Assist the Pendleton Academy and Entertain the People. Amateur minstrels usually are greatly enjoyed by the people of a town. The interest created by the announcement of the minstrelsy on Tuesday evening next insures a good audience. A good audience means large net receipts, and large net receipts will mean a handsome donation towards the Pendleton academy. The high esteem in which the academy is held will cause its very many friends to give the minstrel 'show' general advertising. The management advertises 21 men in the company, all but two residents of Pendleton. Notice to Contractors. Notice is hereby given, that the common council of the city of Pendleton will receive bids for the grading and graveling of Webb street from Oak street on the west to its intersection with Court street on the east, said grading and graveling to be done in accordance with provisions of ordinance No. 353. Measurements to be furnished by the city engineer. The common council reserves the right to reject any or all bids. Bids to be filed in the city recorder's office on or before April 29, 1901. By order of the Common Council. J. E. BEAM, Recorder. Dated at Pendleton, Ore., April 18, 1901.

SCARED IN WALLA WALLA

A SMALLPOX PATIENT GOES THERE FROM HELIX.

Dr. Bingham Made Diagnosis—Then the Man Disappeared and Has Not Been Located. Quite a sensation was caused in Walla Walla by the appearance there of Price McDaniels, who went from Helix. The Union thus tells the story: 'Price McDaniels arrived in this city yesterday from Helix, Ore., broken out with smallpox—his present whereabouts is unknown. The man and for all that was known at an early hour this morning was still at large and in the city. 'McDaniels has been in the employ of the Washington & Columbia River railway company at Helix, and came to this city seeking medical attendance for an unknown disease and the fact that he was ill with smallpox was neither known to himself nor to the railway officials until after the patient had been examined by Dr. J. E. Bingham, the company physician. Dr. Bingham said last evening when seen by a reporter for the Union: 'The railway company has taken care for persons suffering with tuberculosis, smallpox or other contagious diseases and as soon as I saw McDaniels had smallpox I called Dr. Russell, the city health officer, to take charge of the case. Dr. Russell consulted with the board of health and refused to care for the sick man then expressed a desire to return to Helix and applied for a pass to that city. This was refused as he was known to have the disease and therefore could not be allowed to ride on the train. The man's face was covered with eruptions and, although the patient is in no immediate danger to himself, it is a very easy matter for the disease to spread at this stage.'

A BAD INDIAN ARRESTED

Senator Mitchell Accused of Having Stolen a Horse. Senator Mitchell, an Indian with several volumes of criminal history to his discredit, was arrested recently by Constable John M. Bentley, taken before Justice Fitz Gerald today and held to answer to the circuit court on the charge of having stolen a horse. His bond was fixed at \$250, which he has not furnished. The crime is of long standing. It is claimed that Senator Mitchell stole the horse from Jim Joshua and sold it to Lee Baker. He has been at the Yakima agency for some time, and thus escaped arrest. Tried to Kill M. J. Carney. Six or seven years ago, when M. J. Carney was a deputy sheriff under Sheriff Homer, he went out to the reservation and arrested Senator Mitchell. On his way back to Pendleton, the Indian got out of the conveyance in which he was riding with the deputy. When Mr. Carney was not watching carefully, the senator picked up a good sized rock and hurled it at Mr. Carney with murderous intent. The stone grazed the deputy's temple and partially stunned him. The Indian was only prevented from getting away by Mr. Carney drawing a revolver and taking two shots at him. One shot passed through the Indian's coat close to his side and the other, which caused him to capitulate, Mr. Carney then brought his prisoner to town without further trouble.

A LICENSE TO HUNT THERE

Washington Collects a Fee From Shooters and Fishers. An impression has prevailed among Oregon hunters that a law recently passed in Washington required them to pay a license fee of \$10 before they could hunt in that state. Such an impression is incorrect. As near as can be ascertained from reading the law relating to hunting passed by the recent Washington legislature, it imposes a fee of only \$1 upon residents of Oregon, Washington and Idaho, and a fee of \$10 upon residents of all other states. In answer to many inquiries received by the Oregon Fish and Game Association concerning the new game law of Washington, particularly that portion relating to license required of non-resident sportsmen, Secretary Gehardt has prepared the following statement concerning the Washington law. A bill was introduced in the Washington legislature providing for a license fee to be paid by non-resident sportsmen or fishermen going into that state to fish for trout or other game fish, but the bill failed to pass, and, therefore, the old law of Washington in regard to trout still obtains. But a new game bill was passed and approved by the governor on March 18. Automobiles in War. Automobiles are to be used as army transport wagons. Trial experiments in France have proved convincing. It is odd to note the different uses to which nature and science are put. On the battlefield they fight for the destruction of life, while throughout the country they strive to give comfort to one of nature's most sensitive beings, fights to preserve it. For fifty years the Bitters has been making strong stomachs and curing dyspepsia, indigestion, constipation and biliousness. In the spring when the system is usually run down this wonderful remedy will be helpful in restoring your health and strength. It will also prevent malaria, fever and ague and as an appetizer it is unequalled. See that our private revenue stamp is over the neck of the bottle. Improvements for Athlona. J. W. Kimbrell has returned from Athlona, where he went for the purpose of laying out on Main street, and to establish the grade of Main street from the O. R. & N. railroad track east to T. J. Kirk's place in the east edge of town. He says Athlona is going to improve Main street, and for that purpose has purchased a rock crusher. The grade as established will be a great improvement over the street as it is at present. The putting on of a layer of crushed rock, it is thought, will be much more satisfactory than covering the street with round pebbles, which will never pack and which will have to be renewed frequently. Postmaster Fell Improving. Postmaster G. E. Fell has been confined to his bed for the past two weeks with rheumatic fever. He is at the home of his son, Theron E. Fell. He is slowly improving, but it will be a week yet before he will be able to be out. This is the first time in his life that he has been so sick that he had to go to bed, and it is thought that otherwise his throat was sore and inflamed for several days so he could scarcely swallow, but that feature of the disease has disappeared. Uncle Sam Has Riches Many. Gold Holdings Largest in the World Today. New York, April 18.—The Evening Post today says: Today's summary of the United States treasury report of government aggregate gold holdings for the first time in its history have passed the half billion dollar mark. The exact total was \$500,275,500. This is the largest amount of gold now held by any single financial institution in the world, and it is the largest ever held by any institution with one exception—the Imperial bank of Russia—which in February,

ATHENA L. & P. COMPANY

The Promoters Meet Wednesday Interviewing Pendleton People. Joseph France, of Walla Walla, and Lake France, of Athlona, promoters of the Athena Light & Power company, spent Wednesday in Pendleton, together with a representative of a New York firm of capitalists, interviewing a number of persons who use steam, water, electricity, power, etc., in regard to supplying such power from the plant of the company which it is proposed to establish on the Walla Walla river directly east of Athlona. Pendleton would have to increase its use of power by adding manufacturing industries, in order to make it profitable for the company to transmit its power here. The gentlemen who are handling the proposition are confident that arrangements can be made that will make it satisfactory to both sides, and that the plant will be installed this summer. JOY FOR THE HORSE RUSTLER. Opening of the Linton Cannery Cannery Again Pleases Them. 'The news that the horse canning establishment in Oregon has decided to resume operations will be read with joy by a certain class of people in this section—if they ever read a newspaper,' said a Boise stock man the other day. 'I think stock rustlers found the cannery a rather safe repository at times for stolen horses. While we have not been able to secure absolute proof, we feel satisfied many a stolen Idaho horse found its way into the cannery shortly after several hundreds of rustlers operating in Idaho and Oregon. Idaho horses were run into Idaho and Oregon horses were run into Idaho and, by a series of well covered movements, taken out of the state. During the time horses were something of a drug on the market we believe many of them were sold to the Oregon cannery, the owners of which would find no suspicious circumstances in the presentation of the animals there for sale. It was owing to the fact that horses at that time were so cheap that money was not raised to make an investigation.' The news that the cannery would resume at a time when horses were in demand, bringing very good prices, proved something of a surprise to local stock men.

EXPLOSION AT VANCOUVER

Steamer Boiler Blows Up—Four Persons Were Injured. Vancouver, B. C. April 18.—By the explosion of a boiler on the afternoon steamer Ramona this afternoon six persons were killed outright and six others seriously injured. The dead include two women who were passengers on the steamer and two deck hands. Of the injured, the purser and mate will probably die. The dead are: Mrs. H. Morrison, of Fort Langley, B. C. Mrs. Bailly, of Mount Lachman, B. C. John Mack, deck hand. Henry Phillips, deck hand. The injured are: Richard Power, purser, probably fatally injured; James Maynard, mate, probably injured; George Knowell, fireman, badly burned; three Indians seriously injured. The boiler explosion occurred in midstream while the steamer was en route from New Westminster to Fort Langley, the latter being a farming settlement about 25 miles from this city. Theological Seminary in Portland. Portland, April 18.—Dr. L. E. Rockwell, presiding elder of the Methodist church of the Portland district, has plans for the establishment of a theological school at Portland, in connection with a school at adjunct of the Willamette university. 'We are going to hold a great educational convention at the Willamette university to promote the growth and interest of that institution in June. The theological project will be brought up at that time.'

RAIN STOPPED BARRIB

Chicago, April 18.—The National League ball season was scheduled to open today in New York, Cincinnati and St. Louis, but rain wet the grounds and all three cities stopped operations.

A MURDER AND SUICIDE

Chicago, April 18.—G. H. Sweeney, a prominent citizen of Greenville, Ky., this morning entered the apartments of his wife in the fashionable 'Continental' hotel and killed her, and then committed suicide. They quarreled some time ago over a sum of money. The wife entered suit for divorce and came to Chicago.

RAIN STOPPED BARRIB

Chicago, April 18.—The National League ball season was scheduled to open today in New York, Cincinnati and St. Louis, but rain wet the grounds and all three cities stopped operations.

BAD COLDS

Quinine is ten years behind. Colds do not last long as in former times. MENDEL'S DYNAMIC TABLETS (colloid-dynamic form) instantly crowd a week's ordinary treatment into twelve hours and sweep the world of colds out of sight. 'It was the worst case of grip I ever had. A half dozen friends had sore throats. Still it hung on. They stepped back and coughed the first night. I reached and recommended them to the present MENDEL'S DYNAMIC TABLETS. They were gone in an hour. I took a couple of days. Nothing else does this for me.' H. L. VAN WINKLE, Cashier, 2017 Washington Street, San Francisco, August 10, 1900. 'I live across the street from where MENDEL'S DYNAMIC TABLETS are made. That is how I first took them. They stop colds without effort. I took a dozen, leaves with me for self and friends when I went to Napa. H. L. VAN WINKLE, Cashier, 2017 Washington Street, San Francisco, August 10, 1900. Send postal for 25 cents in stamps by INLAND DRUG CO., 2017 Washington Street, San Francisco. Also can be had by our local agent, KOPPEL'S PHARMACY.
