CUBANS WILL BE VERY WELL FED

Commissioners Coming to Visit in Washington.

THEY DEMAND FREEDOM FOR CUBA

Say Anything Else Will Engender Distrust Between That Country and the United States. Jacksonville, Fla., April 23.—The Cuban commissioners, who arrived last night from Miami and Havana, left at 10:20 o'clock this morning for Washington. While they were somewhat reticent, they plainly showed their hostility to the United States and the Platt amendment.

General Portuondo, when interviewed, said: "Ninety-nine per cent of the Cuban people desire absolute independence. It is their wish that the military occupation of Cuba come to an end immediately."

"These Spaniards who favor annexation are not impelled by any love for the United States. They hate the Americans, but they seem to wish some sort of guaranty as to their property and business interests."

"Peace with Americans without the independence of Cuba is impossible. I mean a moral peace. I don't mean to say that, in the event independence is not granted, war or revolution would follow; but, that there would be no sympathy, no friendliness, between the two peoples."

"We would not desire free trade, if independence were established. When asked what is thought of General Wood in Cuba, Portuondo said: "Gen. Wood is a man who will make any kind of promise, but he is not regarded as one who carries out those promises."

COMMISSIONERS TO BE ENTERTAINED

Washington, April 23.—The cabinet today discussed the coming of the Cuban commissioners, and decided to make their visit as pleasant and interesting as possible. The president said he would give them a dinner in the state dining room of the White House on Thursday evening, and the various secretaries pledged their word to do all in their power to entertain the visitors.

HARRISON TO BE VINDICATED

President Will Remove Stigma From His Name. Chicago, April 23.—A special to the American says: "Bunker's name will be cleared of military stigma by act of President McKinley, who will appoint him, first, a major of volunteers, then to similar rank in the regular army. All volunteer commissions expire June 30, and then the late president's son will be made a regular army major. The first appointment will doubtless be made before the president starts on his trip to the Pacific coast."

Major Harrison was summarily relieved of command and mustered out of the army. It was supposed some charges had been made against him, but he was unable to find any record of them. He was informed later that he was accused of "lack of tact," an offense not included in the American army code.

Before his death ex-President Harrison wrote a letter to the publisher in which he made it clear that, in his judgment, the military reputation of the Harrison family had been smirched. A Washington attorney has in his possession papers prepared by General Harrison with a view to compelling the war department officials to clear up the mystery surrounding the matter.
