### THE VANCOUVER TRAGEDY.

The suicide of President Brown and Cashier Canby, of the Vancouver First National bank, on Sunday last, carries with it a lesson valuable just now. These men were moved to commit the act of self-destruction because the banking institution of which Mr. Brown was the head and Mr. Canby the executive officer had become involved after the depression came in.

Perhaps they would have been derelict had not the boom and the inevitable depression occurred. But it is reasonably certain that the occasion for the dereliction was the boom, when people lost all mental balance and plunged recklessly into the excitement of the period, risking their all on the rising of values that never rose, and involving the bankers in irretrievable ruin.

Nowadays appear the signs of a boom movement in the larger industries that will sooner or later bring on the resultant crash, when values will fall, and that which looked on paper like a colossal fortune will fade away like a dream of the night. Last week and on Monday of this week the dealings in speculative stocks on the New York exchange were enormous. Brokers rushed hither and thither, acted like insane demons, and carried out the orders of their principals as the mad wave of stock gambling swept over the floor.

These exciting times have been of frequent occurrence of late, and it is apparent that they will recur with great frequency hereafter.

However, unless the laws of commerce have been amended, unless stimulation no longer brings the consequent reaction, unless the history of all previous speculation crazes is no criterion by which to judge this one, the tide will turn, and the result will be great losses and the falling of many houses.

Then will be heard the pistol shots of the suicides who have lost in the stock gambling game, and who are dependent over the reverse of their fortunes.

Apparently, man is born with the love for gambling in his very nature. But happy is he who curbs this natural propensity, and sad the lot of the man who permits it to gain a firm hold upon his life. For, stock gambling, speculation and the game of cards played for money are all of the same class.

### SLAVERY OF CHINESE GIRLS.

Commendable, indeed, are the efforts that are now being made to eradicate the curse of an illicit traffic in Chinese girls in San Francisco. Most persons will learn with surprise that this system is firmly established; that men of Mongolian lineage ply a regular trade in the young women, and that they are fully as firmly bound in the shackles of slavery as were the slaves of the South before Abraham Lincoln proclaimed them free.

The press dispatches tell us that, in the first proceedings in San Francisco, nearly a score of the girls were arrested in the brothels, and held under \$3000 bonds. Inasmuch as the owners valued them at only \$1000 each, the proposition is that they will never be bailed out by their owners, and will therefore remain in the hands of the law, to be used as it may be thought best.

five tariff and street railway franchise to accumulate millions, Mr. Johnson condemned them because they fished from the many to aggrandize the few.

Now he proposes to use his millions to destroy the pernicious systems by which they were acquired. Great and praiseworthy as is the work which Mr. Carnegie is doing for humanity in founding free public libraries, Mr. Johnson plans a still greater work. If his mission succeeds, men generally, instead of depending upon others for library facilities, will be able to supply libraries for themselves. Mr. Carnegie's attempt to dissipate ignorance is admirable. Mr. Johnson's purpose to abolish injustice is grand.—DuBoque Telegraph.

### THE FRANCHISE TAX.

A few days ago, in commenting on Gen. Groves's suggestion of an income tax as the way out of a corner into which the republican party is getting as a result of its extravagance and the threatened failure of Dingleyism, we expressed the conviction that already the forces of privilege were preparing to meet an issue which they see to be rising above the political horizon. The predatory class would prefer to give up a portion of its plunder rather than to quit plundering. It is therefore turning to an income tax as the readiest means of avoiding the revolutionary peril of the single tax; and that this thing is in the minds of many of the more far-sighted beneficiaries of privilege is made manifest in various speeches and writings. Here, for example, is President M. E. Ingalls of the Big Four system.

"Mr. Ingalls was formerly a member of the democratic party, leaving it when it became really democratic. He has been a strenuous supporter of Maj. McKinley and of 'national honor' and of 'sound' money and of plutocratic ideas in general. But, observing the signs of the times as thrown upon the canvas of events by recent elections in Ohio and elsewhere, he tells the Knife and Fork club at Kansas City that he is in favor not only of an income tax but of a tax on franchises. In part he said:

"We are just learning, that a franchise tax is the easiest collected of any and is probably one of the fairest ways of raising revenue. Of course those who manage corporations will object, as everybody does, to paying taxes, but nevertheless it is right and proper. Those that have had the protection of the state should bear their share of its burdens.

"I have always believed in an income tax and have thought that the decision of our supreme court against the constitutionality of such a tax was one of the most unfortunate occurrences of the age. We should have a tax on all incomes, large or small, exempting a moderate amount, as most of the states exempt a certain amount of property from excise and levy. This country is so rich that with a fair system of taxation and economy in expenditure the tax rate will be so low that it will not be oppressive, and thus you will encourage and protect your small property holders."—Johnstown Democrat.

### New Use for Electricity.

A professor recently discovered that electricity is a stimulant for the brain. We do not wish to dispute the merits of this discovery but are inclined to think that the only natural stimulant for the brain is sleep. If you are not able to sleep you are certainly in a bad way. It is usually caused by the stomach being out of order, the disturbance being communicated to the brain. Keep the stomach in good condition by the use of Hostetter's Stomach Bitters and you will have insomnia no longer. It is a splendid medicine for strengthening the nerves and will cure dyspepsia, indigestion, constipation and biliousness. As a spring tonic it has no equal. See that our private revenue stamp is over the neck of the bottle.

## From a G. A. R. Man

"My attack of miller's Asthma was very bad. I was afraid to be down at night for fear of smothering. I couldn't get my breath. No matter if all the doors and windows in the house were open it seemed as if there was no air and that I must surely smother to death. Mr. W. B. Long, of this city, called my attention to Ackler's English Remedy for Coughs, Croup, and Lung Troubles. I thought little of it but bought a bottle in the hopes that it might help me a little. It gave me wonderful relief and in a few days the cough was completely cured. My recovery is permanent, too, for ever since I have had the use of the rest of my old enemy. I consider Ackler's English Remedy by long odds the best medicine in the world for hacking coughs, asthma and bronchitis. It completely masters those stubborn diseases that many people wrongly suppose to be incurable. If sufferers will just try a single bottle, it will prove every word I have said, and more too."—John D. Elliott, Commander John Megarath Post, No. 132, Portland, Mich.

Sold at 25c, 50c and \$1 a bottle, throughout the United States, Canada, and in England, at 2s, 2s 3d, 4s, 6d. If you are satisfied after buying, return the bottle to your druggist, and get your money back. W. B. BOOKER & Co., Proprietors, New York. Sold by Brock & McComb, Pendleton, Ore. Telephone 72.

### HERPICIDE HAIR LIKE THIS

It is easily obtainable through the use of Newcomb's Herpicide, the only preparation on the market that reaches and attacks the root of the hair. It causes the hair to fall out and prevents it from growing again. It is the most perfect hair restorative yet discovered. It is a non-toxic preparation and is safe for use on the scalp. It is the only preparation that will cure itching, dandruff and falling hair. It is the most perfect hair restorative yet discovered. It is a non-toxic preparation and is safe for use on the scalp. It is the only preparation that will cure itching, dandruff and falling hair.
