Hint at a Scheme to Murder Monarchs.

WAS AFTER CHARLES, OF PORTUGAL

The Man Confessed to His Intentions When Arrested at Bucharest While Making the Attempt. Bucharest, April 25.-A man named Sava Petroff has been arrested here for trying to force an entrance to the royal palace. Petroff stated that his object was to kill King Charles. It is thought that he may be connected with a general scheme to assassinate all the European sovereigns.

SCHWAB'S QUEER ACTION

Said to Have Refused One Million a Year. Pittsburg, April 25.-The formation of the United States steel corporation has given rise to various wild rumors regarding the size of the salaries to be paid officials of the big concern. While Charles M. Schwab, president of the combine, was in New York a week or so ago it was heralded throughout the country that he was to be paid \$1,000,000 a year for being the official head of the steel trust. The announcement naturally created comment in all quarters, as the salary was the largest ever tendered any man by a business concern. The yarn was but a Twentieth century fable. The salary of the president of the United States steel corporation is \$100,000 per year. This information emanates from a former official of the Carnegie Steel company now identified with the Morgan steel combine. The statement is made that the latter sum was the most that Mr. Schwab was willing to accept as head of the new concern. It is intimated that more was offered, but Mr. Schwab, with all modesty, is said to have declared that no matter what a man's ability might or might not be, he should not accept a fabulous compensation for his services just because it was tendered him. He is reputed to have remarked that it would be an extremely bad business stroke to accept \$1,000,000 a year, and that he could not do so conscientiously. Mr. Schwab is at present making his home at the Waldorf-Astoria in New York, where his suite of rooms, it is asserted, is costing him \$250 a day, which is at the rate of over \$90,000 a year. If this be true-and it is much more likely to be true than the million dollar story-he would, according to these figures, have but \$10,000 a year pin money out of his annual pay in his new position, all of which would go to show that he values the honor conferred on him by the steel men probably more than he does the compensation of his new job.

THE RIVAL STEEL COMPANY

Canadian Concern That Will Fight Billion-Dollar Trust. Detroit, Mich., April 25.-Regarding the International Steel, Iron and Pipe company, which will locate immense steel mills at Sault Ste Marie on both the Canadian and United States sides of the Soo canal, with a capacity of \$80,000 tons annually and employing about 10,000 men, it is said that the consolidated Lake Superior Power company, of which Mr. Clergue is vice president, it is understood, will take a large block of the \$50,000,000 stock of the new company. As an outcome of the establishing of the steel works at the Soo, it is said that a blast furnace will be established in Detroit with a capacity of 1000 tons of pig iron per day, employing 1000 men. It was intimated by those interested that the new company would be an active competitor of the recently formed steel combination in the United States. The plant will be operated in connection with the great power canal being constructed at the Canadian Soo by F. H. Clergue and his associates of the Soo Power corporation. Financed in Liverpool. The financing of the project is in the hands of Alfred R. Harvey of Liverpool, a well known English promoter, who has enlisted American, English and Canadian capital to the desired amount. When asked how soon it was expected to have the plant in operation, Mr. Harvey said: "Well, an enormous project like this takes much time. "However, we are so far advanced that part of the mill will be running inside of six months, and the entire plant within a year and a half. Then we shall employ 10,000 men at least. It is our intention to have mills on both sides of the Sault river; in the United States and Canada. "We have the advantage of the latest patents and much of our best machinery has been ordered and is either building or ready for shipment in England. We will have the most complete plant in the world, and from the ore which comes to us from the Lake Superior mines we will turn out castings, rails, structural and bridge iron and everything finished and ready for use. "The power which we will get from the Soo Power canal will make a great saving in the cost of the product and we will also save materially in shipping the ore, as the water supply is very short. For this we will build all of our own docks and unloading derricks and apparatus for the speedy and economical handling of the ore."

THE BURLINGTON DEAL

Outline of the Plan is Officially Given Out. Boston, April 25.-The first official statement regarding the Burlington deal was made today after a special meeting of the directors. It says that the proposition has been received for the purchase of all or any part not less

than two-thirds of the stock at \$200 per share, payable in joint 4 per cent bonds of the Great Northern and Northern Pacific railways, with the option of part payment in cash.

THE NEW YORK MARKET

Reported by I. L. Ray & Co., Pendleton. Chicago Board of Trade and New York Stock Exchange Brokers. New York, April 25.-The wheat market continued strong today, and, while top prices were not maintained, the close was 5-8c over yesterday. Liverpool closed 1-8 higher, 5-10. New York opened 1/2c higher, 79 7-8 and sold between 79 7-8 and 80 3-8, closing 80c bid. The grain markets are all strong, and promise to go higher. Stocks strong. Money, 4 per cent. Exchange Excited Over U. P. New York, April 25.-The Stock Exchange again was the scene of wild excitement this morning. Union Pacific was the storm center, on reports of a three cornered fight between the Rockefellers, Vanderbilts and J. J. Hill for control. The price ran up to 110, but the gain was lost by noon on a semi-official statement that no deals are contemplated. Dealings in stocks are enormous. Corn Goes to 49. Chicago, April 25.-Corn shorts came in out of the wet today, and surrendered to Corn King Phillips at a million of short at 48 1/2. The price ran up to 49, Phillips unloading to relieve the tension.

WAS A BOGUS REPRIEVE

An Attempt to Save "Black Jack" Ketchum From Hanging. Santa Fe, N. M., April 25.-The alleged reprieve sent from here to the sheriff of Union county, who has charge of "Black Jack" Ketchum, scheduled to be hanged in Clayton, is a forgery. No word has been received here this morning concerning the proposition to lynch Ketchum. A Texas Fire. Dallas, Texas, April 25.-Fire destroyed the opera house here at 3 o'clock this morning. The loss is \$100,000. On the Road to Mandalay. Calcutta, April 25.-A sirocco struck Mandalay, the chief city of Burmah, killing twelve people. The following floods did great damage to property.

A PAIR OF TIMID LOVERS

Went to Walla Walla From Milton and Got Married. From Umatilla county, Oregon, there came this morning a timid pair of lovers, who notwithstanding the fact that both had attained the age of discretion, wanted to get married without having anybody know anything about it, says the Walla Walla Statesman. Up at the auditor's office is a youth who delights in furthering the device of Cupid, and not knowing how soon he might be in the same predicament, he promptly agreed to suppress the names of J. Wilder and Essie Kinney, the would-be bride and groom. He assured them that there would be no danger of any one finding out anything about the proposed nuptials, and they went to the Palace hotel, where they were married. The couple are from Milton, Oregon. Until a late hour this afternoon no irate parents had arrived from across the state line, hence it is supposed their desire to keep the wedding secret was prompted by their inherent bashfulness and not from fear of parental opposition. Mr. and Mrs. Wilder will go home tomorrow and tell the old folks all about it.

ANOTHER BICYCLE STOLEN

\$50 Reward Offered by Wheelmen. Causes Some Activity. Frank Moulie left his bicycle in front of the opera house about 8 o'clock Tuesday evening, and at 10 o'clock the wheel was missing. It was found in the W. & C. R. freight yards on Wednesday morning by Frank Day and returned to Mr. Moulie. Both tires had been taken, likewise the chain. The \$50 reward for the arrest of the culprit is causing activity in amateur detective circles. Fifty wheelmen, of whom Mr. Moulie is one, put up \$1 each two weeks ago for the arrest of bicycle thieves, and this is the first offense since then.

CUBANS SEE THE PRESIDENT

Met Him Today in the White House.

CORRESPONDENTS WERE EXCLUDED

Senator Platt Tonight Will Politely Inform Them That the United States Will Enforce Its Wishes. Washington, April 25.-Shortly before 11 o'clock this morning, the Cuban commissioners were driven to the war department, accompanied by General Wood, and there introduced to Secretary Root. After a brief interview they were conducted to the White House for formal presentation to and conference with the president. The commissioners will be lined to-night at the White House and will be told in polite phraseology by Senator Platt that the senate meant what it said in passing the amendment which bears his name. The president will assume them of the benevolent interest this government takes in the political future of Cuba and that the great ambition of the United States is to safeguard that independence which will surely be theirs so soon as they assent to the plans outlined by congress. Among other guests tonight will be Senators Morgan, Daniel and Cockrell. Introduced to President. General Wood introduced the commissioners to the president in the Blue room. Correspondents who accompanied the commissioners were excluded, also the representatives of the American press. The audience lasted just twenty-five minutes. Another Philippine Surrender. Manila, April 25.-General Morales, another prominent Filipino, has surrendered with a few of his followers. He gave himself up to the Americans after he had been beaten in a fight in Bulacan province. Prolific Egg Laying. Dallas has a Record Breaker in the Shape of a Hen. The trust editor of the Dallas Chronicle gives out the following: "A. P. Ferguson, of this city, has an old hen that has just made a new record in the egg-producing business by laying three perfectly natural, full-sized, hardshelled eggs within the space of forty minutes of time. This happened one day last week when "Old Rheumatiz," as the Ferguson children call her, had been shut off for a week or more in a lot by herself because she had been sick. When "Old Rheumatiz" was heard to cackle the children knew something had happened, and going to a box in the inclosure, out of which "Old Rheumatiz" has just emerged, he found a fresh, warm egg. In a minute or two "Old Rheumatiz" was back on the nest, and in due time she announced the arrival of a second egg, to be followed by a third, all arriving well within the time mentioned. The hen belongs to a flock recently given by Bill Robinson, of Nansene, in which was one hen that every few days, during the laying season, used to lay two eggs a day for two or three days in succession. All this is vouched for by the Fergusons, who vow that every word of it is true."

THE "NORTH COAST LIMITED"

Will resume service on Sunday, May 9, 1901. The train will be even better than it was in 1900. It will be a complete home on wheels, parlor, dining room, sleeping room, library, smoking room, and bath room-they will all be there, and all lighted by electricity and heated by steam. First and second class tickets both good on this train. Use this crack train of the northwest on your way to the Pan-American exposition, Buffalo, N. Y. You can go either by way of St. Paul and Chicago, or Duluth and the Great Lakes. Inquire of any Northern Pacific agent as to further particulars, or write to: A. D. CHARLTON, Assistant Gen'l. Passenger Agent, Portland, Ore.

Chandler vs. Hurlbut

James H. Hurlbut and W. M. Pierce returned Wednesday night from La Grande, where they had been acting as counsel in the case of Chandler vs. Pierce on trial before E. W. Bartlett, register of the land office. The land in dispute is on the Meadows, near Echo and was taken up by the contestant under the desert lands act. The testimony of 40 witnesses, 20 on each side, was taken. The testimony is now being transcribed by Miss Coon and Walter Seackhamer, the stenographers. The case occupied eight days in trial, but it will be much longer than that before a decision is reached.
