VAN HORNE'S CUBAN ROAD

He Will Develop the Island's Resources
Through It.
Washington, April 26.—Sir William
Van Horne during the next year ex-
pects to lay 400 miles of railroad track
in Cuba between Santiago and the Port
of Nipe in the province of Santa Clara,
through the center of the island, and
connect at the City of Santa Clara
with the western system of railroads
in the island.
"This railroad is only one step in
our enterprise," said Sir William Van
Horne, "which is intended more for
the development of the natural re-
sources of Cuba than to furnish trans-
portation. In other words, the railroad
is merely a means to an end. We could
not carry out our other plans without
transportation facilities, hence the
railroad was the first necessary step.
We have purchased vast tracts of land
in the central and eastern provinces
of the island, including forests, pas-
tures and first-class agricultural land.
We propose to settle colonies upon it,
giving the preference to the best men
in our construction gangs. We shall
cut up the agricultural land into small
farms and assist people in their cul-
tivation. We shall also assist in the
establishment of ranches and the in-
troduction of high-bred cattle."

A TERRIBLE
EXPLOSION
IN PRUSSIA

Killed and Wounded Number
a Hundred and Fifty

EIGHTY BODIES HAVE BEEN FOUND

Fears of Further Calamities Cause People
to Flee From Griesheim to Frank-
furt for Safety.

Frankfort, April 26.—Eighty bodies
have already been recovered from the
ruins of the explosion and fire at
Griesheim near this city. It is believed
that more bodies will be found. The
work of searching and clearing away
the debris is going forward rapidly.
Troops guard the ruins.
At least one hundred and fifty per-
sons were killed or wounded by the
several explosions and in the fire fol-
lowing. Many are missing and large
crowds surround the works today
watching for signs of dead ones. Most
of the dead are too badly mutilated
and blackened to be identified.
A message from Griesheim at noon
stated that danger of further ex-
plosions was not yet averted. Every-
body in the neighborhood is fleeing to
Frankfort.
Further explosions at Griesheim are
imminent. Firemen, soldiers and
persons near the scene have been
withdrawn. A huge tank of benzine
has exploded.
At 1 o'clock the reservoir containing
half a million gallons of lighter benzine
had not exploded. Several women and
children were trampled under foot in
the panic-stricken flight.
Says Reports Exaggerated.
Berlin, April 26.—A Frankfort dis-
patch states that the loss of life at
Griesheim has been exaggerated, and
places it at twenty-five killed, instan-
tly, 35 injured, and one hundred and
fifty slightly injured.

THE STITCHED HEART STOPS

Surgical Operation in St. Louis Was a
Failure.

St. Louis, April 26.—Phillip Gunn,
22, whose heart wound was stitched by
Dr. Nietert at the City Hospital Satur-
day night, died this morning at 3:50
o'clock.
Gunn, a porter for the A. F.
Shapleigh Hardware company, lived at
1114 North Tenth street, and claimed
he was stabbed by John O'Hearn in a
fight at Eighth and Carr streets, where
he was found in a dead faint Saturday
night. At the hospital Gunn was put
upon the operating table and a section
of his breastbone sawed out and his
heart exposed. Three stitches were
taken between heart beats, after which
the outer covering of the heart and
finally the skin were stitched closely.
The section of the breastbone removed
could not be replaced.
All day yesterday the man with the
stitched heart was kept under the in-
fluence of morphia and watched
closely. Dr. Nietert considered it re-
markable that he lived as long as he
did. There are only a few similar
cases on record. As a rule death occurs
within a few minutes after the heart
is even touched by a foreign substance.
Gunn regained his senses after the
operation, spoke clearly and identified
his assailant. It was thought his
chances for recovery were good.
