**"I did not sleep a night for seven long weeks."**

That prolonged period of sleeplessness is most expressive of the pain and suffering caused by womanly diseases. It is pleasant to contrast the medical inefficiency which said "I could not be cured" with the prompt and permanent cure effected by the use of Doctor Pierce's Favorite Prescription. This great medicine for women establishes regularity, drives out the impurities, and cures inflammation and ulceration and cures female weakness.

"I take great pleasure in recommending Dr. Pierce's Favorite Prescription to all other suffering women," writes Mrs. Mary Adams, of Grandprairie, A. B. Co., N. C. "I had internal trouble very badly and it resulted in miscarriage of the uterus. I was troubled with it as long as I lived. I did not sleep a night for seven long weeks. The doctor said I could not be cured, but I commenced taking Dr. Pierce's Favorite Prescription and Pleasant Pellets. After taking two bottles, I could sleep all night, and after taking six bottles of 'Favorite Prescription' and two of 'Pleasant Pellets' my case was cured. I had told my husband that I would have to die, if I could not live. He told me to just faith in Dr. Pierce's medicine, for it had cured others and would cure me. It did, and I thank God and your medicine for saving my life."

Dr. Pierce's Common Sense Medical Adviser, 1008 large pages, is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the book in cloth binding, or only 21 stamps for the paper covered volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

## MAY CORN TOOK A TUMBLE FROM THE HIGH POINT

Phillips Sent it Up to 58 Today.

### THEN THE SHORTS HAMMERED IT

Down to 55 1/2—Chicago Board of Trade Was a Scene of Frenzy and Mad Excitement.

Chicago, May 3.—Not since the days of the "Old Hutch" operations on the Board of Trade has there been so much excitement as that which swept over the floor when trading began this morning. The corn pit was filled with a howling, frenzied mob, and the shorts acted like madmen in their efforts to cover. Wild bidding for May corn characterized the opening, and, before the session was half an hour old, the price was like a sky rocket. It went to 58, an advance of 4 1/2 cents over last night's close. Phillips was still master of the situation, and ruled the market with an iron hand, refusing to dispose of a single bushel.

Shorts Hammered it Down. The persistent hammering by the shorts forced a decline, and, at noon, the price had dropped to 53 1/2.

Another slump set in near the close and the final price was 55 1/2.

### A 5-YEAR-OLD FOUND DEAD

Little Girl at Prosser, Wash., Who Was Lost.

Prosser, Wash., May 3.—The little 5-year-old daughter of W. B. Mathews, ex-county commissioner, who was lost in the Horse Heaven plains about a week ago while hunting cattle with her 7-year-old brother, was found dead on Thursday 17 miles from her home near Lone Springs. The whole community turned out as soon as the news that she was lost was spread until today from 20 to 50 men on horseback have been searching the surrounding country.

She was barefooted and had gathered grasses and put around her feet. Because her lay a bunch of flowers which she had apparently been eating. From indications she had been dead 36 hours, leaving her five days of wandering without food or water. It is evident that her death was the result of lack of food. There are no inhabitants near the place where the child was found, and it is supposed that she searched in vain for some one to give her assistance.

The people of this section are greatly shocked at the tragedy but no one feels to blame from the fact that everything possible was done to locate the child in time to save her life.

### STOLE OREGON'S EXHIBIT

F. R. Mellis Says California Has Done This at Buffalo.

In writing from Buffalo, F. R. Mellis said:

"California is making an elegant fruit display. While examining it the other day Mr. Dosh, who is superintendent of the Oregon exhibit, recognized in the California display his own collection from Oregon, which he loaned to the Southern Pacific railway for the Paris exposition. The man in charge of the California display denied it, whereupon Mr. Dosh turned the jars around and showed him the Oregon labels on the other side. I do not know how they will settle the matter."

In referring to the Oregon mineral exhibit Mr. Mellis said it would compare with that from any of the other states, so far as indications now point.

This is very gratifying for the small sum devoted by Oregon to the mineral display led many to think she would be completely over-shadowed. Idaho and Montana made special efforts to provide for the mineral exhibit, while Oregon treated it as incidental. If the Oregon display ranks so well, the people of Eastern Oregon will feel a certain degree of pardonable pride in taking the bull by the horns and working independent of the commission.

### Sawdust in Bear Creek.

### WALL STREETS MAD WHIRL

Banks Want to Stop the Wild Speculation to Prevent Crisis.

New York, May 3.—The mad whirl in Wall street shows no sign of abating today. The sales before noon were over 800,000 shares. St. Paul advanced 7 1/2, Missouri Pacific 4 1/2, B. & O., 4 1/2. The banks, so it is reiterated today, are making an effort to stop the speculative craze that is sweeping the country. They have advanced call money to 8 per cent, and will go further, if necessary, to bring the speculation within normal limits. They fear a crisis, if the speculative fever be allowed to continue.
