THE RACE
Does not depend on the start but on the finish. It's staying power which carries many a runner to victory. It's like that in business. Many a man starts off in the race for business success with a burst of speed which seems to assure victory. Presently he begins to falter and at last he falls and fails. The cause? Generally "stomach trouble." No man is stronger than his stomach. Business haste leads to careless and irregular eating. The stomach and other organs of digestion and nutrition become diseased. The body is inadequately nourished and so grows weak.
Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It strengthens the stomach and so strengthens the whole body which depends on the stomach for the nourishment from which strength is made.
There is no alcohol in "Golden Medical Discovery," and it is entirely free from opium, cocaine and all other narcotics. Accept no substitute for the "Discovery." There is no medicine "just as good" for diseases of the stomach and allied organs.
"Your 'Golden Medical Discovery' has performed a wonderful cure," writes Mr. H. H. House, of Charleston, Franklin Co., Ark. "I had the worst case of dyspepsia, the doctors say that they never saw. After trying several doctors and everything I could hear of, with no benefit, I tried Dr. Pierce's Golden Medical Discovery, and now I am cured."

THE CANAL TREATS MATTER
In the Indefinite Form Between Hay and Poncefote.
Washington, May 7.—It is learned from an authoritative source that before Secretary Hay left here for the west he had several conferences with Lord Poncefote relative to the basis for another Isthmian canal treaty and that an unofficial written memorandum also was submitted to Lord Poncefote on the subject. The ambassador has made known the general results of these conversations and of the memorandum to the authorities in London, and it is doubtless to this that allusion is made in London dispatches.
It is said, however, that the negotiations are so tentative and informal that they are not regarded as an official exchange or proposition. What they embody is not made known, though it is understood they are chiefly an exposition of the views held by the United States senators as to essential features which should be included in the treaty.

PERRY HEATH IS BOOMING MARK HANNA
Said in London the Senator is Good Timber FROM WHICH TO MAKE A PRESIDENT

Of the United States—Senator Hanna, When Asked in Washington, Refused to Discuss It Seriously.
New York, May 7.—A London dispatch quotes Perry Heath as saying that there is not a man in the republican party who could get the next presidential nomination so easily as Mark Hanna, and none who could be so easily elected. He says that he does not believe McKinley wants a third term.
Mr. Heath, who has filled an important office in the postoffice department, has been very close to the administration, and has been an especial political protegee of Mark Hanna. The politicians here are wondering whether or not this statement by Perry Heath is a part of a plan by Mr. Hanna to pave the way for a presidential nomination, and whether Mr. Heath spoke with the consent of Senator Hanna.
Senator Hanna Wouldn't Talk.
Washington, May 8.—Senator Hanna refused seriously to discuss the Heath interview. It created somewhat of a sensation at the capital, and is the topic of conversation today. In the absence of anything authentic from Senator Hanna, views leaning to both sides of the controversy are expressed, some asserting that the mere discussion of Senator Hanna's name in connection with the presidency will injure the republican party, while others think that Perry Heath has correctly gauged the situation.

It is one-half the members of the International union will contribute 25 cents each, the total will go a long way toward relieving present distress. We therefore appeal to our fellow craftsmen throughout the country to render such assistance as they may feel able to do.
