WORLD'S

WHEAT RAMAINS AT THE 47 1-2 FIGURE

Prices of All Things Produced or Consumed in the Northwestern

States. Pendleton, May 9 .- Local millers are paying 49 cents for club and red-chaff and 51 for bluestem. Not much has been bought as those figures, the advance to 50 cents for redchaff and club 10 days ago brought out about all there was for sale at anything close to those figures. Exporters are offering 4712 cents for wheat in the warehouse, but buyers and sellers are apart.

Local Produce Market.

Pendleton dealers are paying the following prices for ranch and farm pro-

Butter, 35 to 50c per roll. Eggs—15c per doz. Potatoes—90c per sack. Turkeys-Alive, 1216c per pound. Geese-\$12 per dozen. Ducks-\$4.50 per dozen. Chickens-\$3.50 to \$4.50 per dozen.

New cabbage, shipped in from Port-land, sells at 4 cents per pound. New potatoes are selling at 5 cents

Portland Wheat.

Portland, Or., May 9. - The commercial editor of the Oregonian says: The wheat market had a healthier one all round yesterday, both European and American markets showing a slight gain. Having covered their im mediate tonnage engagements, exporters are not so anxious for wheat as they were a short time ago, and in this market 60 cents continues to be about the best figure obtainable for Walla Walia. The wheat has been so thoroughly cleaned out of the country that there is very little offering and the business from now on to the end of bealth of the inhabitants of said city. the season will be of a hand-to-mouth and to the general benefit and wel nature. Freights continue quite firm on account of improved crop conditions asked the council to take such steps as in California. The amount of tonnage are necessary under the charter to listed for Portland is less than half as secure the approval or rejection of the great as it was on a corresponding date voters of said city to the proposition last year. The Commercial Review.

Portland, May 9.-The Commercial Review savs: Blue stem is quoted 51c, with holders firm and not inclined to sell. The weather during the last week has been favorable for growth and grain crops in general made rapid advancement, but warmer weather and more rain are needed to bring same to its usual state at this season of the year. Fall wheat and oats are in excellent condition, and have a good healthy color. There

are no complaints of damage from insect pests. Spring-sown grain is stooling well, and in some localities has appeared above the ground. In the valley, prospects are very good for a good crop, and reports from the principal wheat counties all speak encouragingly. In the Columbia river valley district, fall and spring grain is doing very well, and some rain is needed in I matilla county. Summer fallowing is all completed.

Flour—The flour trade is very dull.

especially that part that relates to foreign shipments, viz., U. K. or Orient. Reports from the Orient are that the market is still glutted, and stocks are worked off very slowly. Some small lots have been going to as that of Tacoma and Seattle, are all in a demoralized condition. Supplies are abundant, and nearly all the large mills have heavy stocks for sale at these points. Mills are all working on day runs, as the demand for mill offal is good and brings good prices, and stocking up flour made in their offal is good and brings good prices, and stocking up flour made in their warehouses. The stocks on hand here in the Northwest are the largest in the history of the trade. Some bids have been received by jobbers here for Orient shipment, but had to be turned down, as price was too low to entertain. Shipments to California from Mack, \$4.50; P. E. L. & P. Co., \$296; E.
