STRIKERS ARE VERY PEACEFUL

Many Men Are Out, But No Violence.

THE QUIETEST TIE-UP IN HISTORY

President of the Association Confident of Success—Conditions in San Francisco. Memorial to McKinley.

Washington, May 21.—President O'Connell said this morning that everything looked to an early arbitration of the machinists' strike.

During the morning, additional telegrams from various cities, announcing concessions to the men, were received. Thus far, it is claimed that the strike is the most orderly and the quietest in the history of organized labor in America.

Memorialized the President. San Francisco, May 21.—Seven thousand machinists walked out on the strike here yesterday.

The Labor Council at its meeting proposed arbitration scheme. While it admits in this statement that the labor millennium has not yet arrived, it says that through conciliatory measures and general discussions much may be accomplished.

The plan of the proposed convention is thus explained: The Labor Council at its meeting Friday night instructed the executive committee to call a convention composed of two members from each affiliated union and invite merchants, manufacturers and other public-spirited citizens to come and discuss matters now in dispute.

The committee was also instructed to interview some leading citizen to issue the call and open the convention. The scope of the convention is not to settle existing labor disputes, but to bring about a better understanding between employer and employes.

The incentive to the calling of this convention was given by the recent convention held in New York, where leading business men, prominent divines and representatives of organized labor met and brought employer and employe nearer together.

A number of men prominent in social, political and religious life have been suggested, but none seems willing to follow the action taken in New York.

Helpers' Union's Demands. The executive committee of the Boiler-makers' and Iron Shipbuilders' Helpers' Union, a part of the iron building trades, has submitted the following schedule of proposed wages in sympathy with the action taken by the machinists, from whom they receive their support.

Inexperienced men shall receive the sum of \$2 per day. Experienced men shall receive the sum of \$2.25 per day.

Helper going on as holder-on shall receive the sum of \$2.50 per day. Helper on flange wire to receive the sum of \$2.50 per day.

Nine hours shall constitute a day's work on the inside. Eight hours shall constitute a day's work on the outside.

All overtime shall be paid at the rate of double time on outside jobs and on inside work at the rate of time and a half.

No Change in Strike. San Francisco, May 21.—There is no change in the strike situation today.

THE NEW YORK MARKET

Reported by I. L. Ray & Co., Pendleton, Chicago Board of Trade and New York Stock Exchange Brokers.

New York, May 21.—The wheat market was strong today and the close was near the top price.

The export demand is having its influence and stocks of old wheat are rapidly diminishing. Three-fourths of the visible supply is held at these cities, viz., Chicago, Duluth and Minneapolis.

The Duluth wheat is sold awaiting shipment. Minneapolis will need what she has and more for the mills, and the Chicago wheat is moving out faster than ever known before.

3,000,000 bushels being moved during the past week. On Saturday last, New York had only 400,000 bushels in store.

St. Louis not much more, while Omaha and country elevators report their houses cleaned out, being the first time since 1890.

The Northwest spring wheat states are complaining of extreme dry weather, so it is not unlikely we may see wheat prices move as they did last June, when Chicago prices went up over twenty cents in as many days.

Wheat is certainly cheap around present prices. Stocks higher. Money, 5 per cent.

Wheat, New York: Closing yesterday, 78 1/2. Opening today, 78 3/4. Range today, 78 1/2 to 79 3/8.

Close today, 79 1/4. Wheat, Chicago: Closing yesterday, 72 5/8. Opening today, 72 1/2.

Range today, 72 1/4 to 73 1/2. Close today, 73 3/8. Stoks: Sugar, 147 1/2; tobacco, 120 3/4.

steel, 44 3/8; St. Paul, 161 1/2; Atchison, 77 5/8; N. P., 106 1/2; U. P., 103 1/2; Erie, 38 3/4.

New York Market. New York, May 21.—Sugar, raw, fair, refining, 3 1/4; centrifugals, 96 test, 4 3/8-3/4; refined, crushed, 60; powdered, 36 1/2; granulated, 55 1/2; coffee, Rio No. 7, 6 3/8-8; rice, domestic, 3 1/2 to 6 1/4; wool, unchanged.

THE BOERS ARE RAIDING Go Into Cape Colony Under Command of Dewet.

Middleburg, Cape Colony, May 21.—The Boers have begun another raid into Cape Colony. It is believed that General Dewet is in command.

The Boers are concentrating at Vurburg. Scouts report a force that numbers about one thousand and growing daily.

Dewet in Botha Pass Country. Pretoria, May 21.—Army officers claim that Dewet is not in Cape Colony, but is in the country near Botha's pass with four thousand men.

In this country the Boers have scored their greatest successes. This action was one of the persistent demands of his friends, who finally procured a congressional inquiry.

The committee ascertained that Porter never received the order that was sent, and that, had he received it, he could not have obeyed, inasmuch as a superior force was before him to impede progress to the point indicated.

The exonerated Porter was complete and re-established General Porter in the fair name he had previously possessed.

Some of his friends have alleged that Porter was persecuted because by so doing General George B. McClellan, his superior officer, would be discredited, and that General McClellan is as unjustly dealt with by history as was Gen. Porter up to the time he was cleared of all imputation of wrong doing.—Ed.

BOUPELL'S DEATH. Maine Congressmen and Naval Expert—Had Incurable Mental Trouble.

Waverly, Mass., May 21.—Former congressman, Charles A. Boupell, of Maine, died this afternoon at the Maine Sanitarium, in which institution he has been a patient for three years, suffering from an incurable mental trouble.

He was elected to the forty-eighth congress and to each succeeding one, including the fifty-sixth, when he was stricken. He served as chairman of the naval committee in the fifty-first, fifty-fourth, and fifty-fifth congresses.

He was born in Dainaire, Scots, Maine, on February 9, 1839. He adopted his father's profession of shipmaster, and was appointed acting master of the navy in 1862. He participated in the war of the rebellion until its close, and was discharged at his own request in 1865.

He became proprietor and editor of the Bangor Whig. In politics he was republican. A CHURCH REORGANIZATION New York Rumor Regarding the Protestant Episcopal.

New York, May 21.—A statement was made here today that there is a definite movement on foot in the Protestant Episcopal church to divide the United States into provinces, and establish over each province an archbishop as head of the church in sections.

From the archbishops it is planned to elect a metropolitan, who shall be the constitutional leader of the church in America.

THAT PLATT AMENDMENT Said to Be on the Program for Acceptance Today.

Havara, May 21.—It is generally expected that the constitutional convention which is in session today will publicly adopt the Platt amendment before adjournment.

On Sunday a secret ballot was taken, it is understood, which showed that only two members are holding out against the adoption of the amendment.

A tip is in in government circles that the convention will confirm this secret work today.

Admiral Schley Wept. New York, May 21.—Admiral Schley arrived today from Europe on the steamer Wilhelm der Groesse. Passengers say the admiral wept last night when he announced in a speech that he had made his last trip at sea.

Ranch it and rough it and you'll soon get rid of that weak chest and that hacking cough. That is what the doctor said to a young married man with a wife and child to care for.

People don't have to travel to cure coughs or strengthen weak lungs. Dr. Pierce's Golden Medical Discovery cures obstinate, deep-seated coughs, bronchitis, bleeding of the lungs, weakness, emaciation and other forms of disease which if neglected or unskillfully treated terminate fatally in consumption.

"I will write you what Dr. Pierce's Golden Medical Discovery has done for me," says George H. Fisher, Reg. of Boston, Pike County, Mo. "Thirteen years ago I was wounded by a ball passing through my lung. I have had but a cough almost ever since, with shortness of breath, and it was very easy to take cold; the slightest change of weather would cause the cough to be so bad I would have to sit up in bed all night. Could not eat or sleep at times; was coughing down; could not work at all. A few months ago I began using Dr. Pierce's Golden Medical Discovery. Have not used more than two bottles, and now can eat, sleep, and work, and I feel like a new man. I cannot find words to sufficiently recommend Dr. Pierce's Golden Medical Discovery, or tell the good it has done me."

Dr. Pierce's Common Sense Medical Adviser in paper covers is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. The book has 800 pages and over 700 illustrations. Address Dr. R. V. Pierce, Buffalo, N. Y.
