PRESBYTERIANS ARE DEBATING CREED REVISION
General Assembly Took Up the Question Today.
DR. DICKEY FOR THE RADICALS
Says Conservatives Are All the Same Meddlers—Dr. McKibben Supports the Minority Against Changes.
Philadelphia, May 23.—The revision debate in the Presbyterian general assembly began this morning. The debate is expected to be a protracted one. Before the debate began, the majority and minority reports of the revision committee were read.
Just before the debate began, a resolution was offered to the effect that the assembly, deeming it inexpedient at this time to act upon the motion for revision, indefinitely postpone the entire matter. The resolution was greeted with loud applause.
Dr. Dickey opened the debate for the majority report, and created a mild sensation by likening adherents to the ultra-conservative policy of dismissal of the subject to meddlers. He concluded by saying that all that is needed to change the creed is to dot a few 'I's' and cross a few 'T's.'
Dr. McKibben followed for the minority. He contended that the majority reports were nothing but a veiled demand for a new creed.

HE KILLED THE KING OF ITALY, THEN HIMSELF

Angela Bresci, Slayer of Humbert, Suicides.
CONFINED IN THE STEFANO PRISON
Tore His Shirt Into Strips to Make a Rope, Wrote Some Letters, Leaped Into Eternity.
Rome, May 23.—Angela Bresci, the slayer of King Humbert, suicided yesterday by strangling himself in his cell in the Santo Stefano prison. From statements made by his jailers, it appears that the anarchist's nerve soon collapsed under the strain of solitary confinement. Lately, he had been plunged into the deepest depression, and it was easy to see that his mind was giving away. Bresci was found dead on the floor of his cell. Strips from his shirt had been made into a rope. This he had twisted around his neck, and had thus strangled himself to death.
It was just a year ago that Bresci, who was a member of the Patterson, New Jersey, anarchist society, shot the king to death, as he was riding in his carriage through the streets of Rome.
Cell Hewn From Solid Rock.
The assassin was immediately arrested, found guilty, and sentenced to solitary imprisonment for life. He was confined in a coffin-shaped cell hewn out of solid rock beneath the prison walls. His food was bread and water passed through a narrow slit in the door. He was forbidden to talk to his jailers or even to himself. It had been stated that the prisoner was being subjected to all sorts of tortures, and the announcement made about a month ago, that there had been a mental breakdown, caused no surprise. Once before, Bresci tried to commit suicide, but was prevented by the guards.
Bresci Repented.
Bresci left letters declaring that he repented of his crime and could not survive the remorse he felt. Also, he left an account of the plot for King Humbert's assassination. During the last few days, Bresci had to be dressed by force. His mental condition had been very bad and his manner violent and excited. Among the letters left by him was one to his wife, another to the prime minister of Italy, and the third to King Victor.
Sensation in Patterson.
Patterson, N. J., May 23.—News of the suicide of Bresci created a sensation in the anarchist colony here. A majority of them declared that he did not die by his own hands.

WALLA WALLA CLERGYMAN HERE TO LOOK UP MATERIAL FOR A NEW CHURCH.

Walla Walla, May 23.—Rev. Andreas Bard spent yesterday in Pendleton where he went in the interests of St. Paul's parish relative to securing suitable stone for the construction of the new church in Cathlamet street. Mr. Bard left this city Tuesday afternoon on horseback and rode to Pendleton arriving in that city late in the evening.
For a time it has been the desire of those having the arrangements for the new church in hand to get a suitable supply of stone for use in the construction of the building. Rev. Bard yesterday telephoned to this city that he had found just what was wanted and all the stone desired, of excellent quality too, could be procured from the quarries near Pendleton at a nominal figure. It is thought Rev. Bard will return to this city today at which time the matter will be taken up by the members of the board.

AN IMPRISONED BRAVE.

Liberty, an Indian, Works on Athena Streets.
Athena, May 23.—Yesterday afternoon "Liberty," an Indian, got on a drunk and went to a camp below town and took possession of it. There was only a woman in charge, the men being up town, and she was cooking. Liberty with a bottle of whiskey in his hand ordered the cooking to cease, and proceeded to make himself comfortable. Marshal McDonald was notified and he went to the scene and hustled the intruder from the skookum house. This morning Justice Smith sentenced him to six and a quarter days at hard labor, and he is now handling dirt on the new Main street grade.
The smallpox scare in this city is now about a thing of the past. There has only been one new case reported this week and it was promptly quarantined. The children of Postmaster Gibbons are rapidly recovering as are all the other patients. It has in every instance been of a mild form, and has caused many opinions to be advanced the majority of which is that it is not smallpox, but all are at a loss to name it.

Swallowing

A sword is a trick not conducive to health or longevity. But it is not more injurious than the hasty swallowing of half masticated food washed down by gulps of ice water in summer or cups of hot coffee in winter. Hasty eating is the foe of health. Sooner or later it must result in indigestion or some other form of stomach disease.
For the cure of the diseases of the stomach and allied organs of digestion and nutrition, there is no medicine so effective as Doctor Pierce's Golden Medical Discovery. It always helps. It almost always cures.
Mrs. Mary E. Lewis, of Tanner, Gilmer Co., Va., writes: "I will always recommend Dr. Pierce's Golden Medical Discovery. 'Favorite Prescription' and 'Pleasant Pellets' for they cured me when doctors and other medicines failed. For fifteen years I suffered miserably. When I commenced taking Dr. Pierce's medicine, I had given up all hope of ever getting well. I could not lie down to sleep, and everything I ate would almost cramp me to death. Was very nervous and could hardly walk across the room. Only sought steady food when I commenced taking these medicines, and am having better health than ever before. My friends all say they heartily believe that I am the same person after being sick so long. I have taken fifteen bottles of the 'Discovery' fifteen of the 'Prescription' and fifteen of the 'Pellets'."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only, or if cloth binding is desired send 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.
