LOVE

Lives only in the present. Nature throws
a glamour around youth and maiden, so
that although they saw misery and mar-
riage walking hand in hand in every
home in the world, they would fondly
believe that they could marry and
defy misery.

Young women
should be taught
to prepare for mar-
riage. They should
understand how to
preserve their womanly
health through the func-
tional changes of
maternity. Doctor
Pierce's Favorite
Prescription is the
most effective medi-
cine for the pre-
servation of the
womanly health and
the cure of womanly
diseases. It regu-
lates the periods,
dries encumbering
drains, heals in-
flammation and
ulceration, and
cures female weak-
ness. It prepares
the womanly or-
ganism for maternity
and makes the
birth hour practically
painless.

Favorite Prescription contains no
alcohol, neither opium, cocaine, nor
other narcotic.

*My wife was afflicted with uterine trouble
for several years," writes Mr. J. C. Day of Little
Britain, Lancaster Co., Pa., "and in November,
she, the doctor said she had a miscarriage. He
treated her for about two months or so, but
there was but little improvement. I wrote you
after she had commenced to take Favorite Pre-
scription, and you told us to get Golden Med-
ical Discovery, and get out of bed and
begin to use Favorite Prescription, and seven
boxes of Favorite Prescription, and got out of bed
and was able to attend to her household work."

A SENSATIONAL
FIGHT WAGED IN
SOUTH CAROLINA

Senators Tillman and McLaurin
Principals.

THEY HAVE RESIGNED THEIR SEATS

Performed the Act in Hot Blood and
Their Friends Regret the Action
Exceedingly.

Washington, May 27.—The action of
Senators Tillman and McLaurin, in
resigning their seats and appealing to
the people for re-election in order to
settle the feud between them, is de-
plored by such of their colleagues as are
in the city. Without desiring to
criticize the personal conduct of the
two men, the opinion is freely ex-
pressed that they acted hastily and in
hot blood. If it were possible for the
resignations to be withdrawn the
friends here of both the men would
be glad, but it is realized that the
matter has gone so far that they must
fight it out to a finish.

PORTO RICO A TERRITORY

DECISION OF THE SUPREME COURT
AGAINST THE GOVERNMENT.

Territory Acquired by Treaty or Con-
quest Cannot Be Considered in Any
Sense Foreign.

Washington, May 27.—The decision
of the United States supreme court in
the insular cases is against the govern-
ment. The first case considered was
that of Delima vs. Bidwell, the collec-
tor of the port of New York. In this
case the court holds that the territory
acquired by the United States cannot
be considered domestic for one purpose
and foreign for another. The duties
heretofore collected under the Dingley
act, after ratification of the treaty of
Paris, upon goods coming from Porto
Rico into the United States, are illegal.

Justice Brown Read Opinion.
Justice Shiras, White and McKenna
dissented from the opinion of the ma-
jority of the court. Justice Brown read
the opinion. During the first part of
the reading it appeared that the govern-
ment side was being sustained and
bulletins to this effect were sent out
by many correspondents to their news-
papers. Later on however it became
clear that the government's claim was
completely defeated. In most pro-
nounced tones Justice Brown declared
that the territory acquired by treaty
or conquest could not be considered in
any sense foreign.

Porto Rico a Territory.

The court holds that Porto Rico be-
comes a territory under the treaty of
Paris, not simply territory but "a
territory". On this point it may be
found necessary to hold a special ses-
sion of congress.

Under the treaty of Paris Spain was
granted permission to export free of
duty to its former possessions coming
under jurisdiction of the United States
for ten years. This agreement, under
today's decision, will give Spain the
privilege of carrying her goods into
Porto Rico, and from that territory
they will be carried free into this
country, being practically a free ad-
mission of Spanish goods to any port
of the United States.

The Main Question.

The main question involved was
whether congress has the right to make
tariff laws for our insular possessions
under the opinion in the Downes case,
and the decision practically declares
that the constitution does not follow
the flag in the sense that all of the
provisions of the constitution apply
over our recently acquired insular
possessions the same as over the 45
states and territories of the union.

Goetz and Crossman Cases.

Washington, May 27.—The Goetz
and Crossman cases were also decided
against the government. The Goetz
case was exactly like the Delima case.
In the Crossman case, the duties were
collected on goods imported into the
United States from Hawaii, after an-
nexation and before the Hawaiian act
went into effect. The most important
ruling of the court was in the Downes
vs. Bidwell case. It sustained the
government's contention that the
duties collected on goods coming into
the United States from Porto Rico
after the Porto Rican act took effect
were constitutional. It sustains, in
other words, the right of congress to
pass tariff laws for Porto Rico, even
though Porto Rico be "a territory" of
the United States. This opinion holds
that our insular possessions are ter-
ritories pertaining to the United
States, but not a part of the United
States in the sense of the constitution
regarding duties.

Steamer Reported Wrecked.

steamer Kingburg, that left here

REVISIONISTS
HAVE WON
THE BATTLE

Presbyterians to Revise West-
minster Confession.

MAJORITY REPORT WAS ADOPTED

New York Gets the Next General Assem-
bly—A Committee on Revision
Was Appointed.

Philadelphia, May 27.—The revision-
ists win in the Presbyterian general
assembly. The majority report was
adopted this morning, and a committee
was appointed to change the creed.
The next assembly will be held in New
York.

Presbyterians Praise God.

*Two of the three recommendations
for the majority report were adopted
and a compromise substituted for the
third amendment. The matter was
settled by a viva voce vote, there
being few nays. After the vote the
members sang "Praise God from
Whom all Blessings Flow," and many
embraced each other.

MARION'S BIG PRUNE CROP

Will Be Heavy This Year—Other Pro-
ducts Promise Well.
Salem, May 27.—The Italian prune
crop was never so heavy as this season.
Petite prunes are thin in many or-
chards, but the crop will be all the
finer for that. The apple crop will be
short, as trees did not bloom heavily.
All kinds of pears and cherries were
never so prolific, and promise large
fields. Strawberries, across the board,
but the yield will be large. All grain
and grass crops have made splendid
growth the past week, due to light
showers and cloudy weather, but no
pests appear. The hop crop shows
strong growth this week, except some
old yards where vines are spindling,
due to wet soil and cool weather.
With warmer weather they will catch
up. Not over 500 bales of old hops are
in growers' hands here.

Salem Social Notes.

At the Salem Women's club meet-
ing this afternoon, the president, Mrs.
T. T. Geer, announced the heads of
the five departments. The club now
has a membership of 30.

There were a number of lodge recep-
tions the past week, the Rebekahs en-
tertaining in honor of Mrs. O. D.
Hutton and Mrs. Mabel West, who
leave this city in a few days. Wednes-
day night, the Degree of honor and
Protection Lodge, A. O. U. W., en-
tertained Mrs. O. D. Hutton, of Nel-
son, B. C., and S. A. McFadden, Ore-
gon delegate to the supreme lodge at
Buffalo, N. Y.

EXPECTING 3000 GUESTS

Boise Will Have That Many During
Mining Congress.
Boise, Ida., May 27.—The city of
Boise is preparing to entertain July
3000 visitors during the session of the
International Mining Congress, to be
held July 23, 24 and 25. This will be
a great undertaking, where the hotel
accommodations are for less than 2000
people, but every home in Boise will
be thrown open and the city will be
practically turned over to the visitors.
The cities of Knoxville, Tennessee;
Cleveland, Ohio; Los Angeles, Cali-
fornia, are active candidates for next
year's session.

News has been received at headquar-
ters that Cleveland will enlist the
services of Senator Mark Hanna and
that he will head the delegation from
that city. The delegates from Missouri
will come in a special train, as will
those from Illinois. According to Sec-
retary Mahon, such widespread in-
terest in a session of the congress was
never before manifested. The
Natatorium building, one of the largest
and handsomest structures of the kind
in the United States, will be reserved
for the mineral exhibit, while its
spacious grounds will be at the service
of manufacturers desiring to exhibit
mining machinery.
