CONTRARY ARE INTERPRETATIONS OF COURT RULING

Congressman Grosvenor Gives His Opinion.

HE IS THE PRESIDENT'S MOUTHPIECE

Says Insular Possessions Become Part of the United States for Every Purpose, With Some Limitations.

Washington, May 28.—Because of the contrary interpretations placed upon the supreme court's decision in the insular cases, Congressman Charles H. Grosvenor, of Ohio, has given this assertion of his legal opinion on the subject.

"The court holds that, by the ratification of the Paris treaty, the insular possessions become parts of the United States for every purpose, with the limitation that congress has complete and ample power to legislate independent of tariff limitations in the constitution in regard to those islands, and the same result necessarily follows as to the question of citizenship and every other question, the court putting those islands upon a footing exactly like that of the District of Columbia."

From a Pastor

"I am the pastor of the Baptist Church at Fort Lewis, N. Y., and sometimes am called upon to take part in evangelistic work away from home. Not long ago I went to Nandy Creek, N. Y., which is swept by the damp winds from Lake Ontario. Here I contracted a bad cough, and became so hoarse that I could hardly preach to my congregation. It was not only my duty to benefit mankind physically as well as spiritually whenever I can, and am glad to write these words in praise of this grand old medicine. Those with sensitive throats and those who catch cold easily should certainly take Acker's English Balm."
