Two men were reported missing, but they are now accounted for.

St. Paul, May 29.—E. W. Winter, formerly president of the Northern Pacific railroad, is dangerously ill in Chicago.

"I hope others will do as I did."

"I suffered for six years with ovarian trouble," writes Mrs. E. Waite, of Chicago, Ill. (Lake View Postoffice.) "Sometimes I could hardly walk, and when I had to cough it felt as though a knife was cutting me. My hands and feet were cold all the time. I had such a tired feeling and such a poor appetite, and when I went to bed I slept only about two hours at a time. I got a bottle of 'Favorite Prescription' and by the time I had used two bottles I felt so much better that I continued until I had taken eight bottles of 'Favorite Prescription' and one of 'Golden Medical Discovery,' and now I am so well that my friends remark how well I am looking. I go to bed now and sleep till morning. My appetite is splendid and that tired feeling has left me. I hope others will do as I did—give Dr. Pierce's medicines a fair trial."

CHINA WILL PAY INDEMNITY OF \$315,000,000

State Department Gets Confirmation of Report.

PAYMENT WILL BE VERY PROMPT

Moogols Are Anxious to Get Soldiers Off Their Backs, Hence the Hurry on Their Part.

Washington, May 29.—The state department has received confirmation of the report that China has agreed to pay the demands of the powers for an indemnity of \$315,000,000. The reason for prompt acceptance of these terms is probably the fact that expenses of the allied forces in China amount to \$100,000 a day, which China would have to pay for.

SAGASTA TO HAVE ENOUGH

Spanish Premier Will Have Majority in Chamber of Deputies.

Madrid, May 29.—As a result of the parliamentary elections Senor Sagasta will have a workable majority in the new chamber of deputies. This is considered, however, of various factions, which would probably not co-operate under any other chief than the western head of the dynastic liberals. The opposition, mainly conservative, under Silveira, will still be large enough to place an effective check upon the efforts of the radical section of the ministerialists.

It remains to be seen whether the disturbances in Barcelona, chiefly promoted by anarchists, together with the religious and separatist movement in Catalonia, which, during the last month, has shown exceptional force, will endanger the position of Sagasta, who, in normal conditions, would undoubtedly conduct the government of the reformed and rapidly approaching termination on the coming of age of King Alfonso.

A MACHINISTS' CONFERENCE

Chicago May Settle Strike for the Entire Country.

Chicago, May 29.—A joint executive conference between representatives of the machinists' and the National Metal Traders' associations, to settle local differences, is being held here today. The nine-hour day is likely to be granted, but trouble may arise over the wage question, members on each side of the committee opposing the ten per cent increase.

A REMARKABLE CASE.

Of a Minister and His Son in a Police Court.

A Norfolk, Va., dispatch says: E. W. Matthews, formerly a minister of the gospel, was sent to jail here yesterday afternoon for habitual drunkenness. The case excites universal sympathy.

Matthews comes of a good family and about ten years ago entered the ministry. He married an accomplished and beautiful girl, and on account of his brilliancy gained great popularity.

About six years ago his wife died, leaving a baby boy. Matthews was heartbroken and began to drink. He lost the confidence of the people and soon became a street loafer.

All this time he has been devoted to his child. They were constant companions, frequently sleeping in the street together. The child, at the trial of the father, clung around his neck and refused to be separated from him. The little fellow seemed to realize the situation and kept crying out: "Papa will be good; papa will be good." A policeman tried to persuade the child to go home, but the little fellow refused and father and child are now occupying the same cell.

A BUDA PEST IDEALIST

Premier Who Would Purify the Parliament.

An Attempt to Exclude Business Men Interested in the Government Supplies From the Body.

Budapest, May 29.—M. Koloman de Szell, the Hungarian premier, is making a supreme effort to purify parliament. He has introduced a measure of the most comprehensive character aimed at corrupt combinations between the legislators and public companies doing business with the state. These combinations have of late developed colossal frauds and shaken the faith of the Hungarian masses in the rectitude of public life.

When M. de Szell took office two years ago he promised Count Albert Apponyi, former leader of the national party, that the law defining the disabilities of members in the lower house should be revised. In consequence of this and other promises, Apponyi and his followers subsequently joined the liberals, who are now the governmental party.

As the law stands a candidate for parliament must choose between his seat and for instance a seat on the board of a commercial or industrial company doing business with the state. This disability has recently been interpreted in the widest sense. The Hungarian socialists made it their business to compile from the lists of directors of public companies a catalogue of members of parliament and to denounce them to the lower house as disqualified. The result has been that member after member has been unseated.

By the terms of the new disability bill—which was for some months in the hands of a special committee, in which the socialists were numerously represented—almost every man of business is practically excluded from the lower house. If the amendments recommended are adopted, every manufacturer, engineer, electrician and land owner, who sells, if only once, industrial or agricultural products from his own warehouse, shop or estate to the war office, will be ineligible to parliament. The amendments would exclude a newspaper proprietor who published official advertisements, a member of the board of a joint stock company, or a bank director.

Railroaders to Meet.

Chicago, May 29.—The National Association of Railroad commissioners is to be an international organization. At the coming convention, which will be held in San Francisco, beginning June 5, it is proposed to change the name to the International Association of Railroad commissioners, and to invite Canada and Mexico to membership. The question was extensively discussed among members of the commission, representing 30 states, who are gathered here preparatory to starting for California.

Van Wert, Ohio, May 29.—President McKinley arose this morning to shake hands with the crowd at Ft. Wayne. Mrs. McKinley passed a comfortable night.

Big Fire at Spokane.
