JUSTICE

Justice is portrayed as a woman, yet her sex might complain that they get scant benefit from her power. There is little justice in the world, for the suffering that many women undergo month after month.

Justice acts upon the legal maxim that ignorance of the law cannot be pleaded in mitigation of punishment. It is ignorance which causes so much womanly suffering. Ignorance of the requirements of womanly health; ignorance on the part of those who attempt to cure and fail, and ignorance of the fact that Pierce's Favorite Prescription cures womanly diseases. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

When I first wrote to Doctor Pierce concerning my health, says Mrs. Mattie B. Carpenter, of Lincoln, Cambridge Co., Tenn., "I was so weak I could only write a few words until I would have to rest. I was so weak I could hardly walk. Words cannot express my sufferings. I was dizzy, had headaches, shortness of breath, black spots of vision, light before my eyes, terrible nervousness, numbness in my arms and hands and tongue, also my jaws would get numb; constipation, falling of the dyspeptic drags, soreness through my bowels; in fact I was diseased from head to foot. Now I can do my own washing and cooking. I can take a ten quart pail in one hand and a six quart pail in the other (full of water), and carry both one-fourth of a mile and never stop to rest. I am as heavy as I was at 19 years of age, and I have gained 75 pounds (125 pounds). I used Dr. Pierce's Golden Medical Discovery and twenty-five vials of Pleasant Pellets."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

"MALICIOUS ANIMAL MAGNETISM"

This Causes Interest in Big Libel Suit.

CHRISTIAN SCIENTISTS INTERESTED

Boston the Scene of a Sensational Airing of the Inner Affairs of the New Cult.

Boston, June 5.—At 1 o'clock this afternoon the plaintiff in the suit for \$150,000 damages against Mrs. Eddy came to the first period, and the defense filed a motion for dismissal. "Malicious animal magnetism" is the quality which Mrs. Woodbury was charged with possessing by the pastor emeritus of the Christian Science church. According to the evidence this morning and letters produced in court this "malicious animal magnetism" factor is the one which caused all the trouble in the Christian Science feud, and was responsible for Mrs. Woodbury's ex-communication and later on the libel suit.

Second Time Such a Thing Has Happened Since the Institution Was Founded.

Gothenburg, Ky., June 5.—For the second time within its history, a woman passed within the walls of the Trappist monastery here today. Several years ago, the wife of Proctor Knott, then governor of Kentucky, was a guest. Today, the wife of Governor Beckham visited the monastery. The rules of the order prohibit the admission of women, the only exception being the wives and friends of the chief executive of the community in which the monastery is located. The monks were allowed to recognize the presence of Mrs. Beckham only by a slight bow, as the rules forbid a member of the order to speak, except to the abbey and then on matters of official business.

PUT BLAME ON KITCHENER

The General Charged With Suppressing News of the War.

New York, June 5.—A dispatch to the Tribune from London says: The war office authorities have lost no time in saddling Lord Kitchener with responsibility for the non-satisfying of public demand of trustworthy news from South Africa. Suspicion notwithstanding, still exists that the home officials are holding back some information. The war office is being inundated with numerous inquiries because of the currency that has been given to a rumor of a serious British defeat. It would not injure the British army if the details of the Vlakfontein fight which must by this time have reached Lord Kitchener, were telegraphed home and it would help to relieve the uneasiness felt by a million or more of Englishmen with relatives at the front.

Sam Dopp, a neighboring saloonkeeper, rushed to the aid and killed Arnold with buckshot. Citizens over-powered the crazed man and hustled him to the Gladwin jail, 11 miles away to prevent lynching.

PENDLETON HAS DONE THIS.

An Anti-Expectation Ordinance is Wanted in Baker City.

"I wish some one would get up a petition asking the city council to pass an ordinance prohibiting expectorating on the sidewalks," says a lady to a Herald reporter today. "The practice has become so annoying that it is almost useless for a lady to wear a decent dress, as it is sure to become spoiled before she has traveled three blocks of the main street. Other cities have passed and enforce such an ordinance and I see no reason why Baker City should be backward." The above is one of the many expressions heard on the streets every day. The spoiling of a lady's dress is but trivial compared with the question of health in connection with this matter. All physicians will agree that disease germs are bred in the expectorations that cover the sidewalk, and they also agree that one of the wisest things the city council could do would be to pass an ordinance covering the matter. It is believed that if a petition of such a nature were presented to the council, that body would take action, says the Baker City Herald.

AMERICAN HORSE WON THE DERBY

W. C. Whitney's Volodyovski Was the Victor.

RIEFF WAS THE RIDING JOCKEY

It is the Big Sporting Event of England and Yankees Won Large Sums on the Race.

London, June 5.—The Derby, England's greatest turf event, was run today, and won by Wm. C. Whitney's Volodyovski, ridden by Lester Reiff, an American jockey. The winner was the favorite at 5 to 2.

The Derby aroused for greater enthusiasm than usual, owing to its open character. Nearly every owner represented thought his horse had a chance, and the same sanguine view was reflected by the public. The betting, consequently, was more widespread than usual. The field numbered about 26.

W. C. Whitney's Volodyovski (L. Reiff) remained a strong favorite at 5 to 2. All those directly interested in the horse were extremely sanguine, though they somewhat dread the size of the field. William the Third, Florio, Revenue and Handicapper were all staunchly supported.

There was great enthusiasm at the finish, as the winner was a popular one. Many prominent Americans witnessed the race and won heavily as a result of the victory. Jockey Reiff was given the ovation of his life. The gross value of the stake was \$29,000, most of which goes to the winner.

TO CORNER THE REDWOOD

Big Trust to Be Formed With That as the Object.

San Francisco, June 5.—The Examiner says: There can be no doubt that there is in process of formation a combination, having for its ultimate object the gathering in of all the redwood interests on this coast. The capital of this combination will be somewhere between \$15,000,000 and \$20,000,000 and the men who represent the capitalists interested in the project are in this city.

The land which it is proposed to secure is in the redwood counties of the state, the acreage being distributed as follows: Humboldt, 420,000 acres; Mendocino, 500,000 acres and Del Norte, 125,000 acres a total of 1,145,000 acres. A. B. Hammond, of Missoula, Mont., who recently purchased the Vance Lumber company of Eureka and who is now building planing mills and a saw and door factory in that Humboldt county town is one of the principal men concerned in the proposed combination.

MINERS WANT PURE BLOOD.

Federation Resolves Against Non-Caucasian Race Taking by the Nation.

Denver, June 5.—The Western Federation of Miners adopted the resolutions that were adopted last week by the Western Labor union in favor of a new labor party. A preamble of the resolutions contains the following paragraph:

"We advise the toiler to be ever on the alert in defense of his rights, to educate himself to protect those rights by a peaceful use of the ballot, so long as the feasibility of such means will justify the end in view when not, let us be prepared to meet the enemy with the weapons of his choice and rather spill every drop of life-giving fluid at the point of the bayonet than submit to further oppression on the part of our aggressors.

The resolutions say: "We are opposed to the expansion of our national boundaries for the acquisition of a territory populated by other than the Caucasian race.

"We view with alarm the evident desire to increase the standing army. Therefore we express the hope that the members of organized labor everywhere will refrain from voluntary enlistment in the department of federal or state military service."
